| EPA-HQ-2017-003008 | Dave Angle          | Michael Pisani & Associates Inc.  | 1/20/2017 14:01 | Dear Sir: We are trying to obtain an electronic copy of the National Soils Monitoring Program for Pesticide Residues Database which was directed by the EPA in the late 1960s-early 1970s. We have attached copies of two documents that reference the database. Thanks very much, Dave Angle                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

The group comprises six companies who are basic manufacturers and primary registrants of a number of Pyrethroid insecticides. Since the PWG was assembled, over 200 study data reports have been submitted to the EPA in order to satisfy Agency requirements. However, it has become apparent that while these data have been provided to the EPA, EFED has not responded similarly with transmitting data evaluation records (DERs) back to the PWG. Currently the Pyrethroid active ingredients are undergoing Registration Review and the EPA preliminary risk assessment (PRA) has been posted for public comment. While the number of data submissions for which the PWG does not have DERs is extensive, there is a priority list which is important to positioning the PWG's Pyrethroid PRA response correctly. The PWG is                                                                                                                              |

I am specifically looking for any communications or directives issued to agency staff on new media policies, including but not limited to: instructions on the EPA's social media presence; speaking with the press; editing the EPA.gov website or any other directive associated with external communications. I would also like any communications regarding freezing work on any federal grant programs, or                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

Is there a list or table with RI/FS costs by Site (including dates to adjust for inflation)? I understand that you will probably only have data for agency led projects. Please give me a call or email if you have any questions. Thanks.                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

For an academic project, I would like to access the HRS documentation for each hazardous waste site that has received an HRS score within the Superfund program. I have verified that these reports are not available online (EPA website or regulation.gov website). The Federal Register table of the CERCLIS database contains HRS scores only for sites that are/were on the NPL list (mostly sites with an HRS score larger than 28.5). I thus need HRS scores (overall scores and by pathways) for sites that have not been included in the NPL                                                                                                                                           |

| EPA-HQ-2017-004658  | Mindy Poldberg       |                                   | 3/7/2017 21:03  | To Whom it May Concern: I would like to request any and all documents that were sent from the White House to the EPA regarding a change to the Renewable Fuel Standard Point of Obligation. As the media has widely reported, discussions between Carl Icahn and outside private parties in the oil and renewable fuels industry occurred in late Feb/early March regarding the White House's consideration of moving the Point of Obligation from refiners/importers to some point further down the fuel distribution chain. In addition to any point of obligation package or memo, I would also request any other documents that were sent that pertained to other changes that might be considered as part of a package to move point of obligation: this list                                                                                                                                                                                                                                                                                                                                                      |

EPA quickly retracted the report, only to post it again a few months later. Not long after. EPA's retraction of the report, the chair of the committee that authored the report left EPA. This FOIA request seeks records related to that cancer risk assessment report, including any and all communications between EPA and Monsanto and any internal EPA communications concerning the chemical glyphosate. When a pesticide is proposed for registration or re-registration, EPA's Office of Pesticide Programs reviews studies to evaluate the pesticide's potential for causing cancer. The Cancer Assessment Review Committee (CARC) then reviews these results and recommends a cancer classification. This FOIA request includes all documents and communication                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

While doing these projects we see the need to conducting an assessment of the various collaborations regarding GLRI projects and are interested in better understanding the partnerships formed to accomplish various GLRI projects. With that being said, we've decided to focus the initial                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

On behalf of Vice News and myself, jointly, I request that you provide us with: • The daily schedule for Administrator Scott Pruitt for everyday he has been in office since 2/17/17. Format: we prefer to receive records in the following formats, listed in order of preference: (1) an electronic data format such as a text-searchable PDF or Word document, or similar; (2) an electronic scanned PDF; (3) other non-proprietary electronic format. Please respond within 20 working days, as the Act provides, or notify me if "unusual" or "exceptional" circumstances apply – as the Act uses those terms. If you decide to exempt portion of any record, please release all other segregable parts. If you withhold any record or portion of a record, please specify which statutory exemptions are claimed for each withholding. Please separately state your reasons for not invoking your discretion, as the Act allows, to release the requested information. Please describe each record withheld, including its date and size – e.g., amount of electronic memory or number of paper pages. |

