EPA-R5-2018-001622	Jennifer Avellana	T&M Associates	11/13/2017 15:11	40 CFR 270.72(a)(4) governs changes in the ownership or operational control of a facility that qualified for interim status (I/S) under section 270.70. That regulation appears to state that when such a change is requested, the current owner or operator (O/O) must continue to maintain the RCRA financial assurance (FA) for closure and post-closure, until the EPA (or authorized State) issues written notice that the proposed new O/O has demonstrated compliance with subpart H requirements, and the now-former O/O "no longer needs to comply with subpart H as of the date of demonstration [by the proposed new owner or operator]." In its May 1992 guidance manual for RCRA financial assurance (SW-955, copy attached with this request), the EPA states "an owner or operator may be released from the federal RCRA requirements if . . . (2) ownership or operation of the facility has been transferred, BUT ONLY in accordance with the specific conditions of such transfers." (Page II-16) (emphasis added). Attachment II-2 to that manual states that it is EPA's (or, impliedly, authorized State's) responsibility to: "Approve requests to terminate financial assurance: (a) When alternate assurance is substituted; or (b) When the owner or operator is released from financial assurance requirements." (Page II-22). REQUEST: I request copies of EPA policy and guidance documents that indicate that a current O/O of an I/S facility may be released from FA requirements other than via written notice of approval of such termination from the EPA (or authorized State), if such documents exist. Please confirm if no such documents exist. NOTE: EPA's response to FOIA No. EPA-HQ-2017-003409 (attached) confirms that attempted changes of operational control that do not comply with the 90-day advanced notice requirements of section 270.72(a)(4) result in non-transfer (i.e., the Part A will not be transferred but will remain with the prior owner or operator of the facility). 				<p>40 CFR 265.118(a) addresses requirements for RCRA post-closure plans, which include an 'approved post-closure plan during the post-closure period,' for facilities that meet the applicability criteria of section 265.110(b). Section 265.118(d) addresses reqmts for amendments to approved post-closure plans ("PCP"). (Excerpted pages from 40 CFR Part 265 are attached). REQUEST: I request copies of EPA policy and guidance documents: 1) that specifically address the reqmts for an existing owner or operator of a facility regulated under 40 CFR Part 265 to transfer their approved PCP to another entity after final closure has been certified and the post-closure period has been initiated, if such transfer may actually occur, and 2) that confirm that an owner or operator issued an approved PCP under part 265 with respect to a facility for which the post-closure period has been initiated may not transfer the approved plan to another entity, if that is the case. If the requested policy and guidance documents do not exist, I request confirmation of that fact. NOTE: RCRA Online No. 13077, attached, appears to require a new owner to obtain an approved closure plan, but that guidance relates to a time period BEFORE certification of final closure has occurred. Based on a) the highlighted definitions in the attached section 260.10 (active file, final closure, in operation, and inactive) b) the confirmation of 'active management' and 'land disposal' in RO 11826, c) the confirmation of reqmts to operate under interim status in RO 13035, and d) the confirmation in EPA's response to FOIA No. EPA-HQ-2017-020277 (i.e., a RCRA permit application is considered withdrawn in connection with approval of closure plan and occurrence of the other specified actions in the document), it does not appear that change of operational control of a facility may actually occur after final certification of closure (because such a facility is no longer 'in operation').</p>	Assignment Determination

EPA-HQ-2018-001390	Elizabeth Font	Columbia University	11/6/2017 17:11	<p>As part of an academic research at SIPA, Columbia University, I need to find the exact dates (day, month and year) when the Toxic Release Inventory report was published (the public release) from the year 1995 to 2001. As the data is lagged by two years, the 1995 publication would be the release of the 1993 data, and so on. Just to be clear, what I am looking for is the date, month and year the TRI report was made public in 1995, 1996, 1997, 1998, 1999, 2000 and 2001. Please feel free to contact me by email with any doubt, I really appreciate the effort.</p>	Assignment Determination

