
Dear Mr. McGuffey, Mr. Dixon, Mr. Shanoff, Mr. Kraushaar, Ms. McCabe and Mr. Dillon:

We find, under CAA section 307(d)(7)(B), that the petition has raised several objections to the provisions in both subpart XXX and subpart C\textsuperscript{f} that arose after the comment period or were impracticable to raise during the comment period and that are of central relevance to the outcome of the rule. Therefore, by this letter the EPA is convening a proceeding for reconsideration of the following topics: 1) tier 4 surface emission monitoring; 2) annual liquids reporting; 3) corrective action timeline procedures; 4) overlapping applicability with other rules; 5) the definition of cover penetration and 6) design plan approval. As part of the reconsideration process, the EPA expects to prepare a notice of proposed rulemaking that will provide an opportunity for notice and comment on the issues raised in the petition that meet the standard of CAA section 307(d)(7)(B), as well as any other matter we believe will benefit from additional comment.

As a result of this reconsideration, the EPA intends to exercise its authority under CAA section 307(d)(7)(B) to issue a 90-day stay of the effectiveness of both the NSPS (subpart XXX) and the emission guidelines (subpart C\textsuperscript{f}). The EPA believes it is appropriate to stay the effectiveness of both rules in their entirety because the topics listed above are integral to both rules. Sources need not comply with these requirements while the stay is in effect.

This letter does not address other requests for reconsideration raised in this and other petitions. Nor does it address the merits of, or suggest a concession of error on, any issue raised in the petition.

If you have any questions on this action, please contact Mr. Peter Tsirigotis in the Office of Air Quality Planning and Standards at (888) 627-7764 or airaction@epa.gov.

Respectfully yours,

E. Scott Pruitt