This would include discussions of vehicle emission or efficiency standards as they relate to federal and California state regulations. As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. Through this request, I am gathering information on the policy implications of the review of CAFE standards as sought by the President that is of current interest to the public because of its possible impact on fuel efficiency and energy production. This information is being sought on behalf of Politico for dissemination to the general public. Please waive any applicable fees. Saiyid     | Bloomberg BNA                              | 4/7/2017 16:04  | Dear FOIA Officer: Pursuant to the federal Freedom of Information Act, 5 U.S.C. &sect; 552, I request access to and copies of a list of water infrastructure projects that the EPA has compiled for discussion with the White House infrastructure council. Specifically, I would like the list of water infrastructure projects that Administrator Scott Pruitt detailed in his March 2 remarks to the U.S. Conference of Mayors. I would like to receive the information in electronic format preferably, although hard copies of the documents are acceptable. Please waive any applicable fees. Release of the information is in the public interest because it will contribute significantly to public understanding of government operations and activities. If my request is denied in                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

Justification: Transparency is one of the goals of EPA. CSRA promised to provide HPC services and EMVL support to EPA under the guidelines of this project. CSRA management bases it's rationale for employee compensation and terms of employment, including work environment, based on this contract. The contract trumps corporate policies. When explaining work requirements and compensation to the employees, the CSRA management says 'it's in the contract'. Washington, DC 20460 Submitted online Re: Public Records Request This is a request under the Freedom of Information Act for a copy of United States Environmental Protection Agency administrator Scott Pruitt's daily calendar from February 17, 2017 to the date of this request. I am also requesting copies of all travel reports, records of travel authorizations, travel arrangements, per diems, reimbursements, sources of funds, miscellaneous expenses, travel responsibilities, modifications to tickets issued through the department's travel management center, and any other record of Pruitt's travel during the same period. I prefer to receive records in electronic format. Due to the time-sensitive nature of this request, I will hold the Environmental Protection Agency to a strict 20 business-day |

Please include all records that document Administrator Pruitt's schedule, including but not limited to agenda sheets, appointments, day calendars, itineraries, Google calendars, Outlook calendars, programs and timetables. I further request expedited processing of this request for records. The public has an urgent need for information about the Administrator's schedule because it sheds light on how the new administration is operating. I am making this request on behalf of The Washington Post and the records disclosed pursuant to this request will be used in the preparation of news articles for dissemination to the public. Please waive all fees in connection with this request because the disclosure of the requested information is in the public                                                                                                                       |

Washington, DC 20460 Submitted online Re: Public Records Request This is a request under the Freedom of Information Act for a copy of United States Environmental Protection Agency administrator Scott Pruitt's daily calendar from May 2, 2017 to the date of this request. I am also requesting copies of all travel reports, records of travel authorizations, travel arrangements, per diems, reimbursements, sources of funds, miscellaneous expenses, travel responsibilities, modifications to tickets issued through the department's travel management center, and any other record of Pruitt's travel during the same period. I prefer to receive records in electronic format. Due to the time-sensitive nature of this request, I will hold the Environmental Protection Agency to a strict 20 business-day                                                                                                                                                                                                                                                                        |

| EPA-HQ-2017-007909 | Joshua Learn       | S&P Global Market Intelligence          | 6/1/2017 14:06  | To the Environmental Protection Agency FOIA Office, I hope all is well. I'd like to make a request under the Freedom of Information Act. I am writing to seek documents showing communications with the U.S. EPA administrator Scott Pruitt regarding coal in the first week of his tenure at the position. I'd like a copy of any documents, meeting notes and meeting schedules, recorded meetings or phone calls and any other communications that may have occurred to or from the administrator of the U.S. EPA Scott Pruitt that mention the word "coal" between February 17, 2017 and February 24, 2017. I would prefer to receive these documents in electronic form, if possible. I'm a financial coal reporter for S&P Global Market Intelligence, formerly known as SNL Financial, an online trade publication covering energy and this request is made as part of news gathering and not for a commercial use. I request a waiver of all fees for this request. Disclosure of the requested information to me is in the public interest because it is likely to contribute |

