Dear FOIA Officer: Pursuant to the Freedom of Information Act, 5 U.S.C. Section 552 et seq ("FOIA"), I request copies of (or access to) documents (hereafter known as the Records), specifically: (1) Any agency records identify members of the Senior Executive Service within the Department who were reassigned to different jobs or different geographic locations during the period from Jan. 20, 2017, to the present. The records should include all reassignments where members of the Senior Executive Service within the Department moved to different positions or different geographic locations within the Department or outside of the Department. The records should also include all reassignments where members of the Senior Executive Service outside of the Department moved to different positions or different geographic locations within the Department (ie. the Records should include individuals who moved to, from and within the Department.) I am a reporter for The New York Times, an accredited and recognized newsgathering organization. I request the Records to inform the public about matters of public concern. FOIA requires that your agency respond to this request within 20 business days. This request is segregable, and your agency may not withhold entire records because of one section that you believe is exempt from disclosure. Under federal law, if you choose to withhold any such parts of the records from disclosure, you must specify in a written response the factual and legal basis for withholding any part of the Records. I am further requesting that the Records be provided to me on computer files in the same format as they are currently maintained at the agency, pursuant to *Burka v. Dept. of Health & Human Svcs.*, 87 F.3d 508 (D.C. Cir. 1996). As you know, providing documents electronically is cheaper than mailing hard copies.

On February 24, 2017, President Trump signed Executive Order 13777, "Enforcing the Regulatory Reform Agenda," which established a federal policy "to alleviate unnecessary regulatory burdens" on the American people. Section 3(a) of the EO directs federal agencies to establish a Regulatory Reform Task Force. Section 3(g) directs federal agencies to, within 90 days of the date of the order, and on a schedule determined by the agency head thereafter, have each Regulatory Reform Task Force provide a report to the agency head detailing the agency's progress.

EPA-HQ-2018-002866	Kevin Bogardus	E&E News	12/22/2017 17:12	<p>I request copies of any and all emails concerning official EPA business that were sent to or from EPA Administrator Scott Pruitt's personal email account(s) from Feb. 17, 2017 to the date that this FOIA request is processed. Other past senior administration officials, such as former Secretary of State Hillary Clinton, former Defense Secretary Ash Carter and former EPA Administrator Gina McCarthy, have been found to have used a personal email account for government business. In the cases of former Secretary Clinton and former Secretary Carter, some of those instances not only ran counter to their departments' policies but could have led to the potential exposure of classified information. In response to worries over their use of personal email for government business &not;– and also litigation in former Secretary Clinton's case &not;– both former Secretary Clinton and former Secretary Carter released thousands of pages of their personal emails that were used for government business. EPA has also released former Administrator McCarthy's personal emails that were used for government business. Further, a recent court ruling found that agency officials should expect that work-related emails in their personal email accounts to be subject to the Freedom of Information Act. In Competitive Enterprise Institute vs. Office of Science and Technology Policy, D.C. Circuit Senior Judge David Sentelle wrote in the U.S. Court of Appeals for the District of Columbia Circuit's opinion that &quot;an agency cannot shield its records from search or disclosure under FOIA by the expedient of storing them in a private email account controlled by the agency head.&quot; Administrator Pruitt should follow the example of other past administration officials as well as court precedent and release all of his personal emails that were used for EPA business.</p>

The following is a re-filing of a FOIA request previously submitted to EPA Region 4, but which seems to be more appropriately handled by EPA HQ: The original FOIA # is EPA-R5-2017-003467 I am requesting copies of all releasable files relating to the permitting of, conduct of, or investigations into, the company U.S. Technology, based in Canton OH, and its handling of hazardous materials, between the years 2000 and 2017. It is my understanding that U.S. Technology is the subject of investigations or enforcement actions in both EPA Region 4, and in EPA Region 6, and perhaps elsewhere. It is information regarding the company's conduct and operations in these specific regions which I am requesting information about. In addition I request copies of all correspondence, including emails and letters received from or addressed to parties outside of the U.S. EPA concerning U.S. Technology, as well as any releasable intra-agency correspondence. I understand that my original request was forwarded to EPA Region 5 because the company in question is based there, But to reiterate, this request specifically concerns actions in R4 and R6. Also, I was advised previously that Region staff did not know or have enough information to know where to begin their search. To clarify my request, because this concerns a hazardous waste handling issue and an enforcement issue, I would suggest beginning with the RCRA enforcement offices and the criminal investigations divisions of these regional offices. However I do not know that responsive records would be limited to those offices, and therefore would like the request considered more broadly.