			<p>Documents describing the doctrine in naming polymers for TSCA Inventory representation whereby companies are required to use the name of purchased substances as described by the suppliers of polymeric substances. According to this doctrine, if a polymeric substance could be described as X, Y, or Z, but the supplier describes it as Y, anyone reacting that polymer must use the name Y in describing the resulting polymer. EPA-HQ-2018-001237	Sandra Fischer		11/1/2017 16:11	I'm working on a Phase I ESA for a farm in Clarksdale, MS. The Red Panther Chemical site is listed in the EDR report as a NPL, SEMS and PRP site. The following is what I know about the site: "According to information provided in the EDR report, "The Red Panther Chemical Company is a former pesticide formulation facility located in Clarksdale, Coahoma County, MS. Due to past site related activities; pesticides were deposited in the soil on the facility property and the neighboring 18th Street neighborhood. A removal action was conducted in 2002, addressing the facility contamination, within the confines of the Red Panther Property. In September 2011, the Red Panther Chemical Company was listed to the NPL. The remedial response will focus on the residual contamination within the surface and subsurface soils not captured during the 2002 removal action, and any contamination deposited into the surrounding neighborhood." I'm wondering if you can provide me with any updated info on the site? Or maybe a plume map? Anything would be great. I'm trying to figure out if the plume extends onto the farm. 				<p>This is a request under the Freedom of Information Act. I hereby request copies of the following records. I am requesting all communication and records (including but not limited to written and audio/video records) between Environmental Protection Agency (EPA), National Institute of Environmental Health Sciences (NIEHS) and Fogarty International Center (FIC) on the impact of Global Climate change on public health. I would like to know how global climate change has impacted public health in the 21st century and its anticipated impact to human health in the future. Environmental impact to include direct effect of heat, sea level rise, changes in precipitation that lead to flooding and drought, more powerful hurricanes and storms, deteriorating air quality, and increased exposure to toxic environmental pollutants including persistent organic contaminants, metals, and pesticides. I want a better understanding of how climate change can directly and indirectly influence human health and records to show the efforts made by EPA, NIEHS and FIC to reduce or prevent illness and death. In addition to agency records, any communications, research, publications will also be helpful. I am looking to obtain relevant, recent and current information (2010 to current). If the amount of records are too high and significant then you may reduce the time frame to the past 2-3 years (2014 to current) As the FOIA requires, please release all reasonably segregable nonexempt portions of documents. If you have any questions regarding this request, please contact me at 714-401-6677 and/or priya.m.panicar@gmail.com. I look forward to receiving your response within the twenty-day statutory time period. For example, if the EPA withholds a record (or portion of a record) under FOIA exemption 4, please identify why the EPA believes disclosure of the record is likely to cause substantial competitive harm. This information will help me decide whether to appeal an adverse determination. Thank you for your attention to this FOIA request. Please send me responsive records on a rolling basis as the EPA's search for -- or deliberations concerning -- certain records should not delay the production of other records that are ready for production. Please do not hesitate to call or email me to clarify the request or otherwise expedite and simplify your efforts to comply.	Assignment Determination

For purposes of this request, the term "communications" includes, but is not limited to, letters, e-mails, memoranda, notes of meetings, notes of telephone conversations, and all other communications or records of communications and other documents created, received, or retained by EPA. EPA-HQ-2017-011645	Sean Reilly	Environment and Energy Publishing	9/19/2017 21:09	On September 14, 2017, a joint ProPublica-Texas Tribune publication noted that the U.S. Environmental Protection Agency (EPA) took air samples around a Valero Energy refinery, after Hurricane Harvey came through and residents complained of rotten stench. The EPA did not release any specifics to the public, but said "concentrations of several toxic chemicals, including the carcinogen benzene, met Texas health guidelines." Thus, pursuant to the Freedom of Information Act (5 U.S.C.§ 552), I hereby request all records related to EPA's benzene air sampling conducted in the atmosphere surrounding the Valero Energy refinery following Hurricane Harvey. There is only one Valero Refinery in Houston, and the address for it is: 9701 Manchester St, Houston, TX 77012. I also request a copy of the benzene air sample test results. The date range I am interested in is August 26, 2017 to the present. I would like these records in a searchable and analyzable electronic PDF format, if that is feasible.	Assignment Determination

