 - l am seeking all FPA emails, memos, etc. that mention either my name (Anthony Lacey) or the FOIA request FPA-HQ-2017-002051, which seeks any agency documents from one month of the presidential transition. I want to know what communications have been made about this FOIA so I can see for myself what is behind the delays, so I therefore seek under FOIA any records that mention my name either in full or part, or mention the FOIA request by number or other reference, starting on Dec. 14, 2016, and continuing

This request is segregable, and your agency may not withhold entire records because of one section that you believe is exempt from disclosure. Under federal law, if you choose to withhold any such parts of the records from disclosure, you must specify in a written response the factual and legal basis for withholding any part of the Records. Please contact me if I may assist 4/10/2017 19:04 in your office's response to this request. As I am making this request as a journalist and this information is of timely value. 		Regarding the Western Processing Superfund Site at 7215 5 196th Street, Kent, WA, I am interested in obtaining information about the PRPs for the site. I am specifically interested in any information related to whether The Seattle Times Company was a PRP and, if so, the basis for their inclusion. I understand that approximately 325 PRPs were initially identified and sent notice letters in 1983, and that approximately 190 of them formed a group that contributed cleanup money through a trust fund. I also understand that a database was created by Techlaw/intera to track PRPs and their involvement with the site. I would like to

CFS requests this information in light of the President's "Memorandum for the Heads of Executive Departments and Agencies" dated January 21, 2009, which states:

The Freedom of Information Act should be administered with a clear presumption: In the face of doubt, openness prevails...in responding to requests under the FOIA, executive branch agencies (agencies) should act promptly and in a spirit of cooperation, recognizing that such agencies are servants of the public. All agencies should adopt a presumption in favor of disclosure, in order to renew their commitment to the principles embodied in FOIA, and to usher in a new era of open Government. The presumption of disclosure should be applied to all decisions involving FOIA. The presumption of disclosure also means that agencies should take affirmative steps to make information public.

I certify to be true and correct to the best of my knowledge and belief, that there is widespread and exceptional media interest and there exist possible questions about the government's integrity, which affect public confidence. As travel costs from various federal agencies come to light, there is growing public concern about the government's integrity as it spends taxpayered ollars. This subject has already led to the resignation of a cabinate secretary, which has further undermined public confidence in the ability of the government to wisely spend the taxpayers' money. As the use of military planes for travel follows different procedures 10/11/2017 17:10 and has different implications than the use of chartered planes, it is important that such travel be differentiated from other trips as quickly as possible.

Under the Freedom of Information Act (FOIA) (5 U.S.C. §552), we are writing to request a copy of records located within the Registration Division of the Office of Pesticide Programs (OPP) supporting the statement in EPA's Fact Sheet that the mode of action for the active ingredient Mono- and di-potassium salts of phosphorous acid (PC Code 76416) "appear to increase the effectiveness of the plants' defense mechanisms." If EPA can state this in their Fact Sheet for PC Code 76416, we anticipate that EPA came to this conclusion based on a review of scientific data. We wish to obtain a copy of EPA's scientific review which summarizes the type of data EPA reviewed to arrive at this conclusion. A copy of EPA's Fact Sheet is attached for your reference and is also available at: http://www.epa.gov/pesticides/chem_search/reg_actions/registration/fs G-133_04-April-00.pdf. Wacker Drive Suite 1200 Chicago, IL 60606 Dear Freedom of Information Office: I am an agriculture reporter at Thomson Reuters/Reuters News and I am reporting on a series of stories focused on the U.S. agrochemical and seed industry. The purpose of this letter is to request copies of documents and records pursuant to the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552, and applicable U.S. Environmental Protection Agency (EPA) regulations, 40 C.F.R. § § 2.100-2.406. The types of records I seek include, but are not limited to: 1. All records pertaining to the synergistic effects, or potential synergistic effects, between the active ingredients glyphosate and 2,4-D in the herbicide Enlist Duo. 2. All communications (including records communicated, and documentation of communications) between EPA and Dow Chemical Co or Dow AgroSciences Inc. (Dow) relating to the synergistic effects, or potential synergistic effects, between glyphosate and 2,4-D. 3. All communications between Dow and EPA, starting October 2014, pertaining to the EPA's registration of Enlist Duo. 4. All communication between Dow and EPA pertaining to the withdrawal of registration of Enlist Duo. 5. All communications between Dow and EPA, and internal EPA communications, relating to human health risks and environmental impacts posed by a synergistic effect between glyphosate and 2,4-D. Please mail all related information and documents to my attention at the Thomson Reuters address: 311 S. Wacker Drive,
