Civ. No. _____

COMPLAINT FOR DECLARATORY AND INJUNCTIVE RELIEF

I. INTRODUCTION

1. The Administrator of the United States Environmental Protection Agency (“Administrator” or “EPA”) has failed to perform her non-discretionary duty to grant or deny a petition filed by the Sierra Club on September 29, 2015 (hereinafter “Petition”), asking EPA to object to the air pollution operating permit (hereinafter “the Permit”) issued by the Tennessee Department of Environment and Conservation (“TDEC”) under Title V of the Clean Air Act for Tennessee Valley Authority’s (“TVA”) Bull Run Fossil Plant (“Bull Run”). *See* 42 U.S.C. § 7661d(b)(2) (authorizing such petitions).

2. Although more than 60 days have passed, the EPA Administrator has not granted or denied Sierra Club's Petition, in contravention of a mandatory 60-day deadline for action. 42 U.S.C. § 7661d(b)(2). She is, therefore, in violation of her nondiscretionary duty under the Clean Air Act. Accordingly, Sierra Club seeks a declaration that the Administrator is in violation of the Clean Air Act and an order compelling the Administrator to grant or deny Plaintiff's Petition by a date certain.

II. JURISDICTION

3. The instant action arises under the Clean Air Act, 42 U.S.C. § 7661d(b). This Court has jurisdiction over Sierra Club's claims pursuant to 42 U.S.C. § 7604(a) and 28 U.S.C. §§ 1331, 1361. The relief requested by Sierra Club is authorized pursuant to 42 U.S.C. § 7604 and 28 U.S.C. §§ 1361, 2201, and 2202.

III. NOTICE

4. By certified letter dated December 3, 2015, Sierra Club provided the Administrator with written notice of Sierra Club's claim concerning EPA's failure to take action on the Petition and of Sierra Club's intent to bring suit to remedy this Clean Air Act violation. Sierra Club provided notice pursuant to 42 U.S.C. § 7604(b) and 40 C.F.R. §§ 54.2, 54.3. A copy of this notice is provided as Exhibit A to this Complaint.

IV. VENUE

5. Venue is proper in this judicial district pursuant to 28 U.S.C. § 1391(e)(1). A substantial part of the events or omissions giving rise to Sierra Club's claim occurred in the District of Columbia. Defendant Gina McCarthy is an officer of the United States, sued for acts and omissions in her official capacity, and her official residence is in the District of Columbia. In addition, EPA has its principal office in the District of Columbia.

V. PARTIES

6. Plaintiff Sierra Club is the oldest and largest grassroots environmental group in the United States, with over 638,000 members nationally, including over 6,900 members in Tennessee. Sierra Club's mission is to explore, enjoy, and protect the wild places of the Earth; to practice and promote the responsible use of the Earth's resources and ecosystems; to educate and enlist humanity to protect and restore the quality of the natural and human environment; and to use all lawful means to carry out these objectives. Sierra Club and its members are greatly concerned about the effects of air pollution on human health and the environment and have a long history of involvement in activities related to air quality and source permitting under the Clean Air Act.

7. Sierra Club is a "person" within the meaning of 42 U.S.C. § 7602(e). As such, Sierra Club may commence a civil action under 42 U.S.C. § 7604(a).

8. Sierra Club has members in Tennessee whose health, economic, aesthetic, and environmental interests have been, are being, and will be adversely affected by the EPA acts and omissions complained of herein. Sierra Club members live, raise their families, work, attend school, travel, and recreate in areas where they are exposed to dangerous air pollutants emitted from TVA's Bull Run Plant. Such air pollutants, which include visible emissions, as well as particulate matter, sulfur dioxide, and nitrogen oxides, are associated with a variety of adverse effects on human health and impairment of visibility and damage to wildlife and vegetation. The Permit upon which Sierra Club's Petition is based allows Bull Run to release such air pollutants, thereby threatening the health of Sierra Club members and their use and enjoyment of the air, environment, wildlife, scenery, and outdoor views adversely impacted by such pollutants. The Administrator's acts and omissions complained of herein cause injury to Sierra Club members by

threatening their health and welfare, and by denying them measures and procedures provided under the Clean Air Act to protect their health and welfare from air pollution in places where they live, work, recreate, and conduct other activities. The health, recreational, aesthetic, organizational, and procedural interests of Sierra Club and its members have been and continue to be adversely affected by the EPA acts and omissions complained of herein.

