Re: Petition for Reconsideration by the State of Alaska of the final rule titled *Protection of Visibility: Amendments to Requirements for State Plans*, 82 FR 3078, published on January 10, 2017

Dear Mr. Tostevin:

The U.S. Environmental Protection Agency has reviewed the petitions for reconsideration of the final rule titled *Protection of Visibility: Amendments to Requirements for State Plans* published at 82 FR 3078 (January 10, 2017), including the petition submitted by the State of Alaska. The EPA is not at this time acting on the petitions for reconsideration. We have, however, considered the issues therein and decided to revisit aspects of the 2017 Regional Haze Rule under our inherent rulemaking authority.<sup>1</sup> We intend to commence a notice-and-comment rulemaking in which we will address portions of the rule, including but not limited to the Reasonably Attributable Visibility Impairment provisions, the provisions regarding Federal Land Manager consultation and any other elements of the rule we may identify for additional consideration. Furthermore, we plan to finalize one or more EPA guidance documents for regional haze State Implementation Plan revisions due in 2021. Such guidance may also address some or all of the issues raised in the petitions for reconsideration.

We intend to prepare a notice of proposed rulemaking that will provide the State of Alaska and the public an opportunity to comment on the issues identified above, as well as any other aspects of the rule we believe will benefit from further public input. We appreciate your input and
