

## Science To Achieve Results

### Science To Achieve Results (STAR) Graduate Fellowships

- Funds up to \$44,000 per year for advanced degrees and careers in environmental science and engineering
- Master's level students may receive a maximum of two years' support (\$88,000), and Doctoral students may receive a maximum of three years' support (\$132,000)
- Annual \$27,000 stipend, \$5,000 for expenses, and up to \$12,000 for tuition and fees
- U.S. citizens, permanent residents, and resident aliens with green cards may apply

### Qualifying Areas of Research for STAR Fellowships (All categories include Social Sciences)

- **Emerging Environmental Approaches and Challenges**
  - Environmental Innovation
  - Information Science
  - Synthetic Biology for Environmental Purposes
- **Human Health Risk Assessment**
  - Public Health
  - Risk Assessment and Risk Management
- **Chemical Safety for Sustainability**
  - Adverse Impacts from Exposures to Endocrine Disrupting Compounds
  - Environmental Health and Safety of Engineered Nanomaterials
  - Computational Chemistry for Predictive Toxicology
  - Communicating and Translating Emerging Science for Evaluating Impacts of Chemicals
- **Air, Climate and Energy**
  - Clean Air
  - Global Change
  - Green Energy/Natural Resources Production and Use
- **Safe and Sustainable Water Resources**
  - Drinking Water
  - Water Quality - Coastal and Estuarine Processes
  - Water Quality - Hydrogeology and Surface Water
- **Sustainable and Healthy Communities**
  - Multidisciplinary Approaches to Optimize Decision Outcomes
  - Tribes and American Indian/Alaska Native/Pacific Islander Communities

## Greater Research Opportunities

### Greater Research Opportunities (GRO) Undergraduate Fellowships

- Funds up to \$50,000 for the last 2 years of an undergraduate program in environmental studies
- Support for students at 4-year, fully accredited institutions of higher education with limited funding for research and development
- \$800 monthly stipend, \$2,500 expense allowance and up to \$11,000 for tuition and fees
- Summer internship at EPA research laboratory or other facility with \$8,600 stipend including relocation allowance
- Applicants must have at least a "B" average
- U.S. citizens, permanent residents and resident aliens with green cards may apply

### Areas of Research Supported for GRO

- Natural and Life Sciences
- Environmental Sciences and Interdisciplinary Programs
- Social Sciences
- Physical Sciences
- Mathematics and Computer Sciences
- Engineering
