6. Section 502(14) of the CWA, 33 U.S.C. § 1362(14), defines “point source” as “[a]ny discernible, confined and discrete conveyance, including but not limited to any pipe, ditch, channel, tunnel, conduit [or] discrete fissure . . . from which pollutants are or may be discharged.”

7. Section 502(7) of the CWA, 33 U.S.C. § 1362(7), defines “navigable waters” as “[t]he waters of the United States, including the territorial seas.”

8. Federal regulations under 40 C.F.R. § 232.2 define the term “waters of the United States” to include “wetlands.”

9. Federal regulations under 40 C.F.R. § 232.2 and 33 C.F.R. § 328.3(b) define “wetlands” as “[t]hose areas that are inundated or saturated by surface or groundwater at a frequency and duration sufficient to support, and that under normal circumstances do support, a prevalence of vegetation typically adapted for life in saturated soil conditions.”

III. Allegations

10. The term “Discharge Area” means the jurisdictional waters that have been impacted either through filling or dredging as a result of the unauthorized activities that are the subject of this enforcement action. More specifically, the Discharge Area is approximately 40.3 acres of wetlands adjacent to three unnamed tributaries of Spring Creek. Spring Creek is a perennial tributary of the Ogeechee River a navigable-in-fact water of the United States, located near latitude 32.855017° N and longitude -82.250920° W , adjacent to Frank Farmer Road near the town of Midville, Burke County, Georgia. The Discharge Area is indicated on the enclosed Exhibits A and B.

11. The term “Site” means the parcel or parcels of land on which the Discharge Area is located.

12. Respondent, Mr. Ralph Sandeford at all times relevant to this Consent Agreement and Final Order, was the owner and/or operator of the Site.

13. Respondent is a person within the definition set forth under section 502(5) of the CWA, 33 U.S.C. § 1362(5).

14. Commencing on or about January 2012 to the present, Respondent, or those acting on behalf of the Respondent, discharged dredged and/or fill material into wetlands on the Site using earth moving machinery, during unauthorized activities associated with the conversion of wetlands to agricultural land.

15. Respondent impacted approximately 40.3 acres of jurisdictional wetlands (Discharge Area) that are connected to Spring Creek. Spring Creek is a perennial tributary of the Ogeechee River, a navigable-in-fact water of the United States.

16. The discharged dredged and/or fill material, including earthen material deposited at the Discharge Area, are “pollutants” as defined under the CWA § 502(6), 33 U.S.C. § 1362(6).

17. The earth moving machinery employed by the Respondent to deposit the dredged and/or fill material at the Discharge Area are “point sources” as defined under the CWA § 502(14), 33 U.S.C. § 1362(14).

18. Respondent’s placement of the dredged and/or fill material at the Discharge Area constitutes a “discharge of pollutants” as defined under the CWA § 502(12), 33 U.S.C. § 1362(12).

19. At no time during the discharge of dredged and/or fill material at the Discharge Area from January 2012 to the present, did the Respondent possess a permit under Section 404 of the CWA, 33 U.S.C. § 1344, authorizing the activities performed by Respondent.

20. Each discharge by the Respondent of pollutants into navigable waters without the required permit issued under Section 404 of the CWA, 33 U.S.C. § 1344, is a violation of Section 301(a) of the CWA, 33 U.S.C. § 1311(a).

21. Each day the material discharged by the Respondent remains in waters of the United States without the required permit under Section 404 of the CWA, 33 U.S.C. § 1344, constitutes a day of violation of Section 301 of the CWA, 33 U.S.C. § 1311.

22. Therefore, the Respondent has violated Section 301 of the CWA, 33 U.S.C. § 1311, due to its discharge of dredged and/or fill material into waters of the U.S. without the required permit under Section 404 of the CWA, 33 U.S.C. § 1344.
