Under the Freedom of Information Act (FOIA) (5 U.S.C. & Section 552), we request information in the files at the Office of Pesticide Programs (OPP) that support pesticide product registrations for pre-saturated towelette and wipe products. Specifically, we request EPA approved test methods, enforcement analytical methods, protocols, and data evaluation records that explain the method for expressing liquid out of the pre-saturated towelette or wipe to analyze the active ingredient content. The method for expression of the liquid out of the towelette should be part of the enforcement analytical method, but may be discussed in the other documents listed previously. We agree to pay reasonable search and reproduction costs for this information. Should the cost exceed \$250, please provide us an estimate of the cost and contact us for authorization.

Under the Freedom of Information Act (FOIA) (5 U.S.C. & 552), we are writing to request a copy of records located within the Registration Division of the Office of Pesticide Programs (OPP) supporting the statement in EPA's Fact Sheet that the mode of action for the active ingredient Mono- and di-potassium salts of phosphorous acid (PC Code 76416) "appear to increase the effectiveness of the plants' defense mechanisms." If EPA can state this in their Fact Sheet for PC Code 76416, we anticipate that EPA came to this conclusion based on a review of scientific data. We wish to obtain a copy of EPA's scientific review which summarizes the type of data EPA reviewed to arrive at this conclusion. A copy of EPA's Fact Sheet is attached for your reference and is also available at: http://www.epa.gov/pesticides/chem_search/reg_actions/registration/fs_G-133_04-April-00.pdf. Section 552 et seq ("FOIA"), I request copies of (or access to) documents (hereafter known as the Records), specifically: (1) Any agency records identify members of the Senior Executive Service within the Department who were reassigned to different jobs or different geographic locations during the period from Jan. 20, 2017, to the present. The records should include all reassignments where members of the Senior Executive Service within the Department moved to different positions or different geographic locations within the Department or outside of the Department. The records should also include all reassignments where members of the Senior Executive Service outside of the Department moved to different positions or different geographic locations within the Department (ie. the Records should include individuals who moved to, from and within the Department.) I am a reporter for The New York Times, an accredited and recognized newsgathering organization. I request the Records to inform the public about matters of public concern. FOIA requires that your agency respond to this request within 20 business days. This request is segregable, and your agency may not withhold entire records because of one section that you believe is exempt from disclosure. Under federal law, if you choose to withhold any such parts of the records from disclosure, you must specify in a written response the factual and legal basis for withholding any part of the Records. I am further requesting that the Records be provided to me on computer files in the same format as they are currently maintained at the agency, pursuant to Burka v. Dept. of Health & Human Svcs., 87 F.3d 508 (D.C. Cir. 1996). As you know, providing documents electronically is cheaper than mailing hard copies.

On February 24, 2017, President Trump signed Executive Order 13777, "Enforcing the Regulatory Reform Agenda," which established a federal policy "to alleviate unnecessary regulatory burdens" on the American people. Section 3(g) directs federal agencies to, within 90 days of the date of the order, and on a schedule determined by the agency head thereafter, have each Regulatory Reform Task Force provide a report to the agency head detailing the agency's progress.</p> <p>(1) All email correspondence involving any of the following individuals, from January 20, 2017 to the present: Samantha Dravis, Ryan Jackson, Byron Brown and Brittany Bolen. EPA-HQ-2018-002866	Kevin Bogardus	E&E News	12/22/2017 17:12	I request copies of any and all emails concerning official EPA business that were sent to or from EPA Administrator Scott Pruitt's personal email account(s) from Feb. 17, 2017 to the date that this FOIA request is processed. Other past senior administration officials, such as former Secretary of State Hillary Clinton, former Defense Secretary Ash Carter and former EPA Administrator Gina McCarthy, have been found to have used a personal email account for government business. In the cases of former Secretary Clinton and former Secretary Carter, some of those instances not only ran counter to their departments' policies but could have led to the potential exposure of classified information. In response to worries over their use of personal email for government business ¬-- and also litigation in former Secretary Clinton's case ¬-- both former Secretary Clinton and former Secretary Carter released thousands of pages of their personal emails that were used for government business. EPA has also released former Administrator McCarthy's personal emails that were used for government business. Further, a recent court ruling found that agency officials should expect that work-related emails in their personal email accounts to be subject to the Freedom of Information Act. In Competitive Enterprise Institute vs. Office of Science and Technology Policy, D.C. Circuit Senior Judge David Sentelle wrote in the U.S. Court of Appeals for the District of Columbia Circuit's opinion that "an agency cannot shield its records from search or disclosure under FOIA by the expedient of storing them in a private email account controlled by the agency head." Administrator Pruitt should follow the example of other past administration officials as well as court precedent and release all of his personal emails that were used for EPA business.

