

Nonpoint Source Pollution Control Program Grants

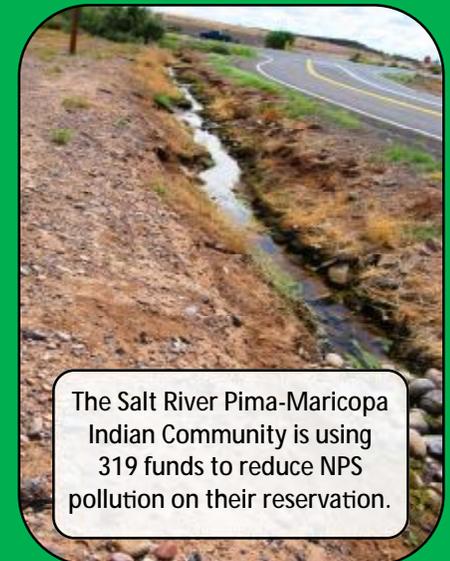

The Nonpoint Source Pollution Control Program assists Federally-recognized Indian Tribes develop and implement polluted runoff control programs and watershed based plans that address critical water quality concerns and achieve positive environmental results.

Funding Availability

Approximately **\$8 Million** is anticipated to be allocated for Clean Water Act §319 Tribal programs nationwide. This will allow awards of **\$30,000** (for Tribes with land area less than 1,000 sq. miles) or **\$50,000** (for Tribes with land area more than 1,000 sq. miles) in base funding to eligible Tribes. The remaining funds will be awarded to eligible Tribes through a national competition to support the implementation of priority "on-the-ground" watershed projects that will lead to water quality improvements (up to **\$100,000** per project).

Eligible Activities (but not limited to):

- Implementing the Tribe's approved Nonpoint Source (NPS) management program;
- Implementing best management practices (BMPs) that will reduce or eliminate NPS pollution in receiving water bodies, resulting in water quality benefits;
- Implementing "on-the-ground" watershed projects (i.e., stream restoration, revegetation, buffer strips, installing gabions, tree planting, removal of invasive/non-native species, and more);
- Developing and implementing a watershed based plan;
- Conducting NPS education programs;
- Hiring qualified staff; and
- Training and travel.

The Salt River Pima-Maricopa Indian Community is using 319 funds to reduce NPS pollution on their reservation.
