

Verify Software Release Notes, Release 17.0

DCN: 1530052915-0327

Key	Manufacturer Software Release Notes	Industry Sector
Light Duty		
VERIFY-25371	<p>Problem: Light-Duty Footprint Business Rule (LD-FE-FT-BR022) is an invalid business rule.</p> <p>Solution: Deleted the Light-Duty Footprint Business Rule 22 (LD-FE-FT-BR022) which was: If NHTSA CAFE Vehicle Classification (FT-42) equals '6' (Off-highway capable 4WD and at least 4 criteria met) or '7' (GVW greater than 6000 lbs. and at least 4 criteria met), then Three Rows of Designated Seating Positions Indicator (FT-48) must not equal 'N' (No).</p>	Light Duty
Locomotive		
VERIFY-19988	<p>Problem: Locomotive Notch Standard is not rounded properly, resulting in a "Fail" when it should be a "Pass". Rounding of notch standards should be in sync with what is applied for demonstrating compliance with the composite emission standards in 1033.101 (Regulation Cite 1033.240 for the rounding reference).</p> <p>Solution: Fixed the rounding for Locomotive Notch Standards to be in accordance with the regulations. HC and PM will be rounded to 2 digits. NOx, NOx + HC, and CO will be rounded to 1 digit.</p>	Locomotive
Marine Compression Ignition (Marine CI)		
VERIFY-25808	<p>Problem: Marine CI Vessel Reflag manufacturers could not submit dataset with Model Year prior to 2004.</p> <p>Solution: Modified BR rules 265 and 266 so that they do not fire for engine families prior to 2004. Note: No changes were made to the text of the rules.</p>	Marine CI
Non-Road Compression Ignition (NRCI)		
VERIFY-20181	<p>Problem: 2012 is not a selection in the Model Year field drop down menu on the General Information tab of NRCI.</p> <p>Solution: Modified the Model Year drop down menu on the NRCI General Information tab to display years 2008 and greater.</p>	NRCI
