**Chlor-Alkali Chemicals
Chlorovinyls
Other Chemicals
Building Products**

\$4.5B Company

New Industry Leader

Axiall is an integrated leader in the chemicals and building products industry.

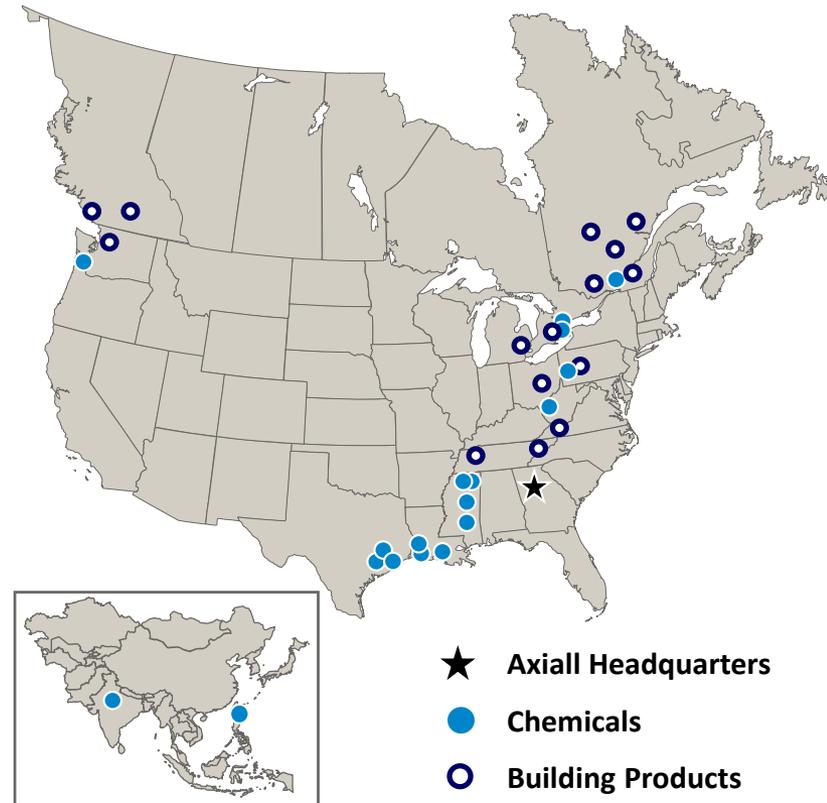

- 2013 revenues of \$4.6 billion, ranking Axiall #524 on Fortune's list of America's largest corporations
- Full vertical integration across chlor-alkali and chlorovinyls chains
- North America's:
 - 3rd largest chlor-alkali producer
 - 2nd largest VCM producer
 - 3rd largest siding manufacturer
 - largest cumene producer
- Enhanced horizontal integration from core materials to building products and across a diversified portfolio of products

Corporate footprint

Axiall's extensive manufacturing base in North America is well positioned to leverage cost-advantaged domestic natural gas and increase both domestic and export sales.

- **Headquartered in Atlanta**
 - Additional Chemicals offices in Pittsburgh and Houston
 - Building Products headquartered near Toronto
- **More than 40 manufacturing and distribution facilities in North America, one manufacturing facility in Taiwan, and a joint venture in India**
- **More than 6,000 employees worldwide**
