OFFICE OF
AIR AND RADIATION

APR 18 2013

Mr. Kevin Brown
Clean Diesel Technologies, Inc
83 Commerce Valley Drive East
Thornhill, Ontario
L3T 7V1
Canada

Dear Mr. Brown:

The U.S. Environmental Protection Agency (EPA) has reviewed your request for amending the Clean Diesel Technologies, Incorporated (CDTi) Purifilter EGR diesel particulate filter (DPF) verification. You specifically requested to include three additional engine family names (EFNs): 4CEXH0661MAV, 5CEXH0661MAV, and 6CEXH0661MAV, for federally certified urban bus applications.

Based on our evaluation of the information submitted, EPA hereby approves the addition of these three new EFNs to the current verification for Clean Diesel Technology, Inc's. Purifilter EGR diesel particulate filter. All other aspects and operating criteria of the original verification remain the same. An amended Attachment A accompanies this letter.

If the Purifilter EGR diesel particulate filter is modified from the application description provided to EPA and not representative of products tested for verification, you must notify EPA immediately. This verification does not automatically confer to modified devices or devices that are similar to this verification.

Information on the Purifilter EGR diesel particulate filter, percent reductions, and applicable engines with this amendment will be posted on the EPA's Verified Technology List website at: <http://www.epa.gov/cleandiesel/verification/verif-list.htm> CDTi will be responsible for adhering to in-use testing program requirements, including submission of all in-use test data to EPA, as outlined in EPA's in-use test methods.

Thank you for participating in EPA's Technology Assessment Center Verification Program. If you have any questions or comments, please contact Julie Hawkins, of my staff, at (202) 343-9072

Sincerely,

A handwritten signature in black ink that reads "Jim Blubaugh". The signature is written in a cursive style with a large, prominent "J" and "B".

Jim Blubaugh, Deputy Director
