- Remaining permits are for the construction of the project and will be obtained Q1 2016 (just prior to construction)

## Environmental

- An Environmental Impact Statement is not required
- Project is not located on contaminated land, landfill or mine site

# Role for EPA Partner Organization

---

Long term PPA for Energy and REC's/Contract for Differences

## Marketing Opportunities

- Naming rights
- Site access and tours
- Data sharing for educational opportunities (institutions of higher learning)
- Information center

# OwnEnergy – Recognized Expert in Mid sized Wind

## Pipeline

- 27 projects in 20 states
- 2000+ MW

## Local Partners

- Business model for local ownership
- Leading members of wind rich communities

## Breakthrough Model

- Best in class mid-sized renewables
- Standardized development
- 20 person team

## Proof

- 8 projects spinning or under construction
- Long term PPA's with OSU (via OG&E) and Yahoo!

## OwnEnergy Expertise

- Project Development
- Power Markets
- Accounting/Finance
- Contract Structuring
- National PR
- Community Relations
