EPA-R6-2018-002070	James O. Kendrick	NewFields	11/28/2017 20:11	We are looking for records regarding wastes (e.g., lead slag) left in place at the RSR Corporation Superfund Site in Dallas, TX. In particular, we would like to review records related to the landfills within OU-3, Site 4, and any remaining impacts to soils and groundwater within or surrounding the landfills. We want to find out if there are any engineering controls (i.e., landfill caps) or institutional controls within the boundaries of a particular parcel of land that is located within the boundaries of OU-3, Site 4.
EPA-R9-2018-002067	Mary Staples		11/28/2017 19:11	We also want to find out what contaminant concentrations remain in place on the parcel in question. Therefore, documents that may be of particular interest would be any C/s/deed notices; Landfill Cap O&M Plans; Final Groundwater Monitoring or Investigation Reports, and the Remedial Investigation for OU-3, Site 4. If possible, electronic documents would be preferred over a review of hard copy files, but if necessary, we can do a file review in Dallas. Please feel free to contact me for further clarification of this request. Thank you.

EPA-HQ-2018-001923	Joanna McCall	COGENCY GLOBAL INC.	11/22/2017 21:11	Dear Sir or Madam: Pursuant to the Freedom of Information Act (FOIA), as amended, 5 U.S.C. &sect;552, et seq., and the United States Environmental Protection Agency's (EPA) rules issued thereunder, 40 C.F.R. Part 2, COGENCY GLOBAL INC. (Cogency Global) hereby requests from the EPA any and all correspondence, e-mails, memoranda, or any other forms of communication in response to or related to the delegation of authority under Section 5 of the Toxic Substances Control Act (TSCA), including but not limited to internal correspondence among the Office of Pollution Prevention and Toxics (OPPT), the Office of Chemical Safety and Pollution Prevention (OCSPP), and the Office of the Administrator (AO). To simplify the request, COGENCY GLOBAL INC. only requests documents and records dated on or after March 1, 2016. Documents responsive to this request likely will be maintained by OPPT, OCSPP, and AO. These offices are identified solely to assist EPA in responding to this request and the identification of these offices is not intended to limit the scope of this request in any way. Documents responsive to this request may be maintained by other EPA offices and divisions and any such documents expressly are included within the scope of this request. We understand that some of the documents responsive to this request may have to undergo confidential business information (CBI) review. We request that any responsive documents that do not have to undergo CBI review be provided to us as soon as possible. If for any reason you determine that portions of the requested information are exempt from disclosure under FOIA, please delete the allegedly exempt material, inform us of the basis for the claimed exemption, and furnish us with copies of those portions of the The Center requests from the U.S. Environmental Protection Agency ("EPA") Headquarters from March 31, 2016 to the date of this search: All records mentioning, including, referencing, and/or generated in connection with EPA's decision to change the field buffer from 110 ft / 220ft in all directions to 110 ft / 220 ft in just the downwind direction for the new uses of dicamba (brand names Xtendimax, Engenia and Flexapan) on dicamba tolerant soybean and cotton, including but not limited to records of communication between EPA and Monsanto Company, EPA and U.S. Department of Agriculture ("USDA"), and within the EPA.

