Pretreatment Standards

On May 28, 1974; March 20, 1974; March 21, 1974; June point source category (40 CFR Part 407); and a discussion of these comments with the agencies response thereto follows:

The following responded to one or more of the requests for written comments contained in the preambles to the proposed regulations: Great Western Sugar Company; National Independent Meat Packers Association; American Meat Institute; The Soap and Detergent Association; Rohm and Haas Company; and the Metropolitan Sanitary District of Greater Chicago. Each of the comments received was carefully reviewed and analyzed. A summary of the significant comments and the Agency’s response to those comments for each of the industries follows.

Dairy Products Processing Industry Point Source Category (40 CFR Part 405)

1. A commenter indicated that high concentrations of BOD$5$ in the two whey subcategories may upset treatment works.

Difficulty may be experienced in maintaining normal treatment efficiencies without special operational procedures when the BOD$5$ concentration attributable to whey becomes extremely high. This is especially true when there is not sufficient equalization present to prevent shock loading. Thus, it may be that there are situations where whey may not be amenable to treatment depending on the relative quality and quantity of influent to the municipal system and the design and operating characteristics of the publicly owned treatment works. Any discharger whose waste causes an upset or interferes with the operation or performance of the works shall be in violation of the prohibited wastes section (§ 128.131) of the general pretreatment regulation (40 CFR Part 128).

GRAND MILLS POINT SOURCE CATEGORY (40 CFR Part 406)

1. No comments were received concerning this industry.

Canned and Preserved Seafood Processing Point Source Category (40 CFR Part 408)

1. One commenter indicated that excessive discharges of oil and grease may pass through or interfere with the operation of a publicly owned treatment works.

Oil and grease, particularly from animal and vegetable sources, can be treated by biological techniques in a properly operated municipal treatment plant. Excessive discharges of oil and grease which would upset or interfere with the operation or performance of such publicly owned treatment works would be in violation of the prohibited wastes section (§ 128.131) of the general pretreatment regulation (40 CFR Part 128).

BEEF SUGAR PROCESSING POINT SOURCE SUB-CATEGORY (40 CFR Part 409)

5. A comment was received concerning the temperature parameter for this industry.

The discharges from the beef sugar industry generally range between 85-86°C. If a facility discharges to a municipal treatment works, dilution and heat losses in the interceptor system will normally prevent these discharges from adversely affecting the treatment works. During
cold weather these warm discharges can actually prove beneficial to the biological systems in the treatment plant. Several commenters had no objections to the pretreatment standards for existing sources proposed.

(7) One commenter expressed concern regarding the extremely high concentrations of BODS and TSS in the filter cake slurry waste water. Although the filter cake slurry waste water stream is considered to be highly amenable to treatment, the extremely high concentrations of BODS and TSS therein could, in some cases, interfere with the operation of publicly owned treatment works. These special situations should be controlled by the operators of the treatment works involved. Such control should not pose undue difficulty since the highly concentrated waste can be dry handled and disposed of as solid waste by the publicly owned treatment works. Any discharger whose waste causes an upset or interferes with the operation or performance of the publicly owned treatment works shall be in violation of the prohibited wastes section (§ 128.131) of the general pretreatment regulation (40 CFR Part 128).

GLASS MANUFACTURING POINT SOURCE CATEGORIES (40 CFR PART 420)

(12) No comments were received concerning the subparagraphs being considered for promulgation.

ASBESTOS MANUFACTURING POINT SOURCE CATEGORY (40 CFR PART 427)

(13) One commenter was concerned with the disposal of sludges containing asbestos fibers. Waste from this industry category can contain large amounts of asbestos fibers. These wastes should not be introduced into (1) publicly-owned treatment works whose effluents could affect a potable water supply or (2) publicly-owned treatment works that dispose of sludges without adequate safeguards to prevent such contamination or, if such conditions do not exist, artificial means (e.g. liners) must be provided to insure long-term protection. Where such control is not provided for sludges containing significant quantities of asbestos fibers, they should be excluded from the municipal sludge and disposed of separately under controlled conditions.

