

PERMIT APPLICATION PACKAGE

UIC PROGRAM

Introduction

Most injection wells which are currently operating on other Indian lands in Oklahoma are authorized by rule and need not apply for an individual permit. Wells in the following categories, however, must apply for and receive an EPA permit to construct or operate an oil and gas related injection well on other Oklahoma Indian lands:

1. Any well constructed or completed after November 25, 1988.
2. Any production well converted to an injection well after November 25, 1988.
3. Existing SWD wells must apply for a permit as scheduled by the RA, but no later than November 25, 1992.
4. Wells which the operator wishes to operate outside rule requirements (for example; at a higher pressure than authorized by rule).
5. Wells which were authorized by rule, but have been identified as:
 - a. being in violation of the rule, or
 - b. no longer within the category of rule authorized well, or
 - c. needing additional restrictions to protect underground sources of drinking water (USDW's).*

Please include or reference all the information requested in this package, so that we may quickly process your application and not delay your operations [A copy of this package will be immediately forwarded to the affected Tribal Government].

The application consists of either the Budget Bureau Form #1004-0135 (for conversions) or #1004-0136 (for new drilled) and additional required data listed on the "Permit Application Checklist". We have included blank tabulations, well schematic, data sheets and certifications which you may find convenient for providing some of the required data. At any time, if you have questions about the information requested, please call the Environmental Protection Agency in Dallas at (214) 655-7165. We will be happy to explain what is needed.

*Operators of wells in this category will receive a letter from the Environmental Protection Agency Dallas Office directing them to apply for a permit.

Permit Application Checklist

	<u>Attached</u>	<u>Not Attached</u>	
1.	_____	_____	1. Budget Bureau Form # 1004 - 0135 (Sundry Notices) or #1004 - 0136 (Application to Drill) (2 copies to EPA).
2.	_____	_____	2. Map using township-range-sections to show the location of wells within 1/2 mile (2640 ft.) of the proposed well.
3.	_____	_____	3. Tabulation of data on wells within 1/2 mile (2640 ft) that penetrate the injection interval including:
		_____	company and well name
		_____	depth
		_____	location
		_____	date drilled
		_____	type of well and status
		_____	record of plugging and/or completion
		_____	corrective action plan for inadequately completed or plugged wells.
4.	_____	_____	4. Injection well schematic drawings of surface and subsurface details showing:
		_____	(i) total depth plug-back depth,
		_____	(ii) depth to top and bottom of injection interval,
		_____	(iii) depth to top and bottom of casing and cemented interval, plus amount of cement,
		_____	(iv) size of casing and tubing and depth of packer, and
		_____	(v) hole diameter,
		_____	(vi) all perforated intervals, and/or open hole interval

* Applicable to wells authorized by rule

	<u>Attached</u>	<u>Not Attached</u>	
5.	_____	_____	5. Operating data including: (i) type of injection well (SWD or ER) (ii) maximum and average injection rate, (iii) maximum and average injection pressure, (iv) whether operations is cyclic or continuous, and (v) source and analysis of injected fluids including TDS, chlorides, and additives.
6.	_____	_____	6. Geologic data on the injection and confining zones, including faults, geological name, thickness, porosity, permeability, depth, current reservoir pressure or fluid level, water quality, and lithologic description.
7.	_____	_____	7. Verification of notice to the affected Tribal Government and list showing names and addresses of all owners of record of land within 1/4 of the well.
8.	_____	_____	8. All available logging and testing data on the well (for existing wells only).
9.	_____	_____	9. Proof of adequate financial responsibility.
10.	_____	_____	10. Certification form signed by well owner/operator or authorized representative (authorization must be in writing and copy attached).

*See Instructions on Reverse Side

Title 18 U.S.C. Section 1001, makes it a crime for any person knowingly and willfully to make to any department or agency of the United States any false, fictitious or fraudulent statements or representations as to any matter within its jurisdiction.

Instructions

General: This form is designed for submitting proposals to perform certain well operations, and reports of such operations when completed, as indicated, on Federal and Indian lands pursuant to applicable Federal law and regulations, and, if approved or accepted by any State, on all lands in such State, pursuant to applicable State law and regulations. Any necessary special instructions concerning the use of this form and the number of copies to be submitted, particularly with regard to local, area, or regional procedures and practices, either are set out below or will be issued by, or may be obtained from, the local Federal and/or State office.

Item 4: If there are no applicable State requirements, location on Federal or Indian land should be described in accordance with Federal requirements. Consult local State or Federal office for specific instructions.

