U.S. EPA approves, with modifications described below, Enbridge's above-referenced 2011 Odor Investigation Summary Report. The specific comment to the 2011 Odor Investigation Summary Report is set forth below and shall be incorporated into a revised report.

- 1) **Section 1.2:** add definition for detection limit and revise limit of quantitation. The term "detection limit" should refer to responses for air monitoring and the term "limit of quantification" should refer to air sampling data. Please use these terms consistently throughout the report including tables.

The revised report shall be submitted to U.S. EPA no later than 1700 EDT on September 21, 2011. Please submit an electronic copy of the original and final plan in Microsoft Word format concurrent with the hard copy.

If you have any questions regarding this directive, please contact me immediately at (231) 301-0559.
