ABOUT THE URBAN WATERS FEDERAL PARTNERSHIP
This partnership reconnects urban communities, particularly those that are overburdened or economically distressed, with their waterways by improving coordination among federal agencies and collaborating with community-led revitalization efforts to improve our Nation’s water systems and promote their economic, environmental and social benefits. Specifically, the Urban Waters Federal Partnership:

- Breaks down federal program silos to promote more efficient and effective use of federal resources through better coordination and targeting of federal investments.
- Recognizes and builds on local efforts and leadership, by engaging and serving community partners.
- Works with local officials and effective community-based organizations to leverage area resources and stimulate local economies to create local jobs.
- Learns from early and visible victories to fuel long-term action.

WHY ARE URBAN WATERS IMPORTANT?
In many urban areas—especially those that are overburdened or underserved—every resource counts. Clean water is the one resource that is often taken for granted but is also most vital. Each of us relies on clean water every day—from the water we drink, shower, and swim in, to the water we use to feed our crops. But its value is larger than that. Clean water helps communities thrive, playing a key role in helping grow local businesses and enhance educational, recreational, and social opportunities in the areas through which they pass. Urban communities know this, and all across the country, local groups are working to restore their water resources and reconnect their communities to them. The Urban Waters Federal Partnership is committed to supporting these communities in that action—helping them reclaim the water resources that are vital to their success.

DESIGNATED LOCATIONS FOR ACTION

November 2014
**URBAN WATERS PARTNERSHIP PRINCIPLES**

These principles guide the work of the partnership, both nationally and in partnership locations:

- Promote clean urban waters.
- Reconnect people to their waterways.
- Water conservation.
- Use urban water systems to promote economic revitalization and prosperity.
- Encourage community improvements through active partnerships.
- Be open and honest: listening to communities is the best way to engage them.
- Focus on measuring results and evaluation to fuel future success.

**FEDERAL PARTNERS**

- US Army Corps of Engineers, Department of the Army (USACE-DA)
- Centers for Disease Control and Prevention, US Department of Health and Human Services (CDC-HHS)
- Corporation for National and Community Service (CNCS)
- US Department of Agriculture (USDA)
- US Department of Education (ED)
- US Department of Housing and Urban Development (US HUD)
- US Department of the Interior (US DOI)
- US Department of Transportation (US DOT)
- US Economic Development Administration, US Department of Commerce (EDA-DOC)
- US Environmental Protection Agency (US EPA)
- National Institute of Environmental Health Sciences, US Department of Health and Human Services (NIEHS-HHS)
- National Oceanic and Atmospheric Administration, US Department of Commerce (NOAA-DOC)

Led by federal agencies and coordinated by the White House Council on Environmental Quality and Domestic Policy Council, the Urban Waters Federal Partnership closely aligns with and advances the work of the White House’s place-based efforts, including the Partnership for Sustainable Communities and the Strong Cities, Strong Communities (SC2) Initiative, to revitalize communities, create jobs and improve the quality of life in cities and towns across the nation.

**NON-GOVERNMENTAL ORGANIZATION AND ASSOCIATION PARTNERS**

In December 2014, 28 non-governmental organizations and association partners signed a statement of support of the Urban Waters Federal Partnership Vision, Mission, and Principles. These partners will support the federal agencies by aligning resources, funding, and expertise to restore urban waters, parks, and greenspaces; increase outdoor recreation; engage youth and residents at pilot sites; and create new initiatives or projects nationally or at the state or local levels that achieve complementary results.
