**Re: Completion of Scoping Phase of Sections 2 and 3 of Red Hill Administrative Order on Consent (AOC)**

Dear Mr. Miyamoto:

The U.S. Environmental Protection Agency ("EPA") and Hawaii Department of Health ("DOH"), collectively the "Regulatory Agencies", find that the objectives outlined in sections 2.1 and 3.1 of the AOC have been met, and we seek your concurrence.

On Friday, June 3<sup>rd</sup>, the Regulatory Agencies participated in a 2 ½ hour conference call with the Navy/DLA to discuss comments raised by the Honolulu Board of Water Supply in their May 27<sup>th</sup> letter. The Regulatory Agencies are satisfied with the Navy/DLA's proposal, as described on the call, for how to address these comments. The Agencies look forward to receiving the minutes from this discussion which will serve as the documentation for the consensus reached during the June 3<sup>rd</sup> discussion.

Please let us know at your earliest convenience whether the Navy/DLA concur that scoping for sections 2 and 3 is complete. If you do not concur, please propose specific next steps to complete scoping.

Sincerely,

Bob Pallarino  
EPA Red Hill Project Coordinator

Steven Chang, P.E.  
DOH Red Hill Project Coordinator
