TOTALS		18,651	6,765							

<sup>1</sup> All AFOs with numbers of animals above the size thresholds set out for large CAFOs are defined as CAFOs under the NPDES federal regulations. In some cases, such as Arkansas and Louisiana, the numbers have not yet been confirmed by the State.

<sup>2</sup> The NPDES CAFO regulations require CAFOs that discharge to have NPDES permit coverage (40 CFR 122.23(d)(1)). As a consequence, the portion of CAFOs in each State that need NPDES coverage can vary from State to State.

<sup>3</sup> Status indicated reflects current plans. In some cases, plans are still under discussion.

<sup>4</sup> Technical standards were submitted for each Regional Board with the exception of 2, 4, 6 and 9. These RBs either do not have CAFOs or do not have CAFOs that land apply manure.

<sup>5</sup> EPA is reviewing State technical standards to ensure they address the requirements of the 2008 rule. EPA is in the process of posting State standards that address the 2008 rule on the EPA website.

RB1 - no changes needed  
 RB3 - pending OWM/TT review  
 RB5 - no changes needed?  
 RB7 - submitted evaluation to RB staff  
 RB8 - submitted evaluation to RB staff