| EPA-HQ-2017-008340 | Alison Gregor         | PROPUBLICA                        | 6/12/2017 19:06 | Pursuant to the federal Freedom of Information Act, 5 U.S.C. &sect; 552, I request: all Ethics recusal or counseling memos issued by the agency since Jan. 20, 2017. I would like to receive the information in the following format: electronic. As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. This information is being sought on behalf of ProPublica, an independent non-profit news organization, for dissemination to the general public. Please waive any applicable fees. Release of the information is in the public interest because it will contribute significantly to public understanding of government operations and activities, specifically the determination of potential conflicts of interest of federal employees with decision-making authority over public policy, and the resolution of these conflicts by Designated Agency Ethics Officials. As a non-profit journalistic entity, ProPublica does not have the same commercial interests of other news organizations. If my request is denied in whole or part, I                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| EPA-R7-2017-008420 | CD Stelzer            | Independent Journalist            | 6/14/2017 13:06 | This is a request under the Freedom of Information and Privacy Act. Please provide copies of any and all contracts, correspondence and invoices , including email and fax communications, between EPA Region 7 and Chenega Logistics, an EPA contractor for Region 7, from the inception of the relationship with that contractor up to the present. I am a journalist and this information is of vital public interest, therefore, I am asking that fees be waived. I am also asking that my request be expedited for the same reason. I am asking for a public statement by you or a responsible EPA Region 7 official as to the current and past status of EPA Region 7's contractual relationship with Chenega Logistics. Please tell me how many contracts Region 7 has or had with Chenega Logistics?; the nature of those contracts; the dates of the contracts; the amount payable to Chenega Logistics under the terms of                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

| EPA-HQ-2017-008499  | Emily Berman           | Union of Concerned Scientists      | 6/16/2017 14:06 | I was an EPA Fellow in 1992. I created a report that dealt with Stationary Source Inspector Compliance and Training. I worked from the Crystal City office and worked with the EPA office in Triangle Park, NC. I can't find the report on the EPA website and would like a copy of it. I was most likely published in                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

| EPA-HQ-2017-008568 | Justine T. Cowan      | Cowan Consulting for Nonprofits   | 6/19/2017 18:06 | This is a request under the Freedom of Information Act. I hereby request copies of the following records: We are requesting records regarding an EPA consent agreement and final order in 1988 with De'Longhi USA, the manufacturer of a consumer oil-filled space heater. See the attached article in the EPA Journal, Vol. 14, No. 4, May 1988, p. 36. The Agency determined that some of approximately 500,000 heaters distributed in the US by De'Longhi contained oil contaminated by PCBs. We are also attaching two newspaper articles about the situation, indicating that possibly the original discovery of PCBs was made by Environment Canada. I am specifically asking for copies of the following documents: 1) Technical documents regarding the extent and nature of the PCB contamination and any risk assessment. 2) A copy of the Consent Decree and Final Order. 3) All correspondence with De'Longhi about the matter. 4) All documents regarding the recall of the heaters in question if not included in #3. I understand that the documents are probably archived and effort will be needed to locate the documents. Note that we briefly spoke with Jenny McLeod in OLEM/ORCR, who indicated that there may be |

I understand that the EPA collects annual reports from all companies that export hazardous waste under the Resource Conservation and Recovery Act (RCRA). I request that copies of the following documents be provided to me: _All reports submitted by companies regarding imports and exports of hazardous waste, to or from Mexico, for the years 2010, 2011, 2012, 2013, 2014, 2015 and 2016. _If EPA keeps any datasets listing imports and exports of hazardous waste, please also provide the complete data for all countries (not just Mexico). I would ask that you provide these documents in their native electronic form. I would also ask that any compiled data be provided in a spreadsheet or similar format if it is available. I am a journalist employed full-time by The Desert Sun and the USA TODAY Network. This request is made as part of news gathering and not for a commercial use. I am requesting a waiver of all fees under 5 U.S.C. Section 552(a)(4)(A)(iii). The information I seek is in the public |

| EPA-R3-2017-008926 | Phelim McAleer      | Ann and Phelim Media                     | 6/29/2017 13:06 | This is a request under the Freedom of Information Act. I request all documents pertaining to the U.S. Environmental Protection Agency testing of drinking water in Dimock, PA in late 2011 and the first half of 2012. Specifically, I request the results of the tests from private drinking water wells serving 64 homes, including the results of two rounds of sampling at four wells where EPA was delivering temporary water supplies. I also request any reports, memos, or correspondence about the decision to test the water in Dimock, correspondence with the families about the decision to test or the results, and any audio or video created by the EPA as a result of the decision to test, the sampling results, or correspondence with Dimock residents. In order to help                                                                                                                                                                                                                                                                                                                       |