9. Sierra Club's interests and its members' interests have been, are being, and will continue to be, harmed by EPA's failure to act on Sierra Club's Petition for objection to the Title V permit issued to Bull Run. EPA's failure to respond to Sierra Club's Petition creates doubt and concern for Sierra Club members about whether the Bull Run Permit complies with the requirements of the Clean Air Act and protects them from exposure to pollutants to the extent required by law.

10. The acts and omissions of EPA alleged herein further deprive Sierra Club and its members of procedural rights and protections to which they are entitled. During the permitting process for Bull Run, Sierra Club provided comments critical of the Permit's terms and limits. Subsequently, Sierra Club petitioned EPA to object to the issuance of the Permit. The Clean Air Act gives Sierra Club a procedural right to a timely decision on its Petition. EPA's failure to take action on Sierra Club's Petition prevents Sierra Club and its members from challenging an unfavorable EPA decision or from benefiting from a favorable decision on the Petition.

11. The Clean Air Act violations alleged in this Complaint have injured and continue to injure the interests of Sierra Club and its members. Granting the relief requested in this lawsuit would redress these injuries.

12. Gina McCarthy is the Administrator of the EPA. The Administrator is responsible for implementing the Clean Air Act, including the requirement to grant or deny Sierra Club's Petition within 60 days. Gina McCarthy is sued in her official capacity.

VI. LEGAL BACKGROUND

13. The Clean Air Act aims "to protect and enhance the quality of the Nation's air resources." 42 U.S.C. § 7401(b)(1). To help meet this goal, the 1990 amendments to the Clean Air Act created the Title V permit program, an operating permit program that applies to all major sources of air pollution. *See* 42 U.S.C. §§ 7661-7661f.

14. Major sources of air pollution must obtain a valid Title V operating permit, which records applicable air pollution control requirements in a single document. *See* 42 U.S.C. §§ 7661a(a), 7661c(a).

15. The Clean Air Act provides that the EPA Administrator may approve state programs to administer the Title V permitting program with respect to sources within their borders. *See* 42 U.S.C. § 7661a(d). EPA fully approved Tennessee's administration of its Title V permit program in 2001. *See* Tennessee Air Pollution Control Regulations Chapter 1200-03-09; *see also* 40 C.F.R. Part 70, Appendix A, Tennessee (a)(2) ("The State's operating permit program is hereby granted final full approval effective on November 30, 2001.").

16. Before a state with an approved Title V permit program may issue a Title V permit, the state must forward the proposed Title V permit to EPA. 42 U.S.C. § 7661d(a)(1)(B). EPA then has 45 days to review the proposed permit. 42 U.S.C. § 7661d(b). EPA must object to the issuance of the permit if EPA finds that the permit does not comply with all applicable provisions of the Clean Air Act. 42 U.S.C. § 7661d(b)(1).

17. After EPA's 45-day review period expires, "any person may petition the Administrator within 60 days" to object to the Title V permit. 42 U.S.C. § 7661d(b)(2).

18. The Clean Air Act requires that "[t]he Administrator shall grant or deny such petition within 60 days after the petition is filed." 42 U.S.C. § 7661d(b)(2).

19. If EPA objects to a permit, the permitting authority may not issue the permit unless it is revised. 42 U.S.C. § 7661d(b)(3). If the permitting authority has issued a permit prior to receipt of an objection by the Administrator, the Administrator shall modify, terminate, or revoke such permit. *Id.*

20. If EPA fails to comply with a non-discretionary duty, such as acting on a petition to object within the statutorily mandated timeframe, the Clean Air Act allows any person to bring suit to compel EPA to perform its duty. *See* 42 U.S.C. § 7604(a).

VII. FACTUAL BACKGROUND

21. Bull Run is a major stationary source of air pollution and is located in Clinton, Tennessee. The facility's operation consists primarily of a single coal-fired boiler.

22. In January of 2015, TDEC released a proposed renewal Title V operating permit (No. 01-0009/567519) for Bull Run, based on a permit application received in July of 2013. Sierra Club submitted detailed comments on February 12, 2015, during the public comment period for the proposed permit.

