Re: U.S. EPA Transmittal of Imagery Data in support of the Enbridge Line 6B MP 608 Pipeline Release, Marshall Michigan.

Dear Mr. Adams:

The United States Environmental Protection Agency (U.S. EPA) has completed a high definition aerial imagery of the Talmadge Creek and Kalamazoo River system. This data is being hand delivered on 3 CDs to Enbridge Energy, Limited Partnership, Enbridge Pipelines (Lakehead) L.L.C., Enbridge Pipelines (Wisconsin), and Enbridge Energy Partners, L.P. (herein collectively referred to as "Enbridge") to support the ongoing response Enbridge Line 6B MP 608 Pipeline Release in Marshall, Michigan. The over flight conducted on March 17, 2011 documented winter inundation conditions and potential flooding patterns with the shoreline, overbank and floodplain systems.

If you have any questions regarding this transmittal, please contact me immediately at (231) 301-0559.

Sincerely,

A handwritten signature in black ink, appearing to read "Ralph Dollhopf".

Ralph Dollhopf
Federal On-Scene Coordinator and Incident Commander
U.S. EPA, Region 5