Item 17: Proposals to abandon a well and subsequent reports of abandonment should include such special information as is required by local Federal and/or State offices. In addition, such proposals and reports should include reasons for the abandonment; data on any furrows or present productive zones, or other zones with present significant fluid contents not sealed off by cement or otherwise; depth (top and bottom) and method of placement of cement plugs; mud or other material placed below, between and above plugs; amount, also, method of perching of any casing; tier or tubing pulled and the depth to top of any part in the hole; method of closing top of well; and date well also abandoned for final inspection looking to approval of the abandonment.

PRIVACY ACT

The Privacy Act of 1974 and the regulation in 43 CFR 2.46(d) provide that you be furnished the following information in connection with information requested by this application.

AUTHORITY: 40 U.S.C. 181 et. seq., 351 et. seq., 35 U.S.C. et. seq.; 43 CFR 3100. PRINCIPAL PURPOSE The information is to be used to evaluate, when appropriate, approve applications, and report completion of secondary well operations, on a Federal or Indian lease.

ROUTINE USES: (1) Evaluate the equipment and procedures used during the proposed or completed subsequent well operations. (2) Request and grant approval to perform those actions covered by 43 CFR 3102.3-212). (3) Analyze future applications to drill or modify operations in light of data obtained and methods used. (4) Information from the record and/or the record will be transferred to appropriate Federal, State, local or foreign agencies, when relevant to civil, criminal or regulatory investigations or prosecutions.

EFFECT OF NOT PROVIDING INFORMATION Filing of this notice and report and disclosure of the information is mandatory once an oil or gas well is drilled.

The Paperwork Reduction Act of 1980 (44 U.S.C. 3501, et. seq.) requires us to inform you that:

This information is being collected in order to evaluate proposed and/or completed subsequent well operations on Federal or Indian oil and gas leases.

This information will be used to report subsequent operations when work is completed and when requested, to obtain approval for subsequent operations not previously authorized.

Response to this request is mandatory for the specific types of activities specified in 43 CFR Part 3100.

INSTRUCTIONS

GENERAL: This form is designed for submitting proposals to perform certain well operations, as indicated, on all types of lands and leases for appropriate action by either a Federal or a State agency, or both, pursuant to applicable Federal and/or State laws and regulations. Any necessary special instructions concerning the use of this form and the number of copies to be submitted, particularly with regard to local, area, or regional procedures and practices, either are shown below or will be issued by, or may be obtained from, the local Federal and/or State office.

ITEM 1: If the proposal is to redrill to the same reservoir at a different subsurface location or to a new reservoir, use this form with appropriate notations. Consult applicable State or Federal regulations concerning subsequent work proposals or reports on the well.

ITEM 4: If there are no applicable State requirements, locations on Federal or Indian land should be described in accordance with Federal requirements. Consult local State or Federal office for specific instructions.

ITEM 14: Needed only when location of well cannot readily be found by road from the land or lease description. A plat, or plats, separate or on this reverse side, showing the roads to, and the surveyed location of, the well, and any other required information, should be furnished when required by Federal or State agency offices.

ITEMS 15 AND 18: If well is to be, or has been directionally drilled, give distances for subsurface location of hole in any present or objective production zone.

ITEM 22: Consult applicable Federal or State regulations, or appropriate officials, concerning approval of the proposal before operations are started.

NOTICE

The Privacy Act of 1974 and the regulation in 43 CFR 2.48(d) provide that you be furnished the following information in connection with information required by this application.

AUTHORITY: 30 U.S.C. 381 et seq., 25 U.S.C. 396; 43 CFR Part 3160.

PRINCIPAL PURPOSE: The information is to be used to process and evaluate your application for permit to drill, deepen, or plug back an oil or gas well.

ROUTINE USES: (1) The analysis of the applicant's proposal to discover and extract the Federal or Indian resources encountered. (2) The review of procedures and equipment and the projected impact on the land involved. (3) The evaluation of the effects of proposed operation on surface and subsurface water and other environmental impacts. (4)(5) Information from the record and/or the record will be transferred to appropriate Federal, State, local or foreign agencies, when relevant to civil, criminal or regulatory investigations or prosecutions, as well as routine regulatory responsibility.

EFFECT OF NOT PROVIDING INFORMATION: Filing of this application and disclosure of the information is mandatory only if the lessee elects to initiate drilling operation on an oil and gas lease.

The Paperwork Reduction Act of 1980 (44 U.S.C. 3501 et seq) requires us to inform you that:

This information is being collected to allow evaluation of the technical, safety, and environmental factors involved with drilling for oil and/or gas on Federal and Indian oil and gas leases.

This information will be used to analyze and approve applications.

Response to this request is mandatory only if the lessee elects to initiate drilling operations on an oil and gas lease.
