EPA funding					
Environmental Education Model Grants Program	EPA-EE-14-01	approximately \$576,600 nationwide	http://www2.epa.gov/education/environmental-education-ee-grants	check website for future opportunities	The purpose of this program is to support model, replicable projects that increase public awareness and knowledge about environmental issues and provide the skills that participants in its funded projects need to make informed environmental decisions and take responsible actions toward the environment.
Environmental Education Local Grants Program	EPA-EE-14-02	approximately \$2,730,000 nationwide	http://www2.epa.gov/education/environmental-education-ee-grants	check website for future opportunities	The purpose of the Environmental Education Local Grants Program is to support locally-focused environmental education projects that increase public awareness and knowledge about environmental issues and provide the skills that participants in its funded projects need to make informed environmental decisions and take responsible actions toward the environment.
EPA Regional Applied Research Effort (RARE) Program	N/A	varies	http://www.epa.gov/osp/regions/factsheets/RARE_FactSheet012014.pdf	check website for future opportunities	RARE has funded more than 200 high-priority research projects, from the Florida Everglades (a study looking at daily deposition of mercury due to rainfall in the Everglades and southern Florida) to rural Alaska (determining the fate and effects of leachate contamination on Alaska tribal drinking water sources). Annually, a network of 20 regional scientists foster constant communication between EPA's ten regional offices and the Agency's Office of Research and Development (ORD). RARE projects, identified by the regional scientists, answer key environmental questions that are important to communities and address regional and national research priorities. Click here for a map of EPA's regions: http://epa.gov/osp/regions.htm
Community Action for a Renewed Environment (CARE)	N/A	varies	http://www.epa.gov/care/	check website for future opportunities	Community Action for a Renewed Environment (CARE) is a competitive grant program that offers an innovative way for a community to organize and take action to reduce toxic pollution in its local environment. Through CARE, a community creates a partnership that implements solutions to reduce releases of toxic pollutants and minimize people's exposure to them. By providing financial and technical assistance, EPA helps CARE communities get on the path to a renewed environment. Currently, there are no plans to publish a Request for Proposal for the CARE program due to lack of congressional funding.
EPA Environmental Justice Small Grants Program	N/A	varies	http://www.epa.gov/environmentaljustice/grants/ej-smgrants.html	check website for future opportunities	The Environmental Justice Small Grants Program, supports and empowers communities working on solutions to local environmental and public health issues. The program assists recipients in building collaborative partnerships to help them understand and address environmental and public health issues in their communities. Successful collaborative partnerships involve not only well-designed strategic plans to build, maintain and sustain the partnerships, but also working towards addressing the local environmental and public health issues.
EJ Collaborative Problem-Solving Cooperative Agreements Program	N/A	varies	http://www.epa.gov/environmentaljustice/grants/ej-cps-grants.html	anticipated opening in September 2015	The Environmental Justice Collaborative Problem-Solving (CPS) Cooperative Agreement Program provides funding for eligible applicants for projects that address local environmental and public health issues within an affected community. The CPS Program is designed to help communities understand and address exposure to multiple environmental harms and risks.

Name	Funding Opportunity Number	Amount	Website	Closing Date	Additional Information
Pollution Prevention Grants (PPG) for States/Tribes	N/A	Up to \$200,000 per grant	http://www2.epa.gov/p2/grant-programs-pollution-prevention	check website for future opportunities	Builds and supports state pollution prevention (P2) capabilities and to test, at the state level, innovative pollution prevention approaches and methodologies.
National Clean Diesel Funding Assistance Program, FY 2014 Tribal Request for Proposals	EPA-OAR-OTAQ-14-06	up to \$800,000	http://www.epa.gov/cleandiesel/prgtribal.htm	15-Jul-15	EPA's Office of Transportation and Air Quality is soliciting proposals nationwide for Tribal projects that achieve significant reductions in diesel emissions in terms of tons of pollution produced by diesel engines and diesel emissions exposure, particularly from fleets operating in areas designated by the Administrator as poor air quality areas.
Environmental Justice Showcase Communities	N/A	varies	http://www.epa.gov/environmentaljustice/grants/ej-showcase.html	check website for future opportunities	The U.S. Environmental Protection Agency has committed \$1,000,000 to address environmental justice challenges in ten communities across the nation. The Agency is providing \$100,000 per project over the next two years to help alleviate the environmental and human health challenges facing many American communities.
College/Underserved Community Partnership Program	N/A	N/A	http://www2.epa.gov/communityhealth/collegeunderserved-community-partnership-program#getinvolved	N/A	Not a funding source, but provides free technical assistance to communities.
Source Reduction Assistance	N/A	Typically \$10,000-\$147,000	http://www2.epa.gov/p2/grant-programs-pollution-prevention#sra	check website for future opportunities	Supports source reduction/pollution prevention projects that will provide an overall benefit to the environment by preventing pollutants at the source.
Small Business Innovation Research (SBIR) Phase I Solicitation	SOL-NC-14-00014	up to \$100,000	http://www.epa.gov/ncer/sbir/	anticipated opening in summer 2015	The U.S. Environmental Protection Agency announces the release of the Small Business Innovation Research (SBIR) Program Solicitation to develop and commercialize new environmental technologies. EPA is one of 11 federal agencies that participate in the SBIR Program as a result of the Small Business Innovation Development Act of 1982. EPA is calling for small businesses to apply for Phase I awards up to \$100,000 to demonstrate proof of concept in one of the following topic areas: air and climate, manufacturing, toxic chemicals, water, building materials, food waste, and homeland security. Phase I awardees are eligible to receive Phase II funding, up to \$300,000 for two years, through an additional application process.
Regional Healthy Indoor Air Projects for Community Outreach and Education (IAQ)	66.043	varies	https://www.cfda.gov/index?s=program&mode=form&tab=step1&id=190b4a1b5e29ba2425636f3d6e9aed3b	check website for future opportunities	Objective is to support Surveys, Studies, Research, Investigations, Demonstrations and Special Purpose assistance for community based environmental health efforts relating to the causes, effects (including health and welfare effects), extent, prevention, and control of air pollution to include such topics as indoor air quality, indoor environments, indoor air pollution and indoor air pollutants. Projects should also focus on addressing environmental justice (EJ) and/or disproportionately impacted community concerns. EJ is the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies.