This is a request or files cited by EPA in its draft human health risk assessment for malathion, or for study data evaluation records that have we have submitted to EPA in support of the registration of malathion in the United States. The first attached file requests the Agency's data evaluation records for studies submitted to support the registration of malathion. The second attached file requests copies of documents that EPA has cited in its draft human health risk assessment, which has a comment period that ends on December 21, 2016. These documents are needed in order for the registrant and the public to fully understand the ecological, endangered species and human health risk assessments that the agency has posted for public comment. Since the Agency has established regulatory deadlines for commenting on these risk assessments, time is of the essence for the EPA to comply with our request to provide the requested documents. Based on this, we request a fee waiver. And, we request expedited processing because of the urgency to inform stakeholders and the public about the reasons for the conclusions of the EPA's draft human health risk assessment. This is especially important given that malathion is an important tool used to control mosquitoes that spread diseases like the zika virus.

To Whom it May Concern: I would like to request any and all documents that were sent from the White House
 to the EPA regarding a change to the Renewable Fuel Standard Point of Obligation. As the media has widely
 reported, discussions between Carl Icahn and outside private parties in the oil and renewable fuels industry
 occurred in late Feb/early March regarding the White House's consideration of moving the Point of Obligation
 from refiners/importers to some point further down the fuel distribution chain. In addition to any point of
 obligation package or memo, I would also request any other documents that were sent that pertained to
 other changes that might be considered as part of a package to move point of obligation: this list may include
 things like the E15 Reid Vapor Pressure waiver, or review of MOVES and other models, but my request list is
 not limited to these. I believe this package was likely sent from the White House to the EPA the week of Feb
 27-March 5, but those dates are not exact. This package may include documents from other White House
 officials to Administrator Pruitt including Gary Cohn. Thank you.

Requesting all materials (including phone records, emails, and hand-written notes) related to communications between the office of former EPA Administrator Gina McCarthy (meaning both Gina McCarthy and her staff) and the office of New York Governor Andrew Cuomo concerning PFOA (also known as perfluorooctanoic acid or C8) contamination in New York state. Pursuant to the federal Freedom of Information Act, 5 USC-552, as a representative of the news media I am requesting access to the documents, sent via hard copy or email, described below: Correspondence between Environmental Protection Agency (EPA) Administrator Scott Pruitt and Representative Markwayne Mullin sent between & including the dates of February 17, 2017 and March 13, 2017. Correspondence between EPA Administrator Pruitt and Senator James Inhofe sent between & including the dates of 2-17-2017 and 3-13-2017. Correspondence between EPA Administrator Pruitt and Justin Savage or any other attorneys at Hogan Lovells US LLP (located at 555 Thirteenth Street, NW, Washington, DC 20004) sent between & including the dates of 2-17-2017 and 3-13-2017. Correspondence between EPA Administrator Pruitt and the RMP Coalition, consisting of the American Chemistry Council, The American Forest & Paper Association, the American Petrochemical & Fuels Manufacturers, the American Petroleum Institute, the Chamber of Commerce of the United States of America, the National Association of Manufacturers, and the Utility Air Regulatory Group – and/or between EPA Administrator Pruitt and any of these individual organizations – sent between & including the dates of 2-17-2017 and 3-13-2017. — These documents are of public interest as they will contribute to public understanding of the decision to reopen a previously concluded EPA rule-making process, thus delaying the effective date of a public safety regulation designed to prevent catastrophic industrial accidents and to protect communities and emergency first responders. The rule applies to approximately 12,500 facilities in the U.S. that, according to the EPA, have had on average one serious safety "incident" every other day for the past 10 years. Understanding the decision to delay implementing this safety, measure previously approved by the EPA is a matter of urgent public interest.

