

Small System Implementation Working Group

Mission Statement

To advise the NDWAC on the specific challenges currently facing various types of small Public Water Systems (those systems serving <10,000 persons but with special emphasis on economically and socially disadvantaged systems serving <500 persons); the challenges likely to face these systems over the next 5-10 years; and strategic options that USEPA and the States should consider to assist small systems in meeting the public health protection objectives of the SDWA.

Designated Federal Official

Mr. Peter E. Shanaghan
