

# EPA Seeks Comments on Draft Underground Injection Permit

Jordan Development Company, L.L.C.

Calhoun County, Michigan

June 2016

## How to comment

You may comment on the proposed permit approvals in writing. Please refer to draft permits:

Fischhaber #2-35, MI-025-2R-0011  
Marshall #1-35, MI-025-2R-0012

Mail or email your comments to:

**Stephen Roy**

U.S. EPA, Water Division

UIC Branch (WU-16J)

77 W. Jackson Blvd.

Chicago, IL 60604-3590

Email: [roy.stephen@epa.gov](mailto:roy.stephen@epa.gov)

Phone: 312-886-6556

## Comment period

The Agency will accept written comments until **July 11** (midnight postmark).

## Information repository

You may see the draft permit at:

**Marshall Public Library,**

124 West Green,

Marshall, Michigan

Monday-Thursday 10am to 8:30pm,

Friday 10am. to 5:30pm.

Saturday 10am to 3pm

or at <http://go.usa.gov/3JwFP>.

## Administrative Record

You may see the full administrative record, including all data Jordan Development Company, L.L.C. submitted, at the EPA's Chicago regional office (*address above*), 9 a.m. to 4 p.m. weekdays. For an appointment to see the files, contact Stephen Roy (*see above*).

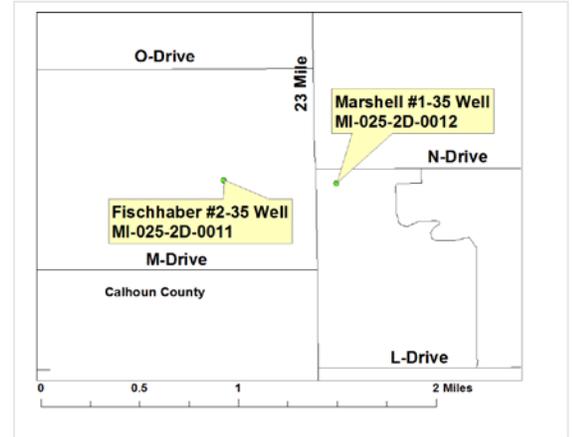

## Right to appeal

You have the right to appeal any final permit decision if you make an official comment during the comment period or participate in the public hearing. A public hearing is not planned at this time. The first appeal must be made to the Environmental Appeals Board.

The U. S. Environmental Protection Agency plans to allow Jordan Development Company, L.L.C., 1503 Garfield Road N, Traverse City, Michigan 49696, to inject fluid underground by approving the company's applications for what EPA calls Class II injection well permits.

If EPA makes its approval final, Jordan Development Company,

L.L.C. may inject brine and produced gas into a rock formation about 4200 feet below the surface through two existing deep wells near 23 Mile Road and N-Drive in southeast Calhoun County, Michigan. Jordan Development Company, L.L.C. has also applied for a permit from the Michigan Department of Environmental Quality (MDEQ).

EPA is accepting comments from the public on this proposed permit approval (*see box, left*). The public comment period, which ends **Monday, July 11**, includes 30 days for comments as required by law, plus an additional three days for any delay caused by mailing.

During the comment period, you may ask EPA – in writing – to hold a formal public hearing (*see address, left*). Be sure to say specifically what issues you want to raise. EPA will hold a hearing if there is significant interest. If there is a hearing, EPA will publish a notice at least 30 days prior. You will have an opportunity to make oral comments or submit written comments. EPA will consider all comments it receives, and then issue a final decision along with a response to the comments.

The Safe Drinking Water Act requires EPA to regulate the underground injection of fluids through wells to protect the quality of underground sources of drinking water. Issuing permits is one way EPA does this. You can find the regulations governing underground injection wells at Title 40 of the Code of Federal Regulations, Parts 144 and 146.

EPA does not have the authority to change the surface location of the injection well. If you have questions or concerns about the well's location, contact the MDEQ, P.O. Box 30256, Lansing, Michigan 48909 and phone number (517) 284-6826.
