

Financing Resilient and Sustainable Infrastructure

December 2, 2015

Dennis Doll
President & CEO
Middlesex Water Company

Resilience

Sustainability

Embrace Reality

- Common understanding of scope of the challenges
- Shared commitment to the cause

Strong Financial Model

- Access to low-cost capital
- Sustainable revenue model
- Full Cost Pricing

Maintain Quality

- Strict adherence to assessment, planning and execution model
- Regulatory compliance
- Political will to do the right thing

The Hard Things

1. How do we pay for it all?

- Who pays?
- How much does each pay?

2. Political will to do the right thing!

And in the end.....

1. **the user of the service** (utility bill)
2. **the local taxpayer** (property taxes)
3. **State & federal taxpayers** (income and other taxes)

Like every service we receive, ultimately the cost is all borne by the consumer. It's all a matter of how we carve up the pie.