23. In April of 2015, TDEC released a revised proposed Title V operating permit for Bull Run. Sierra Club submitted detailed comments on the revised proposed permit on May 21, 2015, during the public comment period.

24. TDEC submitted Bull Run's proposed Title V permit to EPA for review in accordance with the Clean Air Act. EPA's 45-day review period for the proposed permit began on June 16, 2015, and ended on July 31, 2015. EPA did not raise any objections to the permit.

25. On September 29, 2015, Sierra Club filed a petition requesting that the Administrator object to the issuance of Bull Run's Title V operating permit on the basis that the permit failed to:

- impose compliance assessments that adequately and accurately assure compliance with applicable opacity standards for visible emissions; and
- include monitoring requirements sufficient to yield reliable data that are representative of the Plant's compliance with the opacity standards for visible emissions in its Title V permit.

The Petition was timely filed within 60 days following the conclusion of EPA's review period. 42 U.S.C. § 7661d(b)(2).

26. Sierra Club's Petition was based on objections that were raised with reasonable specificity during the public comment periods for the proposed permit, in accordance with 42 U.S.C. § 7661d(b)(2).

27. EPA had 60 days, until November 28, 2015, to grant or deny Sierra Club's Petition. 42 U.S.C. § 7661d(b)(2). As of the date of filing of this complaint, EPA has not yet granted or denied the Petition.

VIII. CLAIM FOR RELIEF

28. Sierra Club incorporates the allegations in all preceding paragraphs of this Complaint as if set forth in full herein.

29. The Administrator had a mandatory duty to grant or deny Sierra Club's Petition within 60 days after it was filed. *See* 42 U.S.C. § 7661d(b)(2) ("The Administrator shall grant or deny such petition within 60 days after the petition is filed").

30. It has been more than 60 days since the Administrator received Sierra Club's September 29, 2015 Petition requesting that EPA object to the Title V Permit for Bull Run.

31. As of date of filing this Complaint, the Administrator has not granted or denied Sierra Club's Petition.

32. Therefore, the Administrator has violated and continues to violate the Clean Air Act, 42 U.S.C. § 7661d(b)(2).

33. This Clean Air Act violation constitutes a "failure of the Administrator to perform any act or duty under this chapter which is not discretionary with the Administrator" within the meaning of the Clean Air Act's citizen suit provision. 42 U.S.C. § 7604(a). The Administrator's violation is ongoing, and will continue unless remedied by this Court.

IX. REQUEST FOR RELIEF

WHEREFORE, Sierra Club respectfully requests that this Court enter judgment providing the following relief:

A) A declaration that the Administrator has violated the Clean Air Act by failing to grant or deny Sierra Club's Petition requesting that EPA object to the Title V operating permit for Bull Run;

B) An order compelling the Administrator to perform her mandatory duty to grant or deny Sierra Club's Petition for objection to the Title V operating permit for Bull Run, by an expeditious certain date;

- C) An order retaining jurisdiction over this matter until such time as the Administrator has complied with her non-discretionary duties under the Clean Air Act;
- D) An order awarding Sierra Club its costs of litigation, including reasonable attorneys' fees; and
- E) Such other and further relief as the Court deems just and proper.

Respectfully submitted,

RE: Notice of Intent to Sue under the Federal Clean Air Act

Dear Administrator Gina McCarthy:

This letter provides notice, pursuant to 42 U.S.C. § 7604(b), that the Sierra Club and Environmental Integrity Project (“EIP”) intend to file a citizen suit against the United States Environmental Protection Agency (“EPA”) and the Administrator of the EPA, based on EPA’s failure to perform a nondiscretionary duty pursuant to 42 U.S.C. § 7661d(b)(2) of the Clean Air Act (“CAA” or “Act”), to either grant or deny a petition to object to a proposed Title V Operating Permit (“Proposed Permit”) for a Tennessee power plant, filed by the Sierra Club and EIP pursuant to CAA section 505(b)(2) of the Act within 60 days after the petition was filed. 42 U.S.C. § 7661d(b)(2). Specifically, Sierra Club and EIP petitioned EPA to object to Proposed Permit No. 567519 issued by the Tennessee Department of Environment and Conservation (“TDEC”) for Tennessee Valley Authority’s (“TVA”) Bull Run Fossil Plant (“Bull Run”) located in Clinton, Tennessee. The petition was delivered via certified mail to EPA on September 29, 2015. As of today, more than 60 days have elapsed without EPA taking action on said petition, in violation of the Administrator’s nondiscretionary duty under CAA section 505(b)(2) to grant or deny the petition within 60 days after it was filed. *See id.*