Lahiff | McDermott Will & Emery LLP                  | 6/30/2017 13:06 | I am seeking information about the previous regional administrators of regions 1,2,3,4,5,6,7,8, and 10 from January 1993 to the present administrators. I have already acquired information about the past administrators from Region 9 so that region is not necessary. Specifically, I am looking for the names of all the people who have acted as regional administrators starting from the beginning of President Clinton's administration (January 1993) until the current, acting administrators for each region. As well as the names, I am also looking for the start and end dates for each person's term as regional administrator. The purpose of this request is that I am working on an undergraduate research project in the field of environmental economics at the                                                                                                                                                                                                                                                                                                          |

Washington, DC 20460 Submitted online Re: Public Records Request This is a request under the Freedom of Information Act for a copy of United States Environmental Protection Agency administrator Scott Pruitt's daily calendar from June 2, 2017 to the date of this request. I am also requesting copies of all travel reports, records of travel authorizations, travel arrangements, per diems, reimbursements, sources of funds, miscellaneous expenses, travel responsibilities, modifications to tickets issued through the department's travel management center, and any other record of Pruitt's travel during the same period. I prefer to receive records in electronic format. Due to the time-sensitive nature of this request, I will hold the Environmental Protection Agency to a strict 20 business-day |

| EPA-R9-2017-009083  | Kelly Knight           | Targus Environmental          | 7/5/2017 19:07  | Good afternoon, I'm working on a Phase I ESA for a property located at 2040 Williams Street (also known as 2010 and 2020 Williams Street), in San Leandro California. The CERCLIS ID for this facility is CAN000906074; the Site number is 09LW. I have been going through an EPA Pollution Report (attached), dated August 2, 2004, for the property. The report described: (1) a June 14, 2004 meeting attended by the San Leandro Fire Department, the Alameda County Fire Department, the Alameda County Sheriff, and the ATF; (2) a 14-minute video of the "chemical room" generated by the FBI or one of                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

Tom Carper (D-DE) about the agency's enforcement efforts. There is no way for me to obtain this letter other than through FOIA. The letter is referenced in Carper's July 12 statements at a Senate Environment & Public Works Committee hearing at which he said: &quot;I very much appreciate the constructive meeting on this topic that took place at the end of June between EPA staff, my staff and the Chairman's staff. I also appreciate that shortly after that meeting the EPA provided a substantive, though incomplete, response to a letter I sent on                                                                                                                                                                                                                                                                         |

I would like a history of the names so that I know whom the facility belonged to in prior years, not just today. Annual snapshots of REGISTRY_ID and FAC_NAME, with the historical FAC_NAMES in each year, would do. Better yet, annual                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

Previous request had a series of seven questions and this should be considered question 8. What are the paygrades of individuals that are in EPA Native American/Alaskan Native workgroups Booker Landfill aka Acres Homes West Donovan Street, Houston, TX All reports and investigations. The date range of records requested is between 2003 and 2005. The address is identified as 1400 West Donovan, Houston, TX. I would expect the investigation and report done for the EPA would also have                                                                                                                                                                                           |

I am requesting GIS data within the attached study area for groundwater wells and surface water intakes that supply drinking water to Community and Non-Transient Non-Community systems. I'm looking for polygons of the source water protection areas and wellhead protection areas, more so than point locations. I have attached a list of attributes that we are interested in acquiring should they be available. These data will be used to comply with pipeline safety regulations that require operators to develop integrity management programs to proactively protect resources that are unusually sensitive to                                                                                                                                                                                                                                                                                            |