Please provide the following records in a digital format:

1. All records related to agency travel requests submitted to the White House for designation as “White House Support Missions” (or “White House Mission Designations”) from January 1, 2016 to the present. This request includes, but is not limited to:

- a. Records pertaining to the dates and itinerary of trips that were submitted.
- b. The formal request sent to the White House (usually to the Assistant to the President for Cabinet Affairs).
- c. Records related to the justification(s) for each request, such as the estimated cost of a requested flight and the estimated costs of alternatives.
- d. Records of response(s) to each request.
- e. Records indicating whether the trip was in fact taken, and the make/model of aircraft it was taken in. (As this may differ from the make/model of the aircraft requested.)

I certify to be true and correct to the best of my knowledge and belief, that there is widespread and exceptional media interest and there exist possible questions about the government’s integrity, which affect public confidence. As travel costs from various federal agencies come to light, there is growing public concern about the government’s integrity as it spends taxpayer dollars. This subject has already led to the resignation of a cabinet secretary, which has further undermined public confidence in the ability of the government to wisely spend the taxpayers’ money. As the use of military planes for travel follows different procedures and has different implications than the use of chartered planes, it is important that such travel be differentiated from other trips as quickly as possible.

This information is being sought on behalf of Politico for dissemination to the general public. Please waive any applicable fees. Release of the information is in the public interest because it will contribute significantly to public understanding of government operations and activities. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees. As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone, rather than by mail, if you have questions regarding this request. 			This is a request on behalf of Keeping Government Beholden ("KGB") under the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552, et seq., for all electronic, paper, and non-electronic records memorializing or documenting the creation, activity, and correspondence of the Regulatory Reform Task Force established by Administrator Pruitt on March 24, 2017 in response to Executive Order 13777. These records include, but are not limited to, correspondence, attachments, memorandum, legal opinions and any responsive records created or received by Administrator Pruitt, Samantha Dravis, Ryan Jackson, Byron Brown, and Brittany Bolen. Regarding email correspondence, the EPA indicated to NARA in its 2016 SAORM Annual Report that it had met its December 31, 2016 deadline to manage all email in an electronic format. If you determine any portion of the requested records are exempt from disclosure, KGB requests you provide an index of those documents per Vaugh v. Rosen. Furthermore, if some portion of those requested records are properly exempt from disclosure, we request you disclose any reasonably segregable non-exempt portions of the requested records. If you believe segregation is impossible, please detail what portion of the document is non-exempt and how it is dispersed through the document.

United States Environmental Protection Agency December 5, 2017 Office of the Secretary 1200 Pennsylvania Avenue, N.W. Washington, DC 20460 Submitted online Re: Public Records Request This is a request under the Freedom of Information Act for a copy of United States Environmental Protection Agency administrator Scott Pruitt's daily calendar from November 12, 2017 to the date of this request. I am also requesting copies of all travel reports, travel voucher, correspondence with the administrator's secondary account, records of travel authorizations, travel arrangements, per diems, reimbursements, sources of funds, miscellaneous expenses, travel responsibilities, modifications to tickets issued through the department's travel management center, and any other record of Pruitt's travel during the same period. I prefer to receive records in electronic format. Due to the time-sensitive nature of this request, I will hold the Environmental Protection Agency to a strict 20 business-day timeline for a response unless the agency notifies me in writing of extenuating circumstances that necessitate an extension by ten business-days. Please provide a written statement of the grounds, including specific provisions of FOIA, for denying, redacting, or withholding any records responsive to this request. Please alert me if you expect the cost of duplicating this request to exceed \$200. Thank you, Joshua

To the Environmental Protection Agency FOIA Office, I hope all is well. I'd like to make a request under the Freedom of Information Act. I am writing to seek documents showing communications with the U.S. EPA administrator Scott Pruitt regarding coal in the first week of his tenure at the position. EPA-HQ-2018-000896	Reese Dunklin	The Associated Press	10/23/2017 14:10	<p>Emails that Dr. Tina Bahadori sent to or received from the email address domains of @arkema.com and @americanchemistry.com from Aug. 1, 2017, to Oct. 23, 2017. While I have previously requested emails from certain EPA staff that involve Arkema Inc., this request is distinct and different from those. Should you be releasing the emails requested in this request as part of my prior ones, please let me know and we can discuss whether I modify or withdraw this one. Should you release some or all of these emails as part of another request submitted by another requestor, I ask that you notify me and provide the same documents to me, rather than making me wait out the 20-day timeframe or until my place in the FOIA queue is up. I ask for copies in electronic format sent to me at rdunklin@ap.org. I will take responsive records on a rolling basis. I do not seek confidential business information, or personally identifying information like SSN or DOB.</p>

