MEMORANDUM TO THE FILE:

CAMP MINDEN/EXPLO SYSTEMS

On January 14, 2014 the Louisiana Department of Environmental Quality and the Louisiana National Guard sent a letter to the Region stating that EPA had not provided Louisiana the opportunity to select alternative disposal technologies or review the selection process. In addition, there are many concerns expressed by the community of the safety of the controlled open burn tray disposal method. Because of this, I signed a 90 day extension to the deadlines in the Administrative Settlement Agreement and Order on Consent for Removal Action that had been signed by these two parties to allow them time to assess alternative approaches.

Carl E. Edlund

Director, Superfund Division

EPA Region 6