PULP, PAPER AND PAPERBOARD POINT SOURCE CATEGORY (40 CFR PART 430)

(14) No comments were received.

BUILDERS PAPER AND ROOFING FELT SEGMENT OF THE BUILDERS PAPER AND BOARD MILLS POINT SOURCE CATEGORY (40 CFR PART 431)

(15) Several comments were received questioning the necessity of a settleable solids limitation in addition to a suspended solids limitation. Settleable solids are those suspended solids which settle out in one hour or less. Since this type of solids is present in all municipal and domestic wastes, they are readily treated in the primary units of a municipal treatment facility and therefore no limitation is established for this parameter in this regulation. Thence discharged, suspended solids cause an upset or interfere with the operation or performance of the publicly owned treatment works shall be in violation of the prohibited wastes section (§ 128.131) of the general pretreatment regulation (40 CFR Part 128).
PART 405—DAIRY PRODUCTS PROCESSING POINT SOURCE CATEGORY

The table of contents to Part 405 is amended by adding the following new entries to the indicated subparts:

- Subpart B—Fluid Products Subcategory
  - 405.24 Pretreatment standards for existing sources.
- Subpart C—Cultured Products Subcategory
  - 405.28 Pretreatment standards for existing sources.
- Subpart D—Butter Subcategory
  - 405.44 Pretreatment standards for existing sources.
- Subpart E—Cottage Cheese and Cultured Cream Cheese Subcategory
  - 405.54 Pretreatment standards for existing sources.
- Subpart F—Natural and Processed Cheese Subcategory
  - 405.64 Pretreatment standards for existing sources.
- Subpart G—Fluid Milk for Ice Cream and Other Frozen Desserts Subcategory
  - 405.74 Pretreatment standards for existing sources.
- Subpart H—Ice Cream, Frozen Desserts, Novelties and Other Dairy Desserts Subcategory
  - 405.84 Pretreatment standards for existing sources.
- Subpart I—Condensed Milk Subcategory
  - 405.94 Pretreatment standards for existing sources.
- Subpart J—Dry Milk Subcategory
  - 405.104 Pretreatment standards for existing sources.
- Subpart K—Condensed Whey Subcategory
  - 405.114 Pretreatment standards for existing sources.
- Subpart L—Dry Whey Subcategory
  - 405.124 Pretreatment standards for existing sources.

Part 405 is amended as follows:

1. Subpart A is amended by adding §405.14 as follows:

   §405.14 Pretreatment standards for existing sources.

   The pretreatment standards under section 307(b) of the Act for a source within the receiving stations subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.123, and 128.124 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

   - Pollutant or pollutant property: TSS
     - Standard: No limitation.

2. Subpart B is amended by adding §405.24 as follows:

   §405.24 Pretreatment standards for existing sources.

   The pretreatment standards under section 307(b) of the Act for a source within the fluid products subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.123, and 128.124 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

   - Pollutant or pollutant property: pH
     - Standard: Limitation.
   - BOD
     - Standard: Limitation.
   - TSS
     - Standard: Limitation.

3. Subpart C is amended by adding §405.34 as follows:

   §405.34 Pretreatment standards for existing sources.

   The pretreatment standards under section 307(b) of the Act for a source within the cultured products subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.123, and 128.124 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

   - Pollutant or pollutant property: pH
     - Standard: Limitation.
   - BOD
     - Standard: Limitation.
   - TSS
     - Standard: Limitation.

4. Subpart D is amended by adding §405.44 as follows:

   §405.44 Pretreatment standards for existing sources.

   The pretreatment standards under section 307(b) of the Act for a source within the butter subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.123 and 128.124 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

   - Pollutant or pollutant property: pH
     - Standard: Limitation.
   - BOD
     - Standard: Limitation.
   - TSS
     - Standard: Limitation.

