RE: Notice of Citizen Suit Concerning Clean Air Act Deadlines

Dear Administrator McCarthy,

This is a notice of “a failure of the Administrator to perform any act or duty under this chapter which is not discretionary with the Administrator” within the meaning of section 304(a)(2) of the Clean Air Act (“CAA”), 42 U.S.C. § 7604(a)(2). This notice is provided to you as Administrator of the U.S. Environmental Protection Agency (“EPA”), in your official capacity, pursuant to section 304(b)(2), 42 U.S.C. § 7604(b)(2), and 40 C.F.R. Part 54, as a prerequisite to bringing a civil action.

The organizations giving this notice are: California Communities Against Toxics, P.O. Box 845, Rosamond, CA 93560, (661) 510-3412; and Sierra Club, 85 Second Street, 2d Floor, San Francisco, California 94105, (415) 977-5500.

Section 112(f) - Standards to Protect Health and Environment. Section 112(f) of the Clean Air Act provides that:

(A) [T]he Administrator shall, within 8 years after promulgation of standards for each category or subcategory of sources pursuant to [§ 112(d)], promulgate standards for such category or subcategory if promulgation of such standards is required in order to provide an ample margin of safety to protect public health in accordance with this section (as in effect before November 15, 1990) or to prevent, taking into consideration costs, energy, safety, and other relevant factors, an adverse environmental effect. If standards promulgated pursuant to [§ 112(d)] and applicable to a category or subcategory of sources emitting a pollutant (or pollutants) classified as a known, probable or possible human carcinogen do not reduce lifetime excess cancer risks to the individual most exposed to emissions from a source in the category or subcategory to less than

one in one million, the Administrator shall promulgate standards under this subsection for such source category.

...

(C) The Administrator shall determine whether or not to promulgate such standards and, if the Administrator decides to promulgate such standards, shall promulgate the standards 8 years after promulgation of the standards under [§ 112(d)] for each source category or subcategory concerned

42 U.S.C. § 7412(f)(2). More than eight years have passed since EPA promulgated the following standards under CAA § 112(d) for the following categories of major sources of hazardous air pollutants:

Nonetheless, you have neither promulgated standards for these categories pursuant to CAA § 112(f), nor determined that such standards are not “required in order to provide an ample margin of safety to protect public health in accordance with this section . . . or to prevent, taking into consideration costs, energy, safety, and other relevant factors, an adverse environmental effect.” 42 U.S.C. § 7412(f)(2). There are no section 112(f)(2) standards or final residual risk determinations currently in force or effect after publication in the Federal Register for these sources. Accordingly, you have failed to perform a nondiscretionary duty within the meaning of Clean Air Act § 304(a)(2) for each of the above-listed standards and source categories.

Section 112(d)(6) – MACT Review and Revision. Section 112(d)(6) of the Clean Air Act requires EPA to “review, and revise as necessary (taking into account developments in practices, processes, and control technologies), emission standards promulgated under [§ 112] no less often than every 8 years.” 42 U.S.C. § 7412(d)(6). There are no revised, final standards promulgated pursuant to section 112(d)(6) or a section 112(d)(6) determination currently in force or effect after publication in the Federal Register for these sources.
