

## Top 30 Local Government Partner List (as of January 6, 2015)

The Top 30 Local Government list represents the largest green power users among local government partners within the Green Power Partnership. The combined green power use of these organizations amounts to nearly 2.9 billion kilowatt-hours annually, which is equivalent to avoiding the carbon dioxide emissions from the electricity use of nearly 273,000 average American homes annually.

			Generation

\*Reflects the amount of green power as a percentage of total electricity use. Partners choosing to purchase green power in an amount exceeding 100 percent of their U.S. organization-wide electricity use are listed as such.

°Indicates Provider is selling Partner a third-party certified green power product. For more information on third-party certification, visit <http://www.epa.gov/greenpower/buygp/certified.htm>.