Recently we plan to apply for a pesticide registration to EPA. Our product is Diethyl toluamide (DEET, PC code 80301), which is a manufacturing use product with DEET purity 99%. We hope to use the cite-all data citation to fulfill the data requirements. We found this product has been registered long ago before 1990. Could you please help us to have a check if we                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

My co-authors and I are investigating the cleanup process for Superfund sites and we would like to request several important sets of data to help us in this research. Thank you very much in advance for the assistance. All data from Superfund Enterprise Management System (SEMS) on Superfund sites (including those proposed, current, and deleted from the National Priority List), pre-proposal sites, and Superfund Alternative sites, at the site/operable unit level, from 1980 to present. Specifically: 1. All data fields pertaining to site and operable unit characteristics (including but not limited to id, site type, location, size, status, contaminant, remedy, industry, potentially responsible parties (PRPs), PRP type), site indicators (including but not limited to NPL status, and whether the site is a Superfund Alternative Agreement site), data about human exposure, environmental indicators, sitewide ready for anticipated use indicator. 2. Start and end dates and action type of all actions (including but not limited to enforcement, settlement, removal) |

The only cost estimate I can find for the site is based on the EE/CA which was submitted to EPA in 2010. However, I understand that additional cleanup has occurred as a result of the pre-design sampling, and that more cleanup may be anticipated based on findings from recent construction activities.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

It included the eighteenth session of the Conference of the Parties (COP 18) to the United Nations Framework Convention on Climate Change (UNFCCC) and the eighth session of the Conference of the Parties serving as the Meeting of the Parties to the Kyoto Protocol (CMP 8). The conference also included meetings by five subsidiary bodies: the thirtyseventh sessions of the Subsidiary Body for Scientific and Technological Advice (SBSTA 37) and the Subsidiary Body for Implementation (SBI 37), the second part of the seventeenth session of the Ad hoc Working Group on Further Commitments for Annex I Parties under the Kyoto Protocol (AWG-KP 17), the second part of the fifteenth session of the Ad hoc Working Group on Longterm Cooperative Action under the UNFCCC (AWG-LCA 15) and the second part of the Ad hoc Working Group on the Durban Platform for Enhanced Action (ADP 1). Negotiations in Doha focused on ensuring the implementation of agreements reached at previous conferences. The package of "Doha Climate Gateway" decisions adopted on the evening of Saturday, 8 December, included amendments to the Kyoto Protocol to establish its second commitment period. Having been launched at CMP 1 in 2005, the AWG-KP terminated its work in Doha. The parties also agreed to terminate the AWGLCA and |

| EPA-HQ-2015-011108 | John C. Goetz       | ARD - German Public Television | 9/25/2015 13:09  | Dear FOIA Officers, this is a request for records made under applicable provisions of the Freedom of Information Act (5 U.S. Code &sect; 552). On September 3, 2015, officials from the Environmental Protection Agency, California Air Resources Board and Volkswagen met to discuss diesel vehicle emissions. I seek copies of all records produced for and collected from that meeting. These may include, but are not limited to, invitations, agendas, list of attendees, minutes, memos, power-point presentations, photographs and videos. This information is solely being sought for dissemination to the general public in press publications, and I kindly request that fees be waived, as I believe the information from this request will greatly further the general public's understanding of the government's handling of the Volkswagen case. If fees are imposed, please limit them to reasonable standard charges for document                                                                                                                                                                                                                                                                                                                  |

| EPA-HQ-2016-000223 | Sheryl K. Reilly    | SciReg, Inc.                   | 10/8/2015 19:10  | I am requesting a copy of a letter sent to all registrants of pesticide products containing 100% &quot;Diatomaceous earth&quot;; as the active ingredient, and a list of all of the companies to whom the letter was sent, and the dates the letters were sent. It is my understanding the letters were sent this past summer. The letters would have most likely been signed by Richard Gebken or Linda Deluise in the Office of Pesticide Programs' Registration Division, and                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