The correspondence should include anything whether sent or received via email, fax or postal mail. I am requesting publicly available information, not confidential business information. I'd like to get responsive records emailed to me as PDFs or, if another request is already being processed and records are being produced in another format, I will accept records in that format in order to expedite release of records to the AP and lessen the workload on your staff. On behalf of the Associated Press, I request copies of all documents EPA's Region 6 office maintains involving Arkema Inc.'s plant at 18000 Crosby Eastgate Road in Crosby, Texas (EPA facility identifier 100000124457), as it pertains to RCRA hazardous waste program or NPDES stormwater program. Responsive records should include but not be limited to any permit applications, contingency plans for accidents like flooding, reports and results of any inspections, any corrective or remedial actions or general correspondence with Arkema Inc. representatives. Date range of records requested is from 2010 to September 08, 2017. I request only publicly available information. I'd like to get responsive records emailed to me as PDFs at my email address. If records exceed 50 pages, I ask that they be made available to me on a rolling basis, meaning as they become available for release after any FOIA review process, rather than delaying release until the last document is ready.

I also request expedited processing, because this is a matter of public interest since the Crosby plant had chemical emissions, after flooding, catching fire and exploding in the last week, and it is important to understand what preparations for flooding that EPA may not have identified as necessary there. Because of the furtherance of public knowledge, and because I work for a news gathering organization, I also request a fee waiver. Thank

Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request: all Ethics recusal or counseling memos issued by the agency since Jan. 20, 2017. I would like to receive the information in the following format: electronic. This information is being sought on behalf of ProPublica, an independent non-profit news organization, for dissemination to the general public. Please waive any applicable fees. Release of the information is in the public interest because it will contribute significantly to public understanding of government operations and activities, specifically the determination of potential conflicts of interest of federal employees with decision-making authority over public policy, and the resolution of these conflicts by Designated Agency Ethics Officials. As a non-profit journalistic entity, ProPublica does not have the same commercial interests of other news organizations. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the Act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees. Please include all records that document Beck's schedule, including but not limited to agenda sheets, appointments, day calendars, itineraries, Google calendars, Outlook calendars, programs and timetables. If possible, I would prefer to receive the largest number of records or documents in electronic form. FOIA requires that if part of a record is exempt from disclosure, you must redact and release all segregated parts. Please describe the deleted material in detail and specify the reasons for believing that the alleged statutory justification applies in this instance. If my request is denied in whole or in part, please specify which exemption(s) is (are) claimed for each passage or whole document denied. In addition, please give the number of pages in each document and the total number of pages pertaining to this request and the dates of the documents withheld. Such statements will be helpful in deciding whether to appeal an adverse determination. As required by FOIA, I look forward to hearing from your office within 20 days in response to this request. Thank you for your consideration.</p>

EPA-HQ-2017-009475	Jesse M. Seidman	Vice News	7/17/2017 18:07	<p>To whom it may concern: This is a request under the Freedom of Information Act. On behalf of Vice News and myself, jointly, I request that you provide us with: - Administrator Pruitt's full daily schedule for every day since 2/17/17 to 7/17/17. Format: we prefer to receive records in the following formats, listed in order of preference: (1) an electronic data format such as a text-searchable PDF or Word document, or similar; (2) an electronic scanned PDF; (3) other non-proprietary electronic format. Please respond within 20 working days, as the Act provides, or notify me if "unusual" or "exceptional" circumstances apply – as the Act uses those terms. If you decide to exempt portion of any record, please release all other segregable parts. If you withhold any record or portion of a record, please specify which statutory exemptions are claimed for each withholding. Please separately state your reasons for not invoking your discretion, as the Act allows, to release the requested information. Please describe each record withheld, including its date and size – e.g., amount of electronic memory or number of paper pages.</p> <p>The names associated with your registry IDs appear to be as of today. I would like a history of the names so that I know whom the facility belonged to in prior years, not just today. Annual snapshots of REGISTRY_ID and FAC_NAME, with the historical FAC_NAMES in each year, would do. Better yet, annual snapshots of your ECHO EXPORTER download database would be great. This is for an academic study and we would like to go back at least to 2007. Thank you.</p>