The agency declined to comment on specific parts advertised online and in catalogues, saying it needs test data to determine emission increases. EPA-HQ-2018-005358	Abraham Lustgarten	ProPublica	3/12/2018 19:03	Pursuant to FOIA, would like to request copies of all correspondence, including letters, emails and voice recordings not already published or made available on the EPA website concerning the EPA's evaluation of the health risks of exposure to the contaminant RDX, (https://cfpub.epa.gov/ncea/iris/iris_documents/documents/subst/0313_summary.pdf) from January 1, 2000 to Oct. 31, 2016. The response should exclude comments formally submitted to the EPA as part of the IRIS review process, and which are otherwise available online, as well as any other documents and information already published on the EPA's IRIS website. It should include all other internal and external communications not previously published for the public on the EPA website. I'd like responsive materials delivered on a rolling basis as they become available, and sent to me on a DVD via mail, as download of materials from the FOIAonline website is unreliable and frequently does not work. This request is a refiling of a previously withdrawn request, EPA-HQ-2017-000877 made to include my request for a fee waiver. Since substantial research has already been completed to answer the original request, it is my hope this new request can receive a response quickly. Pursuant to FOIA I'd like to request all documents and correspondence concerning the issue of penalties for, or the calculation of penalties for federal facilities between Jan. 20, 2017 and August 8, 2017. I'd like to request that responsive materials be delivered on a rolling basis as they become available.
EPA-HQ-2017-010289	Abraham Lustgarten	ProPublica	8/8/2017 13:08	In May, 2011 the EPA conducted a multi-media inspection at the Radford Army Ammunition Plant in Radford VA, EPA RCRA ID No. VA1210020730 ; CWA NPDES Permit No. V A0000248 ; CAA Title V Permit Nos. 5112100006 and 5112100082. For EPA Region III. In December, 2014 EPA conducted a compliance investigation of the same facility, NEIC Project No.: VP1068. For EPA Region III. Pursuant to FOIA I'd like to request copies of all correspondence, memos, reports or presentations regarding the findings or the conduct of both of these inspections and investigations, including what to do about them. I'd also like to request copies of any and all enforcement actions taken as a result of these inspections, including notices of violation or formal citations or warnings issued to the U.S. Army or its tenants at the Radford facility over the violations identified in these reports, as well as all records documenting the remedy of identified violations and return to compliance with the applicable laws and facility permits.
EPA-R3-2017-008427	Abraham Lustgarten	ProPublica	6/14/2017 18:06	I'd like to request copies of all correspondence between the office of the Administrator, Scott Pruitt, and any entity outside of the USEPA concerning the management, modernization or prioritization of the Superfund program between Feb 16, 2017 and the present.
EPA-HQ-2017-008423	Abraham Lustgarten	ProPublica	6/14/2017 18:06	Pursuant to FOIA I'd like to request copies of all correspondence originating from or involving member of the EPA press office mentioning "Abraham Lustgarten"; "ProPublica"; or regarding a press inquiry made by either entity since Sept. 1, 2016.
EPA-HQ-2017-004816	Abraham Lustgarten	ProPublica	3/13/2017 13:03	I request a copy of the following technical report currently being cited in the EPA's IRIS review of RDX, and with the EPA HERO ID# 2919533: Determination of the chronic mammalian toxicological effects of RDX: Twenty-four month chronic toxicity/carcinogenicity study of hexahydro-1,3,5-trinitro-1,3,5-triazine (RDX) in the B6C3F1 hybrid mouse (Volumes 1-3) The report was originally produced by the U.S. Army Medical Research and Development Command, but is a central document in the EPA's current toxicological review. The report is not classified but is not made available through a hyperlink the way most other citations relied on for the IRIS review are on the IRIS website. Thus I am requesting a copy of the EPA's version of this technical report.
