On May 31, 1991, the NMED requested the EPA to grant full authority for additional source categories and amendments to the fully delegated NSPS and NESHAP subparts by extending the coverage date through December 4, 1990, for the NSPS and NESHAP. Based on review of State's Air Quality Control Regulations (AQCR) 750 (for NSPS) and 751 (for NESHAP), the EPA delegated full authority to the State as requested in the letter of May 31, 1991. AQCRs 750 and 751 incorporate the Federal NSPS and NESHAP by reference through the date specified above except for the performance standards for New Residential Wood Heaters—Subpart AAA under 40 CFR part 60 and the NESHAP radionuclide standards under 40 CFR part 61. The provisions and conditions specified in the March 15, 1985, delegation agreement and its supplements shall remain unchanged and effective except the revision of the appropriate dates as cited above. The revised authorized dates have been listed in Table 1 for NSPS and Table 2 for NESHAP. These tables noting the revised effective date have been approved by the Regional Administrator, and are thereby incorporated as part of the March 15, 1985, delegation agreement. No authority has been delegated for the standards of performance for New Residential Wood Heaters—subpart AAA under 40 CFR part 60 and the NESHAP radionuclide standards specified under 40 CFR part 61.

Today's notice informs the public that the EPA has expanded the State's full authority to implement and enforce the NSPS and NESHAP through December 4, 1990. All reports required pursuant to the Federal NSPS and NESHAP (40 CFR part 60 and 40 CFR part 61) by sources located in the State of New Mexico, in areas outside of Indian lands or Bernalillo County, should be submitted directly to the New Mexico Environment Department, Air Quality Bureau, 1190 St. Francis Drive, Santa Fe, New Mexico 87503. Sources located on all Indian lands (including Bernalillo County), sources subject to the standards of...