				<p>I am writing to narrow the scope of my request EPA-R6-2017-011641, in order to speed up its processing time.</p> <p>I am only asking for the data points for benzene. In other words, I am requesting:</p> <p>The EPA air monitoring data referenced in this EPA press release from September 8, 2017: https://www.epa.gov/newsreleases/epatqcqcity-houston-harvey-update. The data were gathered by EPA's mobile laboratory ("TAGA"), on September 5 and September 6, 2017, in the neighborhood next to the Valero refinery in southeast Houston. The requested data were represented on two EPA-released maps, but the maps do not show individual data points or measurements. I am requesting all of the available air-monitoring data associated with the benzene measurements taken over those two days, including but not limited to the date and time of each benzene measurement; the measured concentration of benzene in each measurement; the unit(s) the benzene concentrations are measured in (e.g. ppb or micrograms/cubic meter); the wind direction; the wind speed; the duration of each measurement; the detection limit of each measurement; and the geographic coordinates of where each measurement was taken. The fields listed in the previous sentence are representative of the data associated with a typical air monitoring dataset—if there are additional fields included in the data, please include them as well. I am simply requesting all of the benzene data associated with the cited TAGA runs on September 5-6, 2017.</p>

EPA-HQ-2017-011616	Steven H. Lamm	CEOH, LLC.	9/19/2017 16:09	FOIA Request (September 19, 2017) from CEOH, LLC (Steven H. Lamm, MD, DTPH) to EPA FOIA Office. Authors from the EPA and authors under contract to EPA published the article "Relationship between arsenic concentrations in drinking water and lung and bladder cancer incidence in the U.S. counties" by Mendez WM et al. in the Journal of Exposure Science and Environmental Epidemiology (2017 May;27(3):235-243). I request a copy of the data set that underlay the published analyses. Please include in the data set the FIPS numbers for each entry as that is not privileged confidential information and is essential for the purpose of confirming the validity of the data set. It is not clear that the published analyses are either correct and valid or that they are the only correct and valid interpretation of the underlying data. I request that the data be sent as a spreadsheet that I can analyze in excel and in STATA. I do not use SAS or SPSS. All the underlying information has been collected by federal governmental agencies and belong in the public domain. How EPA personnel and contractors have organized and used that information using federal funds also belongs in the public domain. This information does not fall within the nine exclusions, including the ninth exclusion on geological information on wells. I am requesting information on the water that comes from the wells and on either the geological nature of the well or the geographical coordinates of the well. The underlying data on the arsenic contents of the waters of the wells has already been publicly released by the USGS. I am requesting the EPA data from the aggregation of the USGS data. I request a fee waiver and expedited processing on the bases explained in the attached copy of my complete FOIA request.	Assignment Determination

			Regarding the Western Processing Superfund Site at 7215 S 196th Street, Kent, WA, I am interested in obtaining information about the PRPs for the site. I am specifically interested in any information related to whether The Seattle Times Company was a PRP and, if so, the basis for their inclusion. I understand that approximately 325 PRPs were initially identified and sent notice letters in 1983, and that approximately 190 of them formed a group that contributed cleanup money through a trust fund. I also understand that a database was created by Techlaw/Intera to track PRPs and their involvement with the site. I would like to obtain copies of records such as lists of PRPs and the trust fund group members, PRP notice letters, and the PRP database, either as specifically related to The Seattle Times Company, or as a data set that I can search through. If there is a file specifically for The Seattle Times Company within the Western Processing site files, I would like to review and/or obtain a copy of that.