Section 552 et seq (&quot;FOIA&quot;), I request copies of (or access to) documents, pertaining to Volkswagen (hereafter referred to as &quot;the Records&quot;), specifically: (1) All records between the Environmental Protection Agency and Volkswagen from January 1, 2014 to the present. (2) Records between the Environmental Protection Agency and the International Council on Clean Transportation from January 1, 2014, to the present. (3) Records between the Environmental Protection Agency and West Virginia University's (WVU) Center for Alternative Fuels, Engines & Emissions, from January 1, 2014, to the present. (4) Records of emails from Justin Greuel, Manager, Diesel Engine Compliance Center, Compliance Division, OIAQ, containing the words &quot;Volkswagen&quot; or &quot;VW&quot; from January 1, 2014, to the present. (5) Records of emails from Christopher Grundler, Director of the Office of Transportation and Air Quality, and that contain the words &quot;Volkswagen&quot; or &quot;VW&quot; from January 1, 2014, to the present. (6) Meeting minutes from all meetings between EPA staff and Volkswagen staff from January 1, 2014, to the present, |

So for example, I'd like to be able to see which companies had registrations for pesticides containing 2,4-D in 1996 (even if that I wish to see any correspondence between the agency and Volkswagen over its plans to introduce to the US market for the first time for the 2009 model year diesel-engine vehicles with Lean NOx Trap (LNT) emissions-control technology. The technology was first introduced on the Jetta in 2008. I am particularly interested in any explanations EPA sought from Volkswagen over how this unique technology would work and any explanations that                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

The first attached file requests the Agency's data evaluation records for studies submitted to support the registration of malathion. The second attached file requests copies of documents that EPA has cited in its draft human health risk assessment, which has a comment period that ends on December 21, 2016. These documents are needed in order for the registrant and the public to fully understand the ecological, endangered species and human health risk assessments that the agency has posted for public comment. The MRID Numbers and associated information for the studies in question are listed in the attached document. No data are (1) Acetamiprid, imidacloprid, dinotefuran, thiacloprid, and thiomethoxam were all conditionally registered and EPA required the registrants to submit supplemental data. Please provide all records that were submitted to EPA to support the registration of each of those listed pesticides (including the data that they were submitted to EPA) and all accompanying Data Evaluation Records for each of the pesticides based on the data required for the conditional registration. The attached supplemental document lays out the specific data that EPA required and to which this request is limited. NRDC seeks the studies and DERs themselves, not just the MRID numbers.<br><br>(2)Please provide all decision documents that reflect EPA's decisions about the status of the registration for each of the following pesticide active ingredients: acetamiprid, imidacloprid, dinotefuran, thiacloprid, thiomethoxam and clothianidin.<br><br>(3)Please provide all studies submitted to EPA relevant to evaluating potential impacts to bees or other pollinators with each of the following pesticides active ingredients: acetamiprid, imidacloprid, dinotefuran, thiacloprid, and thiomethoxam.<br><br>(4)Please provide all cumulative and aggregate assessments conducted that include one or more of the following pesticide active ingredients: |

Hammond    |                                          | 5/19/2014 20:05  | This is a request for the electronic records listed in paragraph 2 of the attached memo from Richard M. Fetzer to Gerald T. Heston, US EPA Region III, concerning the results of sampling at the Dimock Residential Groundwater Site (PAN00306785). The analytical data from the lab and the URS Report I request a copy of the records related to experimental use permit (EUP) EPA Reg. No. 71297-EUP-R which was issued in or about 2000. I understand that this EUP was deemed acceptable by BPPD per the Memorandum from R. S. Jones to D. Benmhend dated 9/28/2000. The Bonn conference comprised the 38th sessions of the Subsidiary Body for Implementation (SBI) and Subsidiary Body for Scientific and Technological Advice (SBSTA), as well as the resumed second session of the Ad Hoc Working Group on the Durban Platform for Enhanced Action (ADP 2). SBI 38 was marked by disagreement over a proposal by the Russian Federation, Belarus and Ukraine to introduce a new item on legal and procedural issues related to decision-making under the Conference of the Parties (COP) and Conference of the Parties serving as the meeting of the Parties to the Kyoto Protocol (CMP). This proposal was motivated by dissatisfaction with the decision-making process at the UN Climate Change Conference in Doha in 2012. Other parties opposed considering it as a new SBI agenda item, and instead proposed placing the issue on the SBI agenda item regarding arrangements for intergovernmental meetings. No resolution of the issue was made at this meeting. SBSTA 38 made progress on reducing emissions from deforestation                                                                                                                                                                   |

