DEPARTMENT OF ENVIRONMENTAL QUALITY OFFICE OF THE SECRETARY

Mr. Ron Curry
Regional Administrator (6RA)
U.S. Environmental Protection Agency, Region 6
1445 Ross Avenue, Suite 1200
Dallas, Texas 75202-2733

RE: Applicable Sources Under the SO₂ Data Requirements Rule

Dear Mr. Curry:

On August 21, 2015, the Environmental Protection Agency (EPA) promulgated the "Data Requirements Rule for the 2010 1-Hour Sulfur Dioxide (SO₂) Primary National Ambient Air Quality Standard."¹ The final rule requires the Louisiana Department of Environmental Quality (LDEQ) to "submit a list of applicable SO₂ sources identified pursuant to § 51.1202 located in its jurisdiction to the EPA by January 15, 2016."² According to 40 CFR 51.1200 and 1202, applicable SO₂ sources are those that are not located in a designated nonattainment area and have annual actual SO₂ emissions of 2,000 tons or more based on the most recently available annual SO₂ emissions data for such sources.

A list of "applicable SO₂ sources" located in Louisiana is attached. This list is based on actual calendar year 2014 emissions as reported to LDEQ's Emissions Reporting and Inventory Center (ERIC).³

If you have any questions about this correspondence, please contact Bryan D. Johnston of the Air Permits Division at (225) 219-3450.

Sincerely,

A handwritten signature in blue ink that reads "Peggy M. Hatch".

Peggy M. Hatch
Secretary