On September 14, 2017, a joint ProPublica-Texas Tribune publication noted that the U.S. Environmental Protection Agency (EPA) took air samples around a Valero Energy refinery, after Hurricane Harvey came through and residents complained of rotten stench. The EPA did not release any specifics to the public, but said "concentrations of several toxic chemicals, including the carcinogen benzene, met Texas health guidelines." Thus, pursuant to the Freedom of Information Act (5 U.S.C.§ 552), I hereby request all records related to EPA's benzene air sampling conducted in the atmosphere surrounding the Valero Energy refinery following Hurricane Harvey. There is only one Valero Refinery in Houston, and the address for it is: 9701 Manchester St, Houston, TX 77012. I also request a copy of the benzene air sample test results. The date range I am interested in is August 26, 2017 to the present. I would like these records in a searchable and analyzable electronic PDF format, if that is feasible.

EPA-HQ-2017-011616	Steven H. Lamm	CEOH, LLC.	9/19/2017 16:09	<p>FOIA Request (September 19, 2017) from CEOH, LLC (Steven H. Lamm, MD, DTPH) to EPA FOIA Office. Authors from the EPA and authors under contract to EPA published the article "Relationship between arsenic concentrations in drinking water and lung and bladder cancer incidence in the U.S. counties" by Mendez WM et al. in the Journal of Exposure Science and Environmental Epidemiology (2017 May;27(3):235-243). I request a copy of the data set that underlay the published analyses. Please include in the data set the FIPS numbers for each entry as that is not privileged confidential information and is essential for the purpose of confirming the validity of the data set. It is not clear that the published analyses are either correct and valid or that they are the only correct and valid interpretation of the underlying data. I request that the data be sent as a spreadsheet that I can analyze in excel and in STATA. I do not use SAS or SPSS. All the underlying information has been collected by federal governmental agencies and belong in the public domain. How EPA personnel and contractors have organized and used that information using federal funds also belongs in the public domain. This information does not fall within the nine exclusions, including the ninth exclusion on geological information on wells. I am requesting information on the water that comes from the wells and on either the geological nature of the well or the geographical coordinates of the well. The underlying data on the arsenic contents of the waters of the wells has already been publicly released by the USGS. I am requesting the EPA data from the aggregation of the USGS data. I request a fee waiver and expedited processing on the bases explained in the attached copy of my complete FOIA request.</p>