EPA-R3-2017-010805	James M. Pierson	Pierson Legal Services	8/23/2017 20:08	The firm represents Allen Atkinson whose property has been damaged by water from the storm drain system in the Town of Poca. Unfortunately the Town of Poca has denied ownership or control of its own storm water system. We have recently added the Putnam PSD to our litigation but in as much as the system discharges into a navigable waterway, it appears that there should be reports filed relating to those discharges. The Town of Poca denies that it has records regarding the location of the storm drain system and so it is possible that this is a combined sanitary sewer and storm sewer system. Please allow this communication to serve as our request pursuant to the Freedom of Information Act that you provide this office with copies of any report filed by any person or entity relating to storm water discharge from waters originating from the area now encompassing the Town of Poca, WV into the Kanawha River or its tributaries. Also please provide a copy of any permit, authorization of similar document regardless of date which authorized the Town of Poca or other entity to discharge storm water runoff from the area now encompassing the Town of Poca into the Kanawha River or its tributaries. 				This is a request for records under the Freedom of Information Act. I am writing to request copies of any and all OGE conflict of interest waivers that may have been granted to the following individuals: Tate Bennett, Troy Lyons, Liz Bowman, and Christian Palich. According to the Office of Government Ethics, "18 U.S.C. § 208 requires that an executive branch employee be disqualified ("recused") from a "particular matter"; if the matter would have a direct and predictable effect on the employee's own financial interests or on certain financial interests that are "imputed" to the employee by the statute, unless the employee first obtains an individual waiver or a regulatory exemption applies." I am requesting copies of any and all recusal letters purported to show that the following individuals recused themselves from a "particular matter" as described under statute 18 U.S.C. § 208: Tate Bennett, Troy Lyons, Liz Bowman, and Christian Palich. I am also requesting copies of the Environmental Protection Agency's recusal policy. I am requesting copies of the full calendars, starting from January 20, 2017 until the date of this request, for the following individuals: Tate Bennett, Troy Lyons, Liz Bowman, and Christian Palich. As you know, public records law provides that if portions of a document are exempt from release, the remainder must be segregated and disclosed. While I expect that you will send me all non-exempt portions of the records I have requested, I respectfully reserve the right to challenge your decision to withhold any materials. Due to the time-sensitive nature of this request, I will hold the Environmental Protection Agency to a strict 20-day deadline for an initial response and expect the agency to provide written notice of its intention to take any extension to respond. Please consider any e-mails, attached documents, voice mail logs or transcriptions, letters, memorandums, text messages, voice/video recordings and other documented forms of communications as responsive Records to my request. This request is ongoing, and I am requesting that the records be provided to me on computer files or, if not maintained on computer files, in the same format as they are currently maintained at the EPA. FOIA requires that your agency respond to my request for expedited treatment within 10 business days. In the event your agency denies my request for expedited treatment, whether through your agency's affirmative denial of the request for expedited treatment or through your agency's failure to respond to the request for expedited treatment, then FOIA requires that your agency nonetheless respond to the underlying request for information within 20 business days of receipt of this letter. This request is segregable, and your agency may not withhold entire records because of one section that you believe is exempt from disclosure. Under federal law, if you choose to withhold any such parts of the records from disclosure, you must specify in a written response the factual and legal basis for withholding any part of the Records. Please contact me if I may assist in your office's response to this request. As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone or email, rather than by mail, if you have questions regarding this request. This information is being sought on behalf of Politico for dissemination to the general public. Please waive any applicable fees. Release of the information is in the public interest because it will contribute significantly to public understanding of government operations and activities. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees. As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone, rather than by mail, if you have questions regarding this request. I look forward to your reply within 20 business days, as the statute requires. Thank you for your assistance. Sincerely, Ben Lefebvre