I. Bull Run Is Subject to Title V of the Clean Air Act

Title V of the CAA requires specified sources of air pollution to obtain an operating permit from a permitting authority. 42 U.S.C. § 7661a(a). Tennessee's construction and operating permit programs have been approved by EPA and, accordingly, TDEC is responsible for issuing Title V permits to facilities within the State. See Tennessee Air Pollution Control Regulations Chapter 1200-03-09; see also 40 C.F.R. Part 70, Appendix A, Tennessee (a)(2) ("The State's operating permit program is hereby granted final full approval effective on November 30, 2001.").

Bull Run's prior Title V permit was issued January 6, 2009, and expired on January 6, 2014. In January of 2015, TDEC released a proposed permit (comprised of draft Title V Permit No. 01-0009/567519, draft Title IV Acid Rain Permit No. 01-0009/869161, and draft CAIR Permit No. 01-0009/869022) for Bull Run, based on an application received in July of 2013. On February 12, 2015, the Sierra Club and EIP, along Southern Alliance for Clean Energy and Earthjustice, submitted timely comments on the Proposed Permit. In pertinent part, the comments raised issue with the Proposed Permit's impermissibly lax monitoring requirements for opacity, noting, in particular, that Permit Condition E 3-8 contemplates exceedingly infrequent reporting of opacity, that this extreme infrequency is improper, and that the issue must be rectified in any final permit that TDEC issues.

TDEC subsequently issued a revised Proposed Permit in April of 2015, with a public comment period open through May 21, 2015; in this revised draft, TDEC did not change Condition E 3-8. Accordingly, Sierra Club and EIP, along with Southern Alliance for Clean Energy and Earthjustice, submitted timely public comments on the revised Proposed Permit on May 21, 2015. In these comments, Sierra Club and EIP again raised the issue of impermissibly lax opacity requirements, noting that the proposed biannual visual inspection of opacity in the plume exiting Bull Run was insufficient for ensuring compliance with the short-term opacity standard in the permit.

II. Citizens May Petition EPA to Object to Proposed Title V Permits

As per CAA section 505(b)(1), within 45 days of receipt of a proposed Title V permit, the Administrator of the EPA "shall . . . object" to the permit's issuance if it "contains provisions that are determined by the Administrator as not in compliance with the applicable requirements" of the CAA and "the requirements of an applicable implementation plan." 42 U.S.C. § 7661d(b)(1). If EPA does not object during this period, any person may petition the Administrator for issuance of an objection within 60 days after the expiration of the 45-day review period. 42 U.S.C. § 7661d(b)(2). Accordingly, the timing for EPA to object to the Proposed Permit for Bull Run and for the public to petition EPA to object to the Proposed

Permit was as follows: EPA's 45-day review period ended on July 31, 2015; the 60-day public petition period ended on September 29, 2015. See Tennessee Proposed Title V Permits, available at <http://www2.epa.gov/caa-permitting/tennessee-proposed-title-v-permits>.

EPA did not object to the Bull Run Proposed Permit within the allotted 45-day time frame. Consequently, Sierra Club and EIP filed a petition to object to the Proposed Permit on September 29, 2015, within 60 days after the expiration of the 45-day review period, in accordance with 42 U.S.C. § 7661d(b)(2). The Petition to EPA was properly based on issues raised during the public comment periods for the Proposed Permit. Specifically, the Petition raised objection with the Proposed Permit's impermissibly lax monitoring requirements for opacity, in particular noting that the permit improperly contemplates opacity compliance as assessed twice a year through visual emissions inspection, despite applicable requirements setting short-term limitations on opacity.

According to CAA section 505(b)(2) of the CAA, the Administrator was required to respond to Sierra Club and EIP's September 29, 2015 petition to object within 60 days, either granting or denying the petition. 42 U.S.C. § 7661d(b)(2) ("The Administrator shall grant or deny such petition within 60 days after the petition is filed."). However, as of December 3, 2015, EPA has yet to respond to the petition to object to the Bull Run Title V Permit.

