

**Synthetic Minor Tribal Air Permit for New Mexico Gas Company, Redonda Compressor Station on Pueblo of Laguna in New Mexico. Permit Number R6NSR-NM-003**

The U.S. Environmental Protection Agency Region 6 (EPA) is announcing its decision to issue a synthetic minor source permit in accordance with the provisions of the Clean Air Act (CAA) and the Federal Minor New Source Review Program in Indian Country, 40 CFR 49.151 - 49.161, to New Mexico Gas Company. The compressor station is located on isolated land outside Rio Puerco at an elevation of 5390 ft. in Valencia County, New Mexico.

The EPA prepared a draft permit and held a public comment period from September 28, 2016 to October 27, 2016. No comments were received during the public comment period. The final permit has been issued and will be effective immediately. The final permit, technical support document and other key documents relevant to the final permit can be found at: <https://www.epa.gov/caa-permitting/tribal-nsr-permits-epas-south-central-region-laguna-pueblo-redonda-compressor-station>