Name	Funding Opportunity Number	Amount	Website	Closing Date	Additional Information
Environmental Workforce Development and Job Training Grants	66.815	varies	http://www.epa.gov/brownfields/job.htm	check website for future opportunities	Annual Environmental Workforce Development and Job Training grants allow nonprofit and other organizations to recruit, train, and place predominantly low-income and minority, unemployed and under-employed people living in areas affected by solid and hazardous waste. Residents learn the skills needed to secure full-time, sustainable employment in the environmental field, including assessment and cleanup. These green jobs reduce environmental contamination and build more sustainable futures for communities.
Air Pollution Control Program Support	66.001	varies	https://www.cfda.gov/index?s=program&mode=form&tab=step1&id=d4d8fb28b93e9c16de67af68a827a2bf	check website for future opportunities	<p>The objectives of the program are to assist State, Tribal, Municipal, Intermunicipal, and Interstate agencies in planning, developing, establishing, improving, and maintaining adequate programs for the continuing prevention and control of air pollution and/or in the implementation of national primary and secondary air quality standards.</p> <p>Projects should also focus on addressing environmental justice (EJ) concerns in communities.</p>
Training, Investigations, and Special Purpose Activities of Federally-Recognized Indian Tribes Consistent With the Clean Air Act (CAA), Tribal Sovereignty and the Protection and Management of Air Quality	66.038	varies	https://www.cfda.gov/index?s=program&mode=form&tab=step1&id=99415ce5403346a76e3bc4345015904f	check website for future opportunities	To support Federally-recognized Indian Tribes' efforts to understand, assess and characterize air quality; design methods and plans to protect and improve air quality on tribal lands through surveys, studies, research, training, investigations, and special purpose activities. To ensure tribes have appropriate levels of support and opportunity to understand their air quality and take proactive measures to preserve, restore and protect air quality for their reservations and other lands over which they have jurisdiction through tribal program implementation, CAA implementation, radiation protection, mobile source controls, and voluntary programs to address outdoor and indoor air and other concerns. To ensure that all tribes have the tools they need to understand and participate in local, regional and national issues, regulatory and policy developments, and to protect their air quality from activities off the reservation that may affect or impact them. To improve the ability of tribes to understand, define, design and participate in activities that affect their air quality. Projects should also focus on addressing environmental justice (EJ) concerns in communities.
Surveys, Studies, Research, Investigations, Demonstrations, and Special Purpose Activities Relating to the Clean Air Act	66.034	varies	https://www.cfda.gov/index?s=program&mode=form&tab=step1&id=a81d864d25dd3a9dd956b9d0837af2ff	check website for future opportunities	The objectives for projects include monitoring in indoor environments and Community-Scale Air Toxics Ambient Monitoring
Surveys, Studies, Investigations, Training and Special Purpose Activities Relating to Environmental Justice	66.309	varies	https://www.cfda.gov/index?s=program&mode=form&tab=step1&id=2fe03bacb37942144d9416bc77391353	check website for future opportunities	The program's mission/objective is to provide funding in support of surveys, studies and investigations, and special purpose assistance programs as they relate to environmental and/or public health issues, with a particular emphasis on environmental justice.

Name	Funding Opportunity Number	Amount	Website	Closing Date	Additional Information
Indian Environmental General Assistance Program (GAP)	66.926	varies	https://www.cfda.gov/index?s=program&mode=form&tab=step1&id=21c78a488744e8425cb6573cd3db1700	check website for future opportunities	To provide general assistance program (GAP) grants to Indian tribal governments and intertribal consortia to build capacity to administer environmental regulatory programs on Indian lands, and provide technical assistance from EPA to Indian tribal governments and intertribal consortia in the development of multimedia programs to address environmental issues on Indian lands. For more information: http://www.epa.gov/tribal/gap/
Internships, Training and Workshops for the Office of Air and Radiation	66.037	varies	https://www.cfda.gov/index?s=program&mode=form&tab=step1&id=d0b3922aaafe7e4eda45f33de2d5bfd8	check website for future opportunities	This program will continue to provide environmental education training to a wide range of audiences regarding all aspects of air quality; development of workshops and environmental education programs in air quality based on identified needs; provide technical support to ensure quality information is available to support programs; and utilize knowledge developed in training workshops to wider audience.

