**Existing Sources**

- **April 21, 2003**
- **August 19, 2003**
- **April 21, 2006**

**Existing Area Source that becomes a Major Source:**

- April 21, 2006 or three years after the existing area source becomes a major source, whichever is later.
- May 20, 2006 for sources that were major sources on April 21, 2003.
- January 31, 2007 for sources that were major sources on April 21, 2003.
- May 21, 2007 for sources that were major sources on April 21, 2003.
- July 31, 2007, for sources that were major sources on April 21, 2003.

**Submit notification of compliance status as required by 63.5905 and 63.9 for all rule requirements you must meet except those where you will demonstrate compliance based on a 12-month rolling average. The requirements of this notification are contained in 63.9(h).**

**New Sources**

- **May 21, 2003, or 30 days after startup, whichever is later,** for sources that were major sources on April 21, 2003.
- **January 31, 2004, for sources that were major sources on April 21, 2003.**
- **May 21, 2004, or one year and 30 days after startup, whichever is later.**
- **July 31, 2004, for sources that were major sources on April 21, 2003.**

**Submit first semiannual compliance report required by 63.5910 and 63.10. The first report would not include any 12-month averaging data.**

**New Area Source that becomes a Major Source after 4/21/03:**

- 30 days after becoming a major source.
- One year and 30 days after becoming a major source.

**Submit notification of compliance status as required by 63.5905 and 63.9 for all operations where you are demonstrating compliance based on a 12-month rolling average.**

**Existing Source:**

- May 20, 2006 for sources that were major sources on April 21, 2003.
- January 31, 2007 for sources that were major sources on April 21, 2003.
- May 21, 2007 for sources that were major sources on April 21, 2003.
- July 31, 2007, for sources that were major sources on April 21, 2003.

**Submit second semiannual compliance report required by 63.5910 and 63.10. The second report would include 12 month averaging data.**

**New Area Source that becomes a Major Source after 4/21/03:**

- January 30 or July 30, whichever is the first date that follows the initial semiannual compliance report.
- January 30 or July 30, whichever is the first date that follows the end of the first calendar half after the compliance date.
1 This timeline does not include the situation where a facility is required to perform a performance test
2 If any due date for a notification or report falls on a Sunday or a postal holiday, it must be postmarked by the last mailing day prior to the
due date.

3 For any emissions limits where you are demonstrating compliance by averaging you must begin collecting data for
averaging calculations on the first day of the month following the compliance date unless the compliance date falls on the
first of the month. In this case you start collection data on the compliance date. For example, an existing facility with a
compliance date of April 21, 2006, starts collecting data on May 1, and the first month in the initial 12-month rolling average
calculation is May 2006. You begin collecting data on the first of the month because our intent is for calculation periods to
cover a whole month.

4 This report would cover the time period of April 21, 2006 until December 31, 2006 for existing sources with a compliance
date of April 21, 2006.

5 This notification of compliance would cover the 12-month rolling average of May 1, 2006, until April 30, 2007.

6 This report would cover the time period of January 1, 2007 until June 30, 2007 and would include 12-month rolling average
calculations for the end of May and June 2007. The 12-month rolling average calculation is required at the end of each
month.