This was an internal report titled "Operation Bootstrap" distributed by the Hooker Chemicals Corporation regarding their Niagara Falls facility. The report was conducted in 1975 but then appears to be distributed in 1979. The EPA had a copy of this report which is what we are requesting. Operation Bootstrap, a 1975 company management study of the Niagara Plant documenting obsolete equipment, substandard environmental conditions and massive discharging of waters into sewers leading to the Niagara River. "The 1975 Report, called 'Operation Bootstrap', was prepared by internal engineers and doctors for the Hooker Chemicals and Plastics Corp., a subsidiary of Occidental Petroleum." https://www.newspapers.com/newspage/160831662/ The 1975 report, called "Operation Bootstrap," was prepared by internal engineers and doctors for the Hooker Chemicals and Plastics Corporation, subsidiary of Occidental Petroleum. It was obtained by The New York Times, television station WKBW in Buffalo and Michael Brown, an environmental writer, from a supervising engineer who was dismissed two years ago, allegedly for complaining about unsafe emissions from the plant. According to Michael J. Bayliss, the former supervising engineer for plant efficiency who released the report, it was Hooker company policy "not to tell workers the dangers of the chemicals they worked with." He said he had told Federal safety officials about the problems but had not yet given them a copy of the report. Uneathed is interested in obtaining the below information relating to the Volkswagen fix. I hereby request copies of all records containing the following information: Data on all Volkswagen vehicles tested on the road (PEMS data) for NOx emissions before and after the fix Information in regard to how the tests were done: for example, the engine temperature at the start of the test any details regarding the route, composition (urban, rural, motorway split) and the ambient conditions on the day of the test. Details about the vehicles themselves: engine size, model year, mileage, body type and emissions technology Any other documents such as keys or guides that are necessary to interpret the data appropriately I would like the data in xls format if possible. Disclosure of this information is demonstrably in the public interest – Volkswagen were caught rigging emissions tests and breaking the law. This fix has been promoted as one of the key solutions to the problem. The public has a right to know what impact it is having on emissions. It will also allow the global public to understand how the fix affects emissions in different countries. If you deny all or any part of this request, please cite each specific exemption that you believe justifies your withholding of information. Please be sure to notify me of appeal procedures available under the law in the event of any denial. If you deny my request for a fee waiver, please inform me before processing my request. I WOULD LIKE TO REQUEST THE FOLLOWING INFORMATION: WHO AUTHORIZED SMART WAY TO BE LOCATED ON THE EPA WEBSITE? WHAT WAS THE PROCESS TO HAVE SMART WAY ADDED TO THE EPA WEBSITE? WHAT IS THE PROCESS TO HAVE SMART WAY DELETED / REMOVED FROM THE EPA WEBSITE? HAS THE EPA CONDUCTED ANY TESTS RELATED TO THE SCIENTIFIC VALIDITY OF THE SMART WAY PROTOCOLS / METHODOLOGIES / PRACTICES / GHG REDUCTION CALCULATIONS DELINEATED BY SMART WAY ON THE EPA WEBSITE? SMART WAY CLAIMS THAT IF THE GROUND TRANSPORTATION INDUSTRY FOLLOWS SMART WAY'S PROTOCOLS / METHODOLOGIES / PRACTICES / GHG REDUCTION CALCULATIONS SUCH ADHERENCE WILL QUANTIFIABLY REDUCE THE PARTICIPANTS' CARBON FOOTPRINT / REDUCE THE PARTICIPANTS' HARMFUL GHG EMISSIONS. UNFORTUNATELY SMART WAY PROTOCOLS / METHODOLOGIES / PRACTICES / GHG REDUCTION CALCULATIONS WILL NOT / ARE NOT ABLE TO REDUCE HARMFUL GHG EMISSIONS IN ANY QUANTIFIABLE MANNER THAT IS ACCEPTED BY INTERNATIONAL AND OR DOMESTIC ACCREDITED & RECOGNIZED GHG REDUCTION VERIFICATION AGENCIES/ GOVERNMENTS / COP 21 PARIS CLIMATE CHANGE AGREEMENT/ MOREOVER THE EPA ITSELF. DID SMART WAY PROVIDE THE EPA ANY THIRD PARTY TESTING AND VERIFICATION THAT SMART WAY'S PROTOCOLS / METHODOLOGIES / PRACTICES / GHG REDUCTION CALCULATIONS ARE CORRECT AND VALID? I BELIEVE THE ANSWER IS NO! THE EPA'S CONTINUED SUPPORT OF SMART WAY IS LEADING THE TRANSPORTATION INDUSTRY TO SPEND TENS OF MILLIONS OF DOLLARS ANNUALLY FOLLOWING SMART WAY TO THE LETTER IMPLEMENTING PROTOCOLS / METHODOLOGIES / PRACTICES / GHG REDUCTION CALCULATIONS WHICH ACCOMPLISH ZERO. THE EPA APPEARS BY VITURE OF HOSTING SMART WAY IN THE EPA WEBSITE TO 100% SUPPORT LEADING THE TRANSPORTATION INDUSTRY DOWN THE WRONG PATH RESULTING IN ZERO QUANTIFIABLE REDUCTION IN HARMFUL GHG EMISSIONS. PLEASE PROVIDE ANY AND ALL RELEVANT DOCUMENTATION FROM THE EPA REGARDING SMART WAY/ THIRD PARTY TESTING OF SMART WAY PROTOCOLS / METHODOLOGIES / PRACTICES / GHG REDUCTION CALCULATIONS AND ANY AND ALL PAST ATTEMPTS TO DELETE IT FROM THE EPA