EPA-HQ-2017-003411	Abraham Lustgarten	ProPublica	1/30/2017 21:01	Pursuant to FOIA I request copies the list and contact information of all registrants for all public meetings held by the EPA concerning its IRIS review of RDX between Jan 1, 2013 and Jan 20, 2017, as well as any presentation materials or prepared comments also collected from these registrants, per the EPA's guidelines for these meetings referenced below. In addition, I'd like to request copies of any meeting minutes, digitally recorded webinar, or other audio or visual recordings made of these public sessions. According to the notice at Regulations.gov , "Meeting Registration and Presentations Registrants will be required to provide their name, title, affiliation, sponsor (if different from affiliation), and contact information. If you intend to request time on the agenda to make a specific presentation, please register no later than 30 days before the meeting to attend in person or via webinar/teleconference. All other participants should register no later than 7 days before the meeting. Participants that want to make a specific presentation should indicate such in their registration and provide the length of time required. In general, presentations should be no more than 30 minutes. Please submit any written materials to the appropriate docket number for the subject chemical, as specified in Section III of this notice, no later than 7 days before the meeting. If there are more requests for presentations than time allows, the time limit for each presentation will be adjusted. During the meeting, remote attendees and individuals attending the meeting in person are welcome to make comments, ask questions, and participate in the dialogue. Details regarding registration procedures (in person, via webinar, or teleconference) will be posted on the IRIS Web site (http://www.epa.gov/iris/publicmeeting/).
EPA-HQ-2017-003148	Abraham Lustgarten	ProPublica	1/25/2017 14:01	The following is a re-filing of a FOIA request previously submitted to EPA Region 4, but which seems to be more appropriately handled by EPA HQ: The original FOIA # is EPA-R5-2017-003467 I am requesting copies of all releasable files relating to the permitting of, conduct of, or investigations into, the company U.S. Technology, based in Canton OH, and its handling of hazardous materials, between the years 2000 and 2017. It is my understanding that U.S. Technology is the subject of investigations or enforcement actions in both EPA Region 4, and in EPA Region 6, and perhaps elsewhere. It is information regarding the company's conduct and operations in these specific regions which I am requesting information about. In addition I request copies of all correspondence, including emails and letters received from or addressed to parties outside of the U.S. EPA concerning U.S. Technology, as well as any releasable intra-agency correspondence. I understand that my original request was forwarded to EPA Region 5 because the company in question is based there, But to reiterate, this request specifically concerns actions in R4 and R6. Also, I was advised previously that Region staff did not know or have enough information to know where to begin their search. To clarify my request, because this concerns a hazardous waste handling issue and an enforcement issue, I would suggest beginning with the RCRA enforcement offices and the criminal investigations divisions of these regional offices.
EPA-HQ-2017-003625	Abraham Lustgarten	ProPublica	2/6/2017 19:02	However I do not know that responsive records would be limited to those offices, and therefore would like the request considered more broadly. Records requested are for a Phase I Environmental Site Assessment and include: Any records pertaining to releases of chemicals, hazardous substances/wastes, and/or petroleum products, emergency and spill responses/clean-ups, hazardous substance/chemical storage, USTs/ASTs historically or currently on-site, any environmental permits (water discharge, sanitary systems, emissions, etc), well records (monitoring, irrigation, potable etc), permit and/or compliance violations associated with the site, illegal dumping, improper application of pesticides/herbicides, soil/groundwater sampling and site remediation activities and/or reports, filed complaints, NOV's, building/planning documents and permits – including construction/demolition and assessment records. Address: 99 Pleasant Valley Street, Methuen, MA 08144 (42.741500, -71.154130)

EPA-HQ-2017-001866	Paul M. Whatling	FMC Corporation	12/7/2016 18:12	This is a request or files cited by EPA in its draft human health risk assessment for malathion, or for study data evaluation records that have we have submitted to EPA in support of the registration of malathion in the United States. The first attached file requests the Agency's data evaluation records for studies submitted to support the registration of malathion. The second attached file requests copies of documents that EPA has cited in its draft human health risk assessment, which has a comment period that ends on December 21, 2016. These documents are needed in order for the registrant and the public to fully understand the ecological, endangered species and human health risk assessments that the agency has posted for public comment. Since the Agency has established regulatory deadlines for commenting on these risk assessments, time is of the essence for the EPA to comply with our request to provide the requested documents. Based on this, we request a fee waiver. And, we request expedited processing because of the urgency to inform stakeholders and the public about the reasons for the conclusions of the EPA's draft human health risk assessment. This is especially important given that malathion is an important tool used to control mosquitoes that spread diseases like the zika virus.