5. Subpart E is amended by adding §405.54 as follows:

   §405.54 Pretreatment standards for existing sources.

   The pretreatment standards under section 307(b) of the Act for a source within the cottage cheese and cultured cream cheese subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.123, and 128.124 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

   - Pollutant or pollutant property: pH
     - Standard: Limitation.
   - BOD
     - Standard: Limitation.
   - TSS
     - Standard: Limitation.

6. Subpart F is amended by adding §405.64 as follows:

   §405.64 Pretreatment standards for existing sources.

   The pretreatment standards under section 307(b) of the Act for a source within the natural and processed cheese subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.123, and 128.124 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this section.
section, 40 CFR 128.121, 128.122, 128.123 and 128.133 shall not apply. The follow-
ing pretreatment standard establishes the quantity or quality of pollutants or pollut-
properties controlled by this section which may be discharged to a public-
owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property: Pretreatment standard

PH ........................................... No limitation.

BOD5 ........................................ Do.

TSS .......................................... Do.

7. Subpart G is amended by adding § 405.74 as follows:

§ 405.74 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the cloud mix for ice cream and other frozen desserts subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.123, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollut-
properties controlled by this section which may be discharged to a public-
owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property: Pretreatment standard

PH ........................................... No limitation.

BOD5 ........................................ Do.

TSS .......................................... Do.

8. Subpart H is amended by adding § 405.84 as follows:

§ 405.84 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the dry milk subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.123, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollut-
properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property: Pretreatment standard

PH ........................................... No limitation.

BOD5 ........................................ Do.

TSS .......................................... Do.

9. Subpart I is amended by adding § 405.94 as follows:

§ 405.94 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the condensed milk subcategory which is a user of a publicly owned treatment works and a major contrib-
uting industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.123, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollut-
properties controlled by this section which may be discharged to a public-
owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property: Pretreatment standard

PH ........................................... No limitation.

BOD5 ........................................ Do.

TSS .......................................... Do.

10. Subpart J is amended by adding § 405.104 as follows:

§ 405.104 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the dry milk subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.123, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollut-
properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property: Pretreatment standard

PH ........................................... No limitation.

BOD5 ........................................ Do.

TSS .......................................... Do.

11. Subpart K is amended by adding § 405.114 as follows:

§ 405.114 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the condensed milk subcategory which is a user of a publicly owned treatment works and a major contribute-
ning industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.123, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollut-
properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property: Pretreatment standard

PH ........................................... No limitation.

BOD5 ........................................ Do.

TSS .......................................... Do.
§ 406.14 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the corn dry milling subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property: 
BOD5 No limitation.
TSS Do.

§ 406.24 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the bulgur wheat flour milling subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property: 
BOD5 No limitation.
TSS Do.

§ 406.44 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the apple juice subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property: 
BOD5 No limitation.
TSS Do.

PART 407—CANNED AND PRESERVED FRUITS AND VEGETABLES PROCESSING POINT SOURCE CATEGORY

The table of contents is amended by adding the following sections to the indicated subparts:

Subpart A—Apple Juice Subcategory
Sec. 407.14 Pretreatment standards for existing sources.

Subpart B—Apple Products Subcategory
407.24 Pretreatment standards for existing sources.

Subpart C—Citrus Products Subcategory
407.34 Pretreatment standards for existing sources.

Subpart D—Frozen Potato Products Subcategory
407.44 Pretreatment standards for existing sources.

Subpart E—Hydrated Potato Products Subcategory
407.54 Pretreatment standards for existing sources.