The information I am looking for is very large, but very specific. I am looking to get, without obtaining any PII, a list of every job within the EPA. By job, I mean position, as in someone goes to work every day and has a title. I want that title, and what that position title is supposed to do. Starting with Scott Pruitt, all the way down to each individual staffer. I want each job, its description and any jobs that fall directly below it. By description I ask for exactly what each position is tasked with doing, and what tasks fall to the jobs below them. I am doing a study to attempt to find a more efficient task delegation method for later implementation. By getting the hierarchy of the EPA, I can analyze how this structure works, its benefits, its flaws, everything. To restate, I am asking for a list of each and every individual job; What each job is supposed to be doing, in every branch of the EPA. Thank you.

The EPA Library suggested that I contact the Superfund division, who suggested that I contact your Region 3 division. According to a 1971 EPA report, "Municipal Incineration, a Review of Literature", the incinerator was constructed in 1954. Apparently use was discontinued in the 70's. The landfill and incinerator were investigated by EPA in 1986 and 1987 respectively and it was concluded that no further action was required. But I can't find the reports? Is there any documentation available? It is my hope that any notes or diagrams of the site would help us avoid problem areas or direct further testing if necessary.</p>

2/28/2018 19:02 1/20/17 to present and topic "climate change."

Reuters is seeking any correspondence, call records and meeting details between May 2017 and today related to Administrator Pruitt's plan to launch a public debate between scientists who are climate change skeptics and scientists who are believers that human beings cause climate change, also known as a "red team blue team" exercise. Mr. Pruitt said he intended to launch these debates for public consumption at the beginning at 2018 but so far there has been no update about the status of these debates. We are looking for information about who was invited to participate in such debates, any formal planning for launching -- or cancelling - these debates and any explanation about the process of recruiting both "red team" and "blue team" scientists to participate. We would also like information explaining whether these debates would inform future plans to re-examine the EPA's endangerment finding.

I am submitting this FOIA request for a comprehensive listing of EPA awards data for the past ten years. Specifically, I am seeking to find what grant funding was expended and what money was returned to the agency, either through "clawbacks" or simply as unused funds. These records would likely be with the Grants and Interagency Agreements Program. These records would have been created from 2006-2017 (approximate span for a decade of records). My full name is Elizabeth Gardner and my mailing address is 9 Phillips Place, Cambridge MA 02138. Please inform me of any associated fees. ****Re: SPACEPORT CAMDEN in CAMDEN CO., GA**** Under the Freedom of Information Act (FOIA), 5 U.S.C. § 552, as amended, the Southern Environmental Law Center (SELC) requests any and all documents in the possession or control of the U.S. Environmental Protection Agency (EPA) that relate to the Draft Environmental Impact Statement for Spaceport Camden in Camden County, Georgia, as prepared by the Federal Aviation Administration (FAA). We seek all documents in the file, including drafts and emails between EPA staff and FAA staff. FOIA directs a responding agency to make a “determination” on any request within twenty (20) working days of receipt. See 5 U.S.C. § 552(a)(6)(A)(i). FOIA also requires the release of all reasonably segregable portions of a document that are themselves not exempt. 5 U.S.C. § 552(b). Should our requests be denied, we request that you inform us of the grounds for denial and the specific administrative appeal rights which are available. See 5 U.S.C. § 552(a)(6)(A)(i). SELC is requesting photocopies or electronic copies without charge, or at a reduced charge, because reduction or waiver of fees would be in the public interest. A disclosure is in the public interest if (1) it is likely to contribute significantly to public understanding of the operations or activities of the government, and (2) it is not primarily in the commercial interest of the requester. The public interest standard of the fee waiver provision of the FOIA should be “liberally construed” in favor of waivers. *McClellan Ecological Seepage Situation v. Carlucci*, 835 F.2d 1282, 1284 (9th Cir. 1987); *Pederson v. Resolution Trust Corp.*, 847 F. Supp. 851, 855 (D. Colo. 1994); *Etlinger v. FBI*, 596 F. Supp. 867, 872 (D. Mass. 1984). The goal of the statute is to avoid the “roadblocks and technicalities which have been used by various Federal agencies to deny waivers....” *Pederson*, 847 F. Supp. at 855. Thank you for reviewing our request.