III. Citizens May Sue EPA for Failure to Timely Grant or Deny a Petition to Object

Section 304(a)(2) of the CAA provides that any person can sue the Administrator of the EPA "where there is alleged a failure of the Administrator to perform any act or duty under this chapter which is not discretionary." 42 U.S.C. § 7604(a)(2). Section 505(b)(2) of the CAA expressly provides that the "Administrator shall grant or deny [a petition to object] within 60 days after the petition is filed." 42 U.S.C. § 7661d(b)(2) (emphasis added). This provision imposes a mandatory, nondiscretionary duty upon EPA to act within 60 days of the filing of a petition under this section. Accordingly, in the event that the Administrator fails to perform this nondiscretionary duty, citizens may bring suit to compel such action.

IV. Sierra Club and EIP Intend to File a Citizen Suit

Sierra Club and EIP filed a timely petition to object to the Proposed Title V Permit for Bull Run on September 29, 2015. The Administrator had 60 days—until November 28, 2015—to grant or deny the petition to object to the Proposed Permit. See 42 U.S.C. § 7661(b)(2). As of December 3, 2015, the Administrator has not yet granted or denied the Petition to Object. Therefore, the Administrator has failed to perform the nondiscretionary duty to grant or deny Sierra Club and EIP's Petition within the statutorily mandated time frame, in violation of 42 U.S.C. § 7661d(b)(2).

The CAA requires citizens to provide the Administrator with 60 days notice prior to bringing an action under CAA section 304(a)(2) where there is alleged a failure of the Administrator to perform any act or duty under this chapter which is not discretionary with the Administrator. 42 U.S.C. § 7604(b)(2); *see also* 40 C.F.R. 54.2(a). Accordingly, through this letter, Sierra Club and EIP hereby notify EPA and the Administrator of their intent to file suit against EPA and the Administrator of the EPA, under CAA section 304(a)(2) for failing to perform the nondiscretionary duty of granting or denying the September 29, 2015 petition to object to the Proposed Title V Permit for Bull Run. If the violation remains unresolved at the end of the 60-day notice period, Sierra Club and EIP intend to seek the following relief:

1. An order compelling EPA and the Administrator to grant or deny Sierra Club and EIP's Petition within 60 days from the date of the order;
2. Attorneys' fees and other litigation costs; and
3. Other appropriate relief as allowed.

If you would like to discuss the matters identified in this letter or offer a proposal for resolving these issues, please contact me directly at kmalawoffice@gmail.com or (703) 851-9111.

Sincerely,

INSTRUCTIONS FOR COMPLETING CIVIL COVER SHEET JS-44
 Authority for Civil Cover Sheet

The JS-44 civil cover sheet and the information contained herein neither replaces nor supplements the filings and services of pleadings or other papers as required by law, except as provided by local rules of court. This form, approved by the Judicial Conference of the United States in September 1974, is required for the use of the Clerk of Court for the purpose of initiating the civil docket sheet. Consequently, a civil cover sheet is submitted to the Clerk of Court for each civil complaint filed. Listed below are tips for completing the civil cover sheet. These tips coincide with the Roman Numerals on the cover sheet.

- I.** COUNTY OF RESIDENCE OF FIRST LISTED PLAINTIFF/DEFENDANT (b) County of residence: Use 11001 to indicate plaintiff if resident of Washington, DC, 88888 if plaintiff is resident of United States but not Washington, DC, and 99999 if plaintiff is outside the United States.
- III.** CITIZENSHIP OF PRINCIPAL PARTIES: This section is completed only if diversity of citizenship was selected as the Basis of Jurisdiction under Section II.
- IV.** CASE ASSIGNMENT AND NATURE OF SUIT: The assignment of a judge to your case will depend on the category you select that best represents the primary cause of action found in your complaint. You may select only one category. You must also select one corresponding nature of suit found under the category of the case.
- VI.** CAUSE OF ACTION: Cite the U.S. Civil Statute under which you are filing and write a brief statement of the primary cause.
- VIII.** RELATED CASE(S), IF ANY: If you indicated that there is a related case, you must complete a related case form, which may be obtained from the Clerk’s Office.

Because of the need for accurate and complete information, you should ensure the accuracy of the information provided prior to signing the form.
