Fort Worth, TX 76102

Dear Mr. Allison:

In accordance with the Clean Air Act (CAA), as amended (42 U.S.C. 7401 et seq.), the U.S. Environmental Protection Agency has reviewed your application for a Synthetic Minor New Source Review (MNSR) Permit. The EPA proposed a draft permit for public comment regarding the above application on May 26, 2017.

During the public comment period there were no public comments received from the general public, but in the final permit we have addressed your request for a minor regulatory citation correction. After consideration of the pertinent Federal statutes and regulations and additional material relevant to the application contained in our Administrative Record, the EPA hereby issues the enclosed Synthetic MNSR Permit for XTO Energy Inc. The final permit, basis of decision, technical support document and other key documents relevant to the final permit are also available online at: <https://www.epa.gov/caa-permitting/caa-permitting-epas-south-central-region>.

In accordance with 40 CFR § 49.159(a)(3), this Permit becomes effective immediately. If you have any questions regarding this matter, please contact Mr. Jeff Robinson, Chief, Air Permits Section at (214) 665-6435.

Sincerely,

A handwritten signature in black ink, appearing to read "Guy R. Donaldson".