EPA-R8-2017-004853	Jeremy Nichols	WildEarth Guardians	3/13/2017 13:03	Almost a year ago, a report assessing the cancer risk of the active ingredient, glyphosate, in Monsanto's Roundup herbicide appeared on EPA's website. EPA quickly retracted the report, only to post it again a few months later. Not long after, EPA's retraction of the report, the chair of the committee that authored the report left EPA. This FOIA request seeks records related to that cancer risk assessment report, including any and all communications between EPA and Monsanto and any internal EPA communications concerning the chemical glyphosate. When a pesticide is proposed for registration or re-registration, EPA's Office of Pesticide Programs reviews studies to evaluate the pesticide's potential for causing cancer. The Cancer Assessment Review Committee (CARC) then reviews these results and recommends a cancer classification. This FOIA request includes all documents and communication regarding the CARC of glyphosate. In September 2016, EPA posted the 2015 CARC Final Report to its Glyphosate Registration Review Docket. This FOIA request includes all documents and communication regarding the 2015 CARC Final Report of glyphosate. This FOIA request further includes any and all communication, information, and documentation concerning glyphosate including, but not limited to records referring or relating to the CARC report on glyphosate, records from January 1, 2015, through the date of the request between Monsanto officials and EPA that discuss or relate to glyphosate. I request this information to be assimilated and distributed electronically via electronic mail in order to limit cost and stimulate efficiency.	Evaluation of Records

As the media has widely reported, discussions between Carl Leahn and outside private parties in the oil and renewable fuels industry occurred in late Feb/early March regarding the White House's consideration of moving the Point of Obligation from refiners/importers to some point further down the fuel distribution chain. In addition to any point of obligation package or memo, I would also request any other documents that were sent that pertained to other changes that might be considered as part of a package to move point of obligation: this list may include things like the E15 Reid Vapor Pressure waiver, or review of MOVES and other models, but my request list is not limited to these. I believe this package was likely sent from the White House to the EPA the week of Feb 27-March 5, but those dates are not exact. This package may include documents from other White House officials to Administrator Pruitt including Gary Cohn. Thank you.	Assignment Determination

I hereby request electronic copies of the following documents, which are filed with, retained by, or prepared by the U.S. Environmental Protection Agency (EPA): Emission test results for light vehicles with diesel engines by manufacturer Daimler/Mercedes Benz from 2015 to the present. This especially includes testing for nitrogen oxides NOx and carbon dioxide CO2 emissions. It may also include tests under the supervision of the California Air Resources Board (CARB). I request results from (a) emission testing of in-use cars and (b) emission testing for EPA certification of new car models for the model years 2016 and 2017. In addition, I request any documents of communication between the EPA (or CARB) and manufacturer Daimler/Mercedes Benz about the above specified emission test results. This may include, but not be limited to letters, e-mails, minutes. Please alert me immediately via e-mail to any records that are excluded by law under this request.</p> <p>To whom it may concern, I am a Lecturer at the University of Melbourne. For an academic project, I would like to access the HRS documentation for each hazardous waste site that has received an HRS score within the Superfund program. I have verified that these reports are not available online (EPA website or regulation.gov website). The Federal Register table of the CERCLIS database contains HRS scores only for sites that are/were on the NPL list (mostly sites with an HRS score larger than 28.5). I thus need HRS scores (overall scores and by pathways) for sites that have not been included in the NPL list. Period: 1982 to 2016; EPA regions: All 10 regions; Format: pdf file per site ; if a database (excel format) already exists that includes HRS scores for all sites that have received an HRS score (and not only the NPL subsample), such database would be preferable. EPA-HQ-2017-003625	Abraham Lustgarten	ProPublica	2/6/2017 19:02	The following is a re-filing of a FOIA request previously submitted to EPA Region 4, but which seems to be more appropriately handled by EPA HQ. The original FOIA # is EPA-R5-2017-003467 I am requesting copies of all releasable files relating to the permitting of, conduct of, or investigations into, the company U.S. Technology, based in Canton OH, and its handling of hazardous materials, between the years 2000 and 2017. It is my understanding that U.S. Technology is the subject of investigations or enforcement actions in both EPA Region 4, and in EPA Region 6, and perhaps elsewhere. It is information regarding the company's conduct and operations in these specific regions which I am requesting information about. In addition I request copies of all correspondence, including emails and letters received from or addressed to parties outside of the U.S. EPA concerning U.S. Technology, as well as any releasable intra-agency correspondence. I understand that my original request was forwarded to EPA Region 5 because the company in question is based there, But to reiterate, this request specifically concerns actions in R4 and R6. Also, I was advised previously that Region staff did not know or have enough information to know where to begin their search. To clarify my request, because this concerns a hazardous waste handling issue and an enforcement issue, I would suggest beginning with the RCRA enforcement offices and the criminal investigations divisions of these regional offices. However I do not know that responsive records would be limited to those offices, and therefore would like the request considered more broadly.	Research Records