| EPA-HQ-2015-007071 | Richard J. Lazarus | Harvard Law School                  | 5/13/2015 19:05 | A copy of this description is also included in an attached formal letter:<br><br>The purpose of this sletter is to make a formal request pursuant to the federal Freedom of Information Act for documents, both hard copies and electronic in form (including emails) pertaining to the decision of the U.S. Environmental Protection Agency in 2003 that greenhouse gases were not pollutants within the meaning of the federal Clean Air Act. More specifically, I am interested in documents relevant to the Agency's decision making between January 1, 2001, and August 28, 2003, when EPA formally denied a petition seeking regulation of greenhouse gas emissions from new motor vehicles under the Clean Air Act, extending to the Agency's defense of that decision before the U.S. Court of Appeals for the D.C. Circuit and the U.S. Supreme Court.<br>I am seeking access to these documents in support of my research on the history of a Supreme Court case, Massachusetts v. EPA, decided by the Court in April 2007. For this same reason, I would like to request a fee waiver for the associated costs. The exclusive purpose of my research is in support of an academic publication, most likely a book for a general audience, that I believe will be of significant interest and value to the public. On September 3, 2015, officials from the Environmental Protection Agency, California Air Resources Board and Volkswagen met to discuss diesel vehicle emissions. I seek copies of: • Records produced for and collected from that meeting. These may include, but are not limited to, agendas, list of attendees, minutes, memos, power-point presentations and photographs. This information is being sought for dissemination to the general public in the process of news gathering, and I request, if appropriate, fees be waived, as I believe this request is in the public interest. If fees are imposed, please limit them to reasonable standard charges for document duplication, as these records are not sought for commercial use. Please notify me if fees are expected to                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

I have heard that the EPA contacted VW in early September about these violations, so I am asking for all records pertaining to communication between the EPA and VW in August and September 2015. I am requesting these files as a member of the news media. If any expenses in excess of \$50 are incurred in connection with this request, please obtain my                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

| EPA-HQ-2016-002780 | Sebastian Blanco    | AutoblogGreen                            | 1/14/2016 17:01  | I previously requested communication documents between the EPA and VW from August and September 2015, as that was when I thought the EPA became aware of VW's "defeat device." I would still like those documents, but the lawsuit filed by the DOJ this month show that the EPA was first aware of questions about VW's diesel emissions in late 2014. Therefore, I would also like to request any communications between the EPA and VW that took place in May and June 2014 regarding questions about the automaker's diesel emissions. It appears from the lawsuit that the vehicles that initially caused questions to be raised were a 2012 Jetta and a 2013 Passat that were being tested by the Center for Alternative Fuels, Engines &                                                                                                                                                                                                                                                                                                                                                 |

Other senior administration officials, such as former Secretary of State Hillary Clinton and Defense Secretary Ash Carter, have been found to have used a personal email account for government business. Both of those instances not only ran counter to their departments' policies but could have led to the potential exposure of classified information. In response to worries over their use of personal email for government business &not-- and also litigation in former Secretary Clinton's case &not-- both former Secretary Clinton and Secretary Carter released thousands of pages of their personal emails that were used for government business. Further, a recent court ruling found that agency officials should      |

| EPA-HQ-2017-000401 | Katherine E. Hobbs     | SRC, Inc.                                    | 10/13/2016 14:10 | My organization would like to request copies of the attached MRID reports and any associated Data Evaluation Records or Reports (DERs) for the pyrethroids listed (fenpropathrin, fluvalinate, fenvalerate, gamma-cyhalothrin, tefluthrin). We really mostly need the original MRID studies AND their associated DERs (we need to review both the original study plus the DER for our purposes). Not all of the studies in the list have MRID numbers listed. If this is a problem, please let me know and I can try to track down the numbers. We are requesting these reports for work on behalf of the Agency for                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

As means of background, the Federal Insecticide, Fungicide, and Rodenticide Act of 1947 (FIFRA) required companies to register pesticides with the U.S. Department of Agriculture (USDA). In 1972, the Federal Environmental Pesticide Control Act (FEPCA) transferred pesticide registration responsibilities from USDA to EPA. It is my understanding that copies of the historical pesticide registration records                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
