NPDES PERMIT WRITERS' COURSE

Arlington, Virginia
December 12-16, 2016

Course Location

Holiday Inn Arlington at Ballston
4610 N. Fairfax Drive, Arlington, VA 22203
<http://www.hiarlington.com/>

Course Description and Registration Information

The objective of this course is to provide the basic regulatory framework and technical considerations that support the development of wastewater discharge permits required under the National Pollutant Discharge Elimination System (NPDES) program. The course was designed for permit writers with about six months to two years of experience in the NPDES program, but experienced permit writers wanting a refresher course and other water program staff wanting to learn more about the NPDES program also are welcome.

As a foundational course, the training does not address in detail specialized topics such as industrial and municipal stormwater, concentrated animal feeding operations, and vessel discharges. For more information on these specialized topics, please visit EPA's NPDES Web site at www.epa.gov/npdes

A **sample agenda** for the course is attached to this announcement.

There is no cost for the course. Registration is available at:
[U.S. EPA: NPDES Permit Writers' Course](#)