This FOIA request for EPA Region 9. Please send me all the information you have for this CERCLIS Archive listing: NVD981989908, Railroad Roundhouse. This site is located in downtown Las Vegas, NV. I believe the remains of the roundhouse which disappeared before 1965 are buried in an unremediated tar/waste pit that is located beneath the current Clark County Government Center building location: 500 Grand Central Parkway, Las Vegas, NV 89106. The waste pit was covered by 1971 and was not addressed in the NDEP oversight of the remediation and dismantling of the rail yard in the late 1980s and early 1990s. The Clark County Government Center was constructed in 1993 without a vapor barrier. There are hundreds of people who work in the government center building who have been chronically exposed and have a multitude of railroad diseases. I have additional photos and evidence that the half mile long 150 ft wide 10-15 ft deep waste trench where UPRR dumped their machine shop waste from 1904 to 1952 was lit on fire and the burned bunker fuel (and other chemical remains) were scooped up and also deposited in the pit that lies beneath the Clark County Government Center. This is an emergency situation that requires immediate attention.

EPA-R7-2018-005475	Chloe Winslow	University of Utah Chemical Engineering Department	3/14/2018 22:03	<p>My name is Chloe Winslow and I am a chemical engineering student at the University of Utah. In my Communication and Chemical Engineering Safety class we are required to write a case study report on one of the superfund sites that were given priority this year for our final project. The purpose of this class is to learn how to handle community outrage by mitigating the discrepancies between perceived hazards and actual risks, how to write documents (like reports, memos, emails, etc.) to convey technical information, and how to alert an apathetic community to real hazards. My group chose the Westlake Landfill as our research topic and our main focus for the report is to study how the recent Proposed Record of Decision Amendment released on February 6, 2018 affected the public opinion on the risks and hazards associated with this superfund site. Our case study presentation is on April 11th and the final report is due April 27th. The public comment period was originally scheduled to end on March 22, but has been extended to April 23. The Responsiveness Summary will not be published before our report is due. Is there any way we could have access to the public comments about the proposed remedial action before April 27th, and if at all possible, before April 11th so we can analyze the public opinion first hand to use in our case study? Having to rely solely on media reports of community outrage will add a lot of bias to our report, and since this is for academic purposes we need to minimize bias as much as possible. Having access the public comments will allow us to get the most accurate and current understanding of how the community feels about the perceived risks of the Westlake landfill, and how they think the proposed remedy will reduce these risks.</p> <p>Copies of all documents, correspondence, notices, in any format between Florence Copper Inc. and/or its consultants including but not limited to Haley & Aldrich on one hand and US EPA / Region 9 on the other hand from November 1, 2017 through the present relating to the Pilot Test Facility or mine in general in</p>

EPA-R10-2018-005668	Jeffery F. Runyan		3/21/2018 15:03	<p>Back ground; there was an illegal dump of chemicals that was reported sometime in November 1983 at Fort Lewis Washington now known as Joint Base Lewis McChord. The site in question is near or in Training area eleven on the east side of Ft. Lewis and is now known as the illicit PCB Dump Site. The report about an unknown chemical spill came in from a person on or about November 16th 1983 to the US Army at Fort Lewis. The EPA Region office 10 became involved in the emergency investigation and remediation process shortly after the chemical dump was reported. I am requesting that all information in reference to the illicit PCB dump site that involves or names any Military personnel and or any Military units that were known to have been in the area of the illicit PCB dumpsite, that were or may have been contacted as part of the Illicit PCB dump investigation process, or that were involved directly or indirectly by being in the area of the illicit PCB Dump Site either before the illicit PCB dump site incident was reported or after it was reported for the years 1982 through 1984. Additionally a currently unknown person or agencies personnel, as part of the investigation into the illicit PCB dump site, contacted military personnel sometime between 1983 and 1985. The military personnel were to wear diffuse type monitors as a result of having been directly in or near the PCB dump site prior to the area being fenced off or remediated. I would like the results from any monitoring devices that were used on military personnel if they are available and or what military units these military personnel were in at the time. I request this information if any be released to either my email address or mailing address.</p>