EPA-HQ-2017-004787	Jeff Ruch	PEER	3/10/2017 16:03	See attached To Whom it May Concern: I would like to request any and all documents that were sent from the White House to the EPA regarding a change to the Renewable Fuel Standard Point of Obligation. As the media has widely reported, discussions between Carl Icahn and outside private parties in the oil and renewable fuels industry occurred in late Feb/early March regarding the White House's consideration of moving the Point of Obligation from refiners/importers to some point further down the fuel distribution chain. In addition to any point of obligation package or memo, I would also request any other documents that were sent that pertained to other changes that might be considered as part of a package to move point of obligation: this list may include things like the E15 Reid Vapor Pressure waiver, or review of MOVES and other models, but my request list is not limited to these. I believe this package was likely sent from the White House to the EPA the week of Feb 27-March 5, but those dates are not exact. This package may include documents from other White House officials to Administrator Pruitt including Gary Cohn. Thank you.

				Please provide the following records in a digital format:
				1. All records related to agency travel requests submitted to the White House for designation as "White House Support Missions" (or "White House Mission Designations") from January 1, 2016 to the present. This request includes, but is not limited to:
				a. Records pertaining to the dates and itinerary of trips that were submitted.
				b. The formal request sent to the White House (usually to the Assistant to the President for Cabinet Affairs).
				c. Records related to the justification(s) for each request, such as the estimated cost of a requested flight and the estimated costs of alternatives.
				d. Records of response(s) to each request.
				e. Records indicating whether the trip was in fact taken, and the make/model of aircraft it was taken in. (As this may differ from the make/model of the aircraft requested.)
				I certify to be true and correct to the best of my knowledge and belief, that there is widespread and exceptional media interest and there exist possible questions about the government's integrity, which affect public confidence. As travel costs from various federal agencies come to light, there is growing public concern about the government's integrity as it spends taxpayer dollars. This subject has already led to the resignation of a cabinet secretary, which has further undermined public confidence in the ability of the government to wisely spend the taxpayers' money. As the use of military planes for travel follows different procedures and has different implications than the use of chartered planes, it is important that such travel be

This request is segregable, and your agency may not withhold entire records because of one section that you believe is exempt from disclosure. Under federal law, if you choose to withhold any such parts of the records from disclosure, you must specify in a written response the factual and legal basis for withholding any part of the Records. I'd like to make a request under the Freedom of Information Act. I am writing to seek documents showing communications with the U.S. EPA administrator Scott Pruitt regarding coal in the first week of his tenure at the position. I'd like a copy of any documents, meeting notes and meeting schedules, recorded meetings or phone calls and any other communications that may have occurred to or from the administrator of the U.S. EPA Scott Pruitt that mention the word "coal" between February 17, 2017 and February 24, 2017. I would prefer to receive these documents in electronic form, if possible. I'm a financial coal reporter for S&P Global Market Intelligence, formerly known as SNL Financial, an online trade publication covering energy and this request is made as part of news gathering and not for a commercial use. I request a waiver of all fees for this request. Disclosure of the requested information to me is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in my commercial interest. The knowledge of the relationships between the head of the U.S. EPA and the coal industry is exceedingly important to the public. I intend to disseminate this information through SNL Energy's news page, as well as via free link on our Twitter accounts, which are widely viewed by the public. I look forward to your timely response with a determination letter within the allowed 20 business days, which is by June 29, 2017, by my calculation. Thank you for your consideration. EPA-HQ-2018-000896	Reese Dunklin	The Associated Press	10/23/2017 14:10	<p>Emails that Dr. Tina Bahadori sent to or received from the email address domains of @arkema.com and @americanchemistry.com from Aug. 