				<p>I would like to request data from the national priorities list identifying all listed federal facilities, as well as all listed facilities which may be privately owned but which were used to manufacture or develop materials for the military. Data should at a minimum include the names and locations of the sites, the dates that each of these facilities were listed, the facilities IDs where available, the landowner ID, the operator or former operator ID. A reference to the existence of this material is made in the 2009 annual report to the President of the National Cancer panel, which states that 900 listed sites are former Defense or military-related facilities. 			Dear Sir or Madam, Good day for you. This is Ivy from REACH24H Consulting Group China. Recently we plan to apply for a pesticide registration to EPA. Our product is identical to ZENITH GREEN 388 (EPA registration number 92520-1), which contains 9.3% Ochlilnone. Could you please help us to have a check what is the PRIA action code for that registration? Thank you very much and looking forward for your reply. Kind regards, Ivy
			The Center requests from the U.S. Environmental Protection Agency ("EPA") Headquarters: records from January 20, 2017 to the date that the agency commences its search for records responsive to this request that include, mention, and/or reference directives and/or policies that concern EPA responding to and/or processing requests and appeals pursuant to FOIA.
			Pursuant to the Freedom of Information Act, 5 U.S.C. &sect;552, I am requesting access to the records specified below: All communications and documents (paper or electronic) from 2008 to the present, reflecting or concerning the government's belief that "[The Scotts Miracle Gro Company's ("Scotts")] pesticide-treated bird food caused actual harm to birds and presented a significant risk of harm" as stated in In re Morning Song Bird Food Litig., 831 F.3d 765, 779 (2016), reh'g en banc den'd, 2017 U.S. App. LEXIS 2867 (6th Cir. 			We are seeking all investigation, remediation, enforcement, and related correspondence files for the Johnny M Mine Site located in McKinley County, NM (Part of the Grants Mining District). Requesting only publicly available information and am excluding confidential business information. We can limit the enforcement request to those documents associated with the investigation and remediation of the site. In other words, we are interested in ensuring our request incorporates communication related to investigation/remediation efforts and requirements and any Agreed Orders or AOCs or similar. However, we are not seeking air enforcement documents nor water enforcement as it pertains to NPDES or similar standard permitting requirements. I goal at present is to identify the records associated with investigation/remediation. Please provide responsive materials if in Cibola County NM as well.

EPA-HQ-2018-001558	Rodney Huertter	Veolia North America	11/9/2017 23:11	40 CFR 270.72(a)(4) governs changes in the ownership or operational control of a facility that qualified for interim status (I/S) under section 270.70. That regulation appears to state that when such a change is requested, the current owner or operator (O/O) must continue to maintain the RCRA financial assurance (FA) for closure and post-closure, until the EPA (or authorized State) issues written notice that the proposed new O/O has demonstrated compliance with subpart H requirements, and the now-former O/O "no longer needs to comply with subpart H as of the date of demonstration [by the proposed new owner or operator]." In its May 1992 guidance manual for RCRA financial assurance (SW-955, copy attached with this request), the EPA states "an owner or operator may be released from the federal RCRA requirements if . . . (2) ownership or operation of the facility has been transferred, BUT ONLY in accordance with the specific conditions of such transfers." (Page II-16) (emphasis added). Attachment II-2 to that manual states that it is EPA's (or, impliedly, authorized State's) responsibility to: "Approve requests to terminate financial assurance: (a) When alternate assurance is substituted; or (b) When the owner or operator is released from financial assurance requirements." (Page II-22). REQUEST: I request copies of EPA policy and guidance documents that indicate that a current O/O of an I/S facility may be released from FA requirements other than via written notice of approval of such termination from the EPA (or authorized State), if such documents exist. Please confirm if no such documents exist. NOTE: EPA's response to FOIA No. EPA-HQ-2017-003409 (attached) confirms that attempted changes of operational control that do not comply with the 90-day advanced notice requirements of section 270.72(a)(4) result in non-transfer (i.e., the Part A will not be transferred but will remain with the prior owner or operator of the facility).

