

- Formed by Oregon, Washington, and California
- 501(c) non-profit
- A publicly-funded resource to public agencies exploring Performance-Based Infrastructure options
- Focused on water sector

PBI Key Concepts

Public ownership of assets

Alignment of design, construction,
maintenance and operations

Focus on total life-cycle costs,
not just first-costs

Long-term asset management and capital
planning are contractual deliverables

Risk transfer from public to private sectors