1, 2017, to Oct. 23, 2017. While I have previously requested emails from certain EPA staff that involve Arkema Inc., this request is distinct and different from those. Should you be releasing the emails requested in this request as part of my prior ones, please let me know and we can discuss whether I modify or withdraw this one. Should you release some or all of these emails as part of another request submitted by another requestor, I ask that you notify me and provide the same documents to me, rather than making me wait out the 20-day timeframe or until my place in the FOIA queue is up. I ask for copies in electronic format sent to me at rdunklin@ap.org. I will take responsive records on a rolling basis. I do not seek confidential business information, or personally identifying information like SSN or DOB.</p>
EPA-HQ-2017-011511	Reese Dunklin	The Associated Press	9/15/2017 15:09	<p>On behalf of the Associated Press, I request all correspondence between certain EPA staff at EPA headquarters (those are: the EPA administrator, his acting deputy administrator, his chief of staff and his chief of operations; the acting assistant administrator over OCSPP; and the assistant administrator over OECA) and any employee of the Texas Commission on Environmental Quality, the Texas governor's office or the Federal Emergency Management Agency from 8/1/2017 to 9/15/2017 regarding any violations, site inspections, compliance requirements, flood risks, flood control, flood prevention, flooding, enforcement actions, regulatory oversight, emergency response, hazardous waste disposal, accident planning or prevention, air quality testing or sampling, water quality testing or sampling related to the facility located at 18000 Crosby Eastgate Road in Crosby, Texas (EPA facility identifier 100000124457) and presently owned by Arkema. The correspondence should include anything whether sent or received via email, fax or postal mail. And to be clear, this request is different and distinct from my request numbered EPA-R6-2017-011509 in that it seeks information from personnel working from headquarters, and I do not wish to consolidate this request with EPA-R6-2017-011509. I am requesting publicly available information, not confidential business information. I'd like to get responsive records emailed to me as PDFs at rdunklin@ap.org or, if another request is already being processed and records are being produced in another format, I will accept records in that format in order to expedite release of records to the AP and lessen the workload on your staff. I agree to the release of records on a 30-day rolling basis. I also ask that you communicate with me by email or phone at 972 502 7571 to expedite the FOIA process. Thank you.</p>
EPA-HQ-2017-011260	Reese Dunklin	The Associated Press	9/7/2017 21:09	<p>On behalf of the Associated Press, I request all correspondence between the EPA administrator and his staff and any employee of Arkema Inc. (whether sent or received via email, fax, postal mail) during the last six months, as well as any transcripts of meetings or phone calls between the parties during the last six months. I'd like to get responsive records emailed to me as PDFs at rdunklin@ap.org or, if another request is already being processed and records are being produced in another format, I will accept records in that format in order to expedite release of records to the AP and lessen the workload on your staff. If records exceed 50 pages, I ask that they be made available to me on a rolling basis, meaning as they become available for release after any FOIA review process, rather than delaying release until the last document is ready. I also ask that you communicate with me by email or phone at 972 502 7571 to expedite the FOIA process. I also request expedited processing, because this is a matter of public interest since the Crosby plant had chemical emissions, after flooding, catching fire and exploding in the last week, and it is important to understand what preparations for flooding that EPA may not have identified as necessary there. Because of the furtherance of public knowledge, and because I work for a news gathering organization, I also request a fee waiver. Thank you.</p>

				Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request: all Ethics recusal or counseling memos issued by the agency since Jan. 20, 2017. I would like to receive the information in the following format: electronic. As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. This information is being sought on behalf of ProPublica, an independent non-profit news organization, for dissemination to the general public. Please waive any applicable fees. Release of the information is in the public interest because it will contribute significantly to public understanding of government operations and activities, specifically