I hereby request the following records: 1. Any and all resumes received for all political appointees in Environmental Protection Agency, Region 2 who were appointed to positions between January 20, 2017 and the present, and through the date of your final response to this request. 2. The names, job titles and annual salary for all political appointees in E.P.A. Region 2 appointed to positions between January 20, 2017 and the present, and through the date of your final response to this request. I am making this request as a journalist working on a project for WNYC and the CUNY Graduate School of Journalism. I believe this request is entitled to a fee waiver because it is for a news media organization, and because this request for records concerns activities or operations of the government. Disclosure of the requested records will likely increase public understanding of government operations since WNYC has the ability and the intention to effectively convey information contained within the requested records to a broad public audience. The requested documents will be made available to the general public, and this request is not being made for commercial purposes. In the event that there are fees, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not. Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires. A PDF version of this letter is attached below. EPA-HQ-2018-001514	Rodney Hueter	Veolia North America	11/8/2017 21:11	40 CFR 265.118(a) addresses requirements for RCRA post-closure plans, which include an 'approved post-closure plan during the post-closure period,' for facilities that meet the applicability criteria of section 265.110(b). Section 265.118(d) addresses reqmts for amendments to approved post-closure plans ('PCP'). (Excerpted pages from 40 CFR Part 265 are attached). REQUEST: I request copies of EPA policy and guidance documents: 1) that specifically address the reqmts for an existing owner or operator of a facility regulated under 40 CFR Part 265 to transfer their approved PCP to another entity after final closure has been certified and the post-closure period has been initiated, if such transfer may actually occur, and 2) that confirm that an owner or operator issued an approved PCP under part 265 with respect to a facility for which the post-closure period has been initiated may not transfer the approved plan to another entity, if that is the case. If the requested policy and guidance documents do not exist, I request confirmation of that fact. NOTE: RCRA Online No. 13077, attached, appears to require a new owner to obtain an approved closure plan, but that guidance relates to a time period BEFORE certification of final closure has occurred. Based on a) the highlighted definitions in the attached section 260.10 (active life, final closure, in operation, and inactive) b) the confirmation of 'active management' and 'land disposal' in RO 11826, c) the confirmation of reqmts to operate under interim status in RO 13035, and d) the confirmation in EPA's response to FOIA No. EPA-HQ-2017-002077 (i.e., a RCRA permit application is considered withdrawn in connection with approval of closure plan and occurrence of the other specified actions in the document), it does not appear that change of operational control of a facility may actually occur after final certification of closure (because such a facility is no longer 'in operation').

EPA-R4-2018-001454	Christina I. Reichert	Southern Environmental Law Center	11/7/2017 23:11	1. The April 1976 Environmental Protection Agency ("EPA") thermal variance determination referred to on page R-33 of the Tennessee Department of Environmental Conservation's ("TDEC") draft National Pollutant Discharge Elimination System ("NPDES") renewal permit for the Tennessee Valley Authority's ("TVA") Kingston Fossil Plant ("KIF") (Attachment A): "In previous NPDES permits, TVA has provided information to support its request that a daily maximum condenser cooling water discharge temperature limitation of 36.1&deg;C (97&deg;F) be allowed under Section 316(a) of the Act. Since EPA issued it in 1976, NPDES permits have allowed alternative limitations on the thermal component of the facilities' condenser cooling water discharge . . ."; 2. The following 1973-1975 biological studies referred to on page 1 of TVA's Biological Monitoring of the Clinch River Near Kingston Fossil Plant Discharge, Autumn 2015 submitted as part of its NPDES renewal application for KIF (Attachment B): "Prior to 2001, the Tennessee Valley Authority's (TVA) Kingston Fossil Plant (KIF) was operating under an [alternative thermal limitation] that had been continued with each permit renewal based on studies conducted in the mid-1970s."

EPA-R4-2018-001231	Amy Tennant	AECOM	11/1/2017 15:11	I'm working on a Phase I ESA for a farm in Clarksdale, MS. The Red Panther Chemical site is listed in the EDR report as a NPL, SEMS and PRP site. The following is what I know about the site: "According to information provided in the EDR report, "The Red Panther Chemical Company is a former pesticide formulation facility located in Clarksdale, Coahoma County, MS. Due to past site related activities; pesticides were deposited in the soil on the facility property and the neighboring 18th Street neighborhood. A removal action was conducted in 2002, addressing the facility contamination, within the confines of the Red Panther Property. In September 2011, the Red Panther Chemical Company was listed to the NPL. The remedial response will focus on the residual contamination within the surface and subsurface soils not captured during the 2002 removal action, and any contamination deposited into the surrounding neighborhood." I'm wondering if you can provide me with any updated info on the site? Or maybe a plume map? Anything would be great. I'm trying to figure out if the plume extends onto the farm. Thanks is advance for any help
