**RE: FNF Construction Request for Coverage under a General Permit**

Dear Ms. Contreras:

The U.S. Environmental Protection Agency, Region 9 (EPA) has conducted an initial review of your Request for Coverage under the *General Air Quality Permit for New or Modified Minor Source Hot Mix Asphalt Plants in Indian Country*. FNF Construction, Inc. (FNF) is proposing to construct and locate an asphalt mixing plant near Ganado, Arizona, in Apache County within the Navajo Nation tribal land.

FNF's Request for Coverage application was submitted pursuant to the Tribal New Source Review regulations at 40 CFR 49.156. The EPA received your request on February 17, 2017. As part of the 45-day completeness review outlined in 40 CFR 49.156(e)(4) EPA has 30 days to review your Request for Coverage for completeness and request additional information in writing. We have determined that your application is complete and contains all the information necessary to complete our review. Note that as the EPA continues review of your application we may identify further information that will be essential to enable the EPA to continue processing your application to make a decision to approve your request for coverage.

We look forward to continuing to work with you on this application. If you have any questions, please contact LaWeeda Ward, of my staff, at (213) 244-1812 or [ward.laweeda@epa.gov](mailto:ward.laweeda@epa.gov).

Sincerely,

A handwritten signature in blue ink, appearing to read "Gerardo C. Rios".

Handwritten initials "for" in blue ink.

Gerardo C. Rios  
Chief, Permits Office  
Air Division