EPA-HQ-2017-001866	Paul M. Whattling	FMC Corporation	12/7/2016 18:12	This is a request or files cited by EPA in its draft human health risk assessment for malathion, or for study data evaluation records that have we have submitted to EPA in support of the registration of malathion in the United States. The first attached file requests the Agency's data evaluation records for studies submitted to support the registration of malathion. The second attached file requests copies of documents that EPA has cited in its draft human health risk assessment, which has a comment period that ends on December 21, 2016. These documents are needed in order for the registrant and the public to fully understand the ecological, endangered species and human health risk assessments that the agency has posted for public comment. Since the Agency has established regulatory deadlines for commenting on these risk assessments, time is of the essence for the EPA to comply with our request to provide the requested documents. Based on this, we request a fee waiver. And, we request expedited processing because of the urgency to inform stakeholders and the public about the reasons for the conclusions of the EPA's draft human health risk assessment. This is especially important given that malathion is an important tool used to control mosquitoes that spread diseases like the Zika virus.	Evaluation of Records

EPA-R2-2017-001367	Joshua R. Rosenthal	Quinn Emanuel Urquhart & Sullivan, LLP	11/17/2016 14:11	Pursuant to the Freedom of Information Act, I am requesting access to historical pesticide registration information currently maintained by the U.S. Environmental Protection Agency (EPA). As means of background, the Federal Insecticide, Fungicide, and Rodenticide Act of 1947 (FIFRA) required companies to register pesticides with the U.S. Department of Agriculture (USDA). In 1972, the Federal Environmental Pesticide Control Act (FEPCA) transferred pesticide registration responsibilities from USDA to EPA. It is my understanding that copies of the historical pesticide registration records maintained by USDA were also transferred to EPA in 1972. I am specifically requesting information on where historical pesticide registration records are currently located, as well as access to these records. I am a private researcher, not connected to a government agency. As such, I understand that EPA may charge reasonable research fees associated with this request. I authorize up to \$500 in such fees; if the fees will exceed this amount, please contact me for additional authorization.	Final Preparation of Response

				<p>Dear FOIA Officer: Pursuant to the Freedom of Information Act, 5 U.S.C. 522, et seq., I am writing to request the disclosure of documents within the control of your agency. I hereby request copies of any narrative responses to the CERCLA Section 104(e) Request (or Supplemental Request) for information letters sent to potentially responsible parties in the Duwamish 104(e) request, received by EPA after March 7, 2013. On March 7, 2013, I received a disk from EPA with all narrative responses received up to that date. (index attached) We are now requesting any additional narratives received after that date. In the event that any requested documents are not disclosable in their entirety, we request that you release any material that can be reasonably segregated. Should documents within the scope of this request be withheld from disclosure, we request that you provide us with a "Vaughn index" that (1) identifies each and every document that is withheld, and (2) states with specificity the statutory exemption claimed for each document and an explanation of how disclosure of a particular document would damage the interest protected by a particular exemption. We are willing, of course, to pay all reasonable costs incurred in locating and duplicating these materials. If the volume of documents you identify pursuant to this request is considerable and copying would prove to be unduly burdensome and costly we would like to arrange to review the documents at your offices to identify and select specific records for duplication. If you have any questions regarding this request, please contact me at 206-359-3497. David Weeks</p>