§ 407.46 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the apple juice subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property: 
BOD5 No limitation.
TSS Do.
pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pretreatment property: *pretreatment standard*

- pH: ________________________ *no limitation*
- BODS: _____________________ *Do*
- TSS: _______________________ *Do*

2. Subpart B is amended by adding § 407.24 as follows:

§ 407.24 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the apple products subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.123, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pretreatment property: *pretreatment standard*

- pH: ________________________ *no limitation*
- BODS: _____________________ *Do*
- TSS: _______________________ *Do*

3. Subpart C is amended by adding § 407.34 as follows:

§ 407.34 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the citrus products subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.123, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pretreatment property: *pretreatment standard*

- pH: ________________________ *no limitation*
- BODS: _____________________ *Do*
- TSS: _______________________ *Do*

4. Subpart D is amended by adding § 407.44 as follows:

§ 407.44 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the frozen potato products subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pretreatment property: *pretreatment standard*

- pH: ________________________ *no limitation*
- BODS: _____________________ *Do*
- TSS: _______________________ *Do*

PART 408--CANNED AND PRESERVED SEAFOOD PROCESSING POINT SOURCE CATEGORY

The Table of contents is amended by adding the following new sections to the indicated subparts:

Subpart A—Farm Raised Catfish Processing Subcategory

Sec. 408.14 Pretreatment standards for existing sources.

Subpart B—Conventional Blue Crab Processing Subcategory

408.24 Pretreatment standards for existing sources.

Subpart C—Mechanized Blue Crab Processing Subcategory

408.34 Pretreatment standards for existing sources.

Subpart D—Non-Remote Alaskan Crab Meat Processing Subcategory

408.44 Pretreatment standards for existing sources.

Subpart E—Remote Alaskan Crab Meat Processing Subcategory

Sec. 408.54 Pretreatment standards for existing sources.

Subpart F—Non-Remote Alaskan Whole Crab and Crab Section Processing Subcategory

408.64 Pretreatment standards for existing sources.

Subpart G—Remote Alaskan Whole Crab and Crab Section Processing Subcategory

408.74 Pretreatment standards for existing sources.

Subpart H—Dungeness and Tanner Crab Processing in the Contiguous States Subcategory

408.84 Pretreatment standards for existing sources.

Subpart I—Non-Remote Alaskan Shrimp Processing Subcategory

408.94 Pretreatment standards for existing sources.

Subpart J—Remote Alaskan Shrimp Processing Subcategory

408.104 Pretreatment standards for existing sources.

Subpart K—Northern Shrimp Processing in the Contiguous States Subcategory

408.114 Pretreatment standards for existing sources.

Subpart L—Southern Non-Breadcrt Shrimp Processing in the Contiguous States Subcategory

408.124 Pretreatment standards for existing sources.

Subpart M—Breadcrt Shrimp Processing in the Contiguous States Subcategory

408.134 Pretreatment standards for existing sources.

Subpart N—Tuna Processing Subcategory

408.144 Pretreatment standards for existing sources.

Part 408 is amended as follows:

1. Subpart A is amended by adding § 408.14 as follows:

§ 408.14 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the farm raised catfish processing subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pretreatment property: *pretreatment standard*

- pH: ________________________ *no limitation*
- BODS: _____________________ *Do*
- TSS: _______________________ *Do*

FEDERAL REGISTER, VOL. 40, NO. 29—TUESDAY, FEBRUARY 11, 1975
§ 408.24 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the conventional blue crab processing subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.123, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

PART 409—BEET AND LIQUID AND CRYSTALINE CANE SUGAR PROCESSING POINT SOURCE SUBCATEGORY

The table of contents is amended by adding the following sections to the indicated subparts:

Subpart A—Beet Sugar Processing Subcategory Sec.

409.14 Pretreatment standards for existing sources.

Subpart B—Crystaline Cane Sugar Refining Subcategory 409.24 Pretreatment standards for existing sources.

Subpart C—Liquid Cane Sugar Refining 409.24 Pretreatment standards for existing sources.

Part 409 is amended as follows:

1. Subpart A is amended by adding § 409.14 as follows:

§ 409.14 Pretreatment standards for existing sources.

The pretreatment standards under section 307(b) of the Act for a source within the beet sugar processing subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.