Foundations and Non-profit Funding Sources					
The Alfred P. Sloan Foundation	N/A	N/A	http://www.sloan.org/about-the-foundation/?L=jwpuvsknesu	check website for multiple funding sources	The Alfred P. Sloan Foundation believes that a carefully reasoned and systematic understanding of the forces of nature and society, when applied inventively and wisely, can lead to a better world for all. The Foundation makes grants to support original research and broad-based education related to science, technology, and economic performance; and to improve the quality of American life.
The Heinz Endowments	N/A	N/A	http://www.heinz.org/interior.aspx?id=350	check website for multiple funding sources	With grant making that averages \$60 million annually, the Endowments ranks among the 50 largest foundations in the country. While most of our grants go to organizations and programs in southwestern Pennsylvania, our size compels us to use the region as a laboratory to develop solutions to problems that are national in scope. Still, for the issues covered in each of our program areas, the needs far exceed available resources.
The Kresge Foundation	N/A	N/A	http://kresge.org/	check website for multiple funding sources	The Kresge Foundation is a \$3 billion private, national foundation headquartered in Metropolitan Detroit, in the suburb community of Troy, that works to expand opportunities in America's cities through grantmaking and investing in arts and culture, education, environment, health, human services, community development and our place-based efforts in Detroit.
Knight Foundation	N/A	N/A	http://www.knightfoundation.org/what-we-fund/engaging-communities	check website for multiple funding sources	In our Community and National Initiatives program we support the success of our communities through investments that attract, retain and harness talent; that expand opportunity by increasing entrepreneurship and economic mobility; and that build places that accelerate the growth of ideas and bring people from diverse social and economic backgrounds together.
Community Health Rankings Guide to Identifying and Accessing Funding Opportunities	N/A	N/A	http://www.countyhealthrankings.org/roadmaps/funding-guide/identifying-and-accessing	check website for multiple funding sources	Finding grant opportunities can be a daunting task – where do you even start? The good news is there are a lot of resources available, and this guide will help you navigate through some of them. This section provides an overview of the types of funding resources available, tips on how to identify and access resources, and information on funders of community health initiatives.

Name	Funding Opportunity Number	Amount	Website	Closing Date	Additional Information
David and Lucile Packard Foundation	N/A	N/A	http://www.packard.org/	check website for multiple funding sources	For more than 50 years, the David and Lucile Packard Foundation has worked with partners around the world to improve the lives of children, families, and communities—and to restore and protect our planet.
The Norman Foundation	N/A	\$25,000-\$30,000	http://normanfdn.org/index.php?	rolling basis	These efforts may: promote economic justice and development through community organizing, coalition building and policy reform efforts; work to prevent the disposal of toxics in communities, and to link environmental issues with economic and social justice; link community-based economic and environmental justice organizing to national and international reform efforts.
Surdna Foundation	N/A	N/A	http://www.surdna.org/grants/grants-overview.html	rolling basis	The Surdna Foundation makes grants to nonprofit organizations in the priority areas of Sustainable Environments, Strong Local Economies, and Thriving Cultures.
Community Funded website	N/A	varies	http://communityfunded.com/	check website for multiple funding sources	Community Funded aims to engage and inspire an ever-growing community of individuals and organizations to come together and use our collective resources to support the things we love, find solutions to the problems we don't, and re-energize our lives and communities. It's time to dream big, because together we are.
Common Counsel Grassroots Exchange Fund	N/A	\$1000 - \$2000	http://www.commoncounsel.org/Grassroots+Exchange+Fund	rolling basis	Common Counsel's Grassroots Exchange Fund is a rapid response small grants program designed to support networking and collaboration between grassroots social change and environmental justice organizations throughout the United States. GXF prioritizes grants to small community-based groups seeking to meet face-to-face with other grassroots organizations, to build collaborative campaigns, and to benefit from technical assistance opportunities.
Jessie Smith Noyes Foundation	N/A	N/A	http://www.noyes.org/	rolling basis	The Jessie Smith Noyes Foundation supports grassroots organizations and movements in the United States working to change environmental, social, economic and political conditions to bring about a more just, equitable and sustainable world.
Bush Foundation Community Innovation Grants	N/A	\$500-\$10,000	http://www.bushfoundation.org/grants/community-innovation-grants	Closed. Check website for future opportunities	Community Innovation Grants support communities to use problem-solving processes that lead to more effective, equitable and sustainable solutions. Think of it as civic R&D, allowing communities to develop and test new solutions to community challenges. Grants must be used for projects located in Minnesota, North Dakota, South Dakota or the 23 Native nations that share the same geography.