EPA-HQ-2016-009485	Kevin Bogardus	E&E News	8/17/2016 17:08	I request copies of any and all emails concerning official EPA business that were sent to or from EPA Administrator Gina McCarthy's personal email account(s) from July 18, 2013 to the present day. Other senior administration officials, such as former Secretary of State Hillary Clinton and Defense Secretary Ash Carter, have been found to have used a personal email account for government business. Both of those instances not only ran counter to their departments' policies but could have led to the potential exposure of classified information. In response to worries over their use of personal email for government business ¬--and also litigation in former Secretary Clinton's case ¬-- both former Secretary Clinton and Secretary Carter released thousands of pages of their personal emails that were used for government business. Further, a recent court ruling found that agency officials should expect that work-related emails in their personal email accounts are subject to the Freedom of Information Act. In Competitive Enterprise Institute vs. Office of Science and Technology Policy, D.C. Circuit Senior Judge David Sentelle wrote in the U.S. Court of Appeals for the District of Columbia Circuit's opinion that "an agency cannot shield its records from search or disclosure under FOIA by the expedient of storing them in a private email account controlled by the agency head." Administrator McCarthy should follow the example of other administration officials as well as court precedent and release all of her personal emails that were used for EPA business. Moreover, Administrator McCarthy has been said to have used a personal email account for agency business, according to a May 27, 2016 letter from EPA Chief Information Officer Ann Dunkin to Sen. Ron Johnson (http://www.eenews.net/assets/2016/08/17/document_gw_08.pdf).	Assignment Determination

All communications from January 2010 to the present between EPA and TVA relating to the Peninsula Landfill and/or any specific cell or phase of the Peninsula Landfill, including Phase 1A, Phase 1B or Phase 2. 3. All documents discussing the meaning or interpretation of the following terms used in EPA's rule governing the Disposal of Coal Combustion Residuals from Electric Utilities ("CCR Rule"): new landfill, existing landfill, and lateral expansion. 4. All documents discussing whether the Peninsula Landfill and/or any specific cell or phase of the Peninsula Landfill, including Phase 1A, Phase 1B or Phase 2 is understood by EPA, TDEC and/or TVA to be a "new" or "existing" landfill under the CCR Rule and/or whether any phase of the Kingston Landfill is understood to be a lateral expansion of an existing landfill. Due to the massive coal ash spill at the Tennessee Valley Authority - Kingston Fossil Plant ("Kingston Plant") on December 22, 2008, we recognize that EPA likely possesses a substantial number of records generally relating to the Kingston Plant and coal ash. To be clear, we are not seeking records related to that spill and its subsequent clean-up. Rather, we are only requesting records related to the Peninsula Landfill and any specific cell or phase of the Peninsula Landfill, including Phase 1A, Phase 1B or Phase 2, which obtained a state solid waste permit in 2007 and a major modification in 2015. EPA-HQ-2016-000223	Sheryl K. Reilly	SciReg, Inc.	10/8/2015 19:10	<p>I am requesting a copy of a letter sent to all registrants of pesticide products containing 100% Diatomaceous earth: as the active ingredient, and a list of all of the companies to whom the letter was sent, and the dates the letters were sent. It is my understanding the letters were sent this past summer. The letters would have most likely been signed by Richard Gebben or Linda Deluise in the Office of Pesticide Programs' Registration Division, and the purpose of the letter was to notify the registrant that their products' ingredient statements needed to be amended regarding the ingredient statement. If all of the letters were identical, only one copy of the letter would be necessary, with a list of all the registrants/dates sent. Thank you</p> <p>Assignment Determination</p>

