MEMORANDUM

To: Docket EPA-HQ-OAR-2015-0199

From: U.S. Environmental Protection Agency, Office of Air and Radiation

Date: August 2015

Subject: Federal Plan Affected EGU Technical Support Document (TSD)

This memorandum lists all proposed applicable affected EGUs according to the National Electric Energy Data System (NEEDS), Energy Information Administration (EIA), and comments from the Clean Power Plan (Table 1). Each affected EGU is assigned its proposed applicable standards if a federal plan were to be promulgated for that affected EGU. The EPA solicits comment on the list of affected units. This list is not a final determination and the EPA may incorporate units that are not defined here.
