

THE GREEN SCHOOLS ALLIANCE

The Green Schools Alliance connects and empowers K-12 schools to lead the transformation to global environmental sustainability.

GSA provides a crowd-sourced school-driven website and hands-on programs.

YOU ARE THE GSA!

Schools trust schools.

Created by schools for schools, GSA is the ONLY worldwide network of schools teaching schools to address climate & conservation challenges and solutions.

The GSA is represented by school leaders: sustainability coordinators, faculty, staff, students and their parents working together to solve environmental challenges.

THE GSA MOVEMENT

- ▶ Connects more than 3000 public, private and independent schools
- ▶ Engages 2 million+ students
- ▶ Reaches 42 U.S. States, 26 countries ...

GSA SUSTAINABILITY TRACKS

- ▶ Track I: Reduce Our Ecological & Climate Impact
- ▶ Track II: Educate & Engage Our Community
- ▶ Track III: Connect To Nature

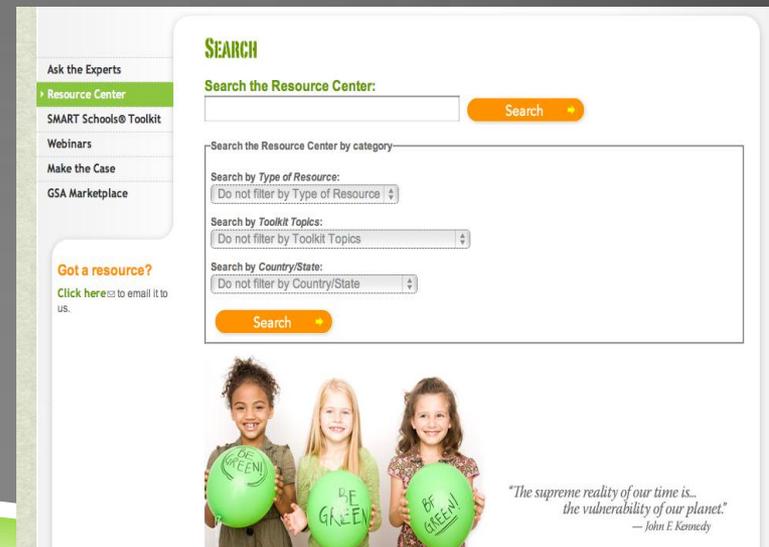

PEER-TO-PEER ONLINE COMMUNITY

GSA's unique crowd-sourced website enables **Member Schools** and **Student Clubs** to upload and search content by topic, location, type of school, and more.

Submit school-created curriculum, local resources, calendar events, news & articles, videos & photos, documents, PPTs, and more.

GREEN CUP CHALLENGE

- ▶ One-month Inter-school Challenge
- ▶ Created by Schools For Schools
- ▶ Measure & Reduce: Energy, Water & Recycling
- ▶ Celebrates Aggregated & Individual Success
- ▶ Everyone Wins!

L to R: GCC Video Challenge submissions; students reading a meter:

2013 GCC VIDEOS

The GSA Video Ocean is a compilation of incredible student written and produced videos on the topic of climate change in conjunction with two of GSA's premiere student-led programs: the Green Cup Challenge and Sc3 Corps and Congress. Hear what students have to say in the "60 Second Solution" about what concerns them about the environment, what they or their schools are doing to make a difference, and what is their vision for the future.

GSA PROGRAMS: STUDENT CLIMATE & CONSERVATION CORPS (SC3)

Sc3 Corps and Congress empowers outstanding student environmental leaders and **Student Clubs** with the skills, knowledge and tools necessary to address natural resource conservation challenges and better serve their schools and communities.

THE GREEN SCHOOLS RENEWABLE ENERGY PURCHASING CONSORTIUM

Through demand aggregation & administrative efficiencies, **TOGETHER** we can:

- Accelerate the adoption of renewable energy by K-12 schools
- Demonstrate sustainability leadership

CONSORTIUM GOALS

- Enable schools to purchase renewable energy in a simple & efficient manner
- Ensure that schools are receiving competitively priced **Renewable Energy Certificates (RECs)**
- Provide schools with resources to educate their stakeholders & community about renewable energy
- Demonstrate leadership within the K-12 educational community
- Establish a standard that will influence and guide the use of renewable energy in schools across the country

JOIN THE CONSORTIUM

- Complete the [Non-Binding Statement of Intent](#) by Nov. 8, 2013.
- The Green Schools Renewable Energy Purchasing Consortium will be issuing a [**Request for Proposals \(RFP\)**](#) to facilitate the purchase of RECs by participating schools.
- The consortium will be continued and expanded in 2014 and beyond.