Part 2, subpart A, I am writing on behalf of my client, Christina D. Storz, to request all correspondence, data and documents related to EPA's September 18, 2015 Clean Air Act Notice of Violation ("2015 NOV") issued to Volkswagen AG, Audi AG, and Volkswagen Group of America (collectively referred to herein as "VW") alleging violations of the Clean Air Act ("CAA"), 42 U.S.C. &sect; 7401-7671q (and related implementing regulations) and &sect; 7522(a)(1) stemming from the alleged installation of "defeat devices" in VW automobiles. Because the specified categories of requested documents is extensive, the entire FOIA request is included in the attached document. The scope of this FOIA request is broad and should be interpreted to cover all of EPA offices nationally, including, without limitation, EPA Headquarters, EPA's Office of Transportation and Air Quality ("EOTAQ"), any EPA Regional office, and EPA's National Vehicle and Fuel Emissions Laboratory ("NVFEL"). It also is intended to request any responsive documents that are otherwise in the possession or control of any EPA officials, employees, consultants, or agents. This request is time sensitive. For that reason, please produce responsive, non-privileged documents as soon as they are available rather than waiting until all the responsive documents have been collected. I have included a copying charge limit of \$3,000 but that is not a firm cap. I would request, however, that EPA contact me if copying charges are expected to exceed that amount before those charges are incurred. EPA-HQ-2015-007537	Michael Bastasch	Daily Caller News Foundation	5/29/2015 16:05	I am requesting records of communications sent via email to and from agency employees in the EPA's Office of the Administrator and Office of Air and Radiation using the terms "Clean Power Plan," "carbon pollution," "111(d)," "Sierra Club," "Natural Resources Defense Council," "NRDC," and "comment period." EPA-HQ-2015-007111	Jake Sherman	POLITICO	5/14/2015 13:05	Requesting copies of any and all communication from U.S. Rep. Bill Shuster of PA and his aides. A copy of this description is also included in an attached formal letter: The purpose of this letter is to make a formal request pursuant to the federal Freedom of Information Act for documents, both hard copies and electronic in form (including emails) pertaining to the decision of the U.S. Environmental Protection Agency in 2003 that greenhouse gases were not pollutants within the meaning of the federal Clean Air Act. More specifically, I am interested in documents relevant to the Agency's decision making between January 1, 2001, and August 28, 2003, when EPA formally denied a petition seeking regulation of greenhouse gas emissions from new motor vehicles under the Clean Air Act, extending to the Agency's defense of that decision before the U.S. Court of Appeals for the D.C. Circuit and the U.S. Supreme Court. I am seeking access to these documents in support of my research on the history of a Supreme Court case, Massachusetts v. EPA, decided by the Court in April 2007. For this same reason, I would like to request a fee waiver for the associated costs. The exclusive purpose of my research is in support of an academic publication, most likely a book for a general audience, that I believe will be of significant interest and value to the public. The Massachusetts case is one of the most significant environmental law decisions handed down by the U.S. Supreme Court. And my aim is to tell the story of that case in a manner that highlights for the public the challenges of both environmental lawmaking and Supreme Court advocacy. I have published significant scholarship on similar topics. See http://www.law.harvard.edu/faculty/tazarus/index.html . Please also know that I would be pleased to speak with anyone in your office or any relevant office at EPA about possible ways to make the processing of my request easier and more convenient for those involved. I can certainly travel to DC to review documents in person if that would be helpful and expedite matters.	Assignment Determination

				I am looking for the most up to date cost estimate for the cleanup of the Lower Duwamish Waterway Terminal 117 site. The only cost estimate I can find for the site is based on the EE/CA which was submitted to EPA in 2010. However, I understand that additional cleanup has occurred as a result of the pre-design sampling, and that more cleanup may be anticipated based on findings from recent construction activities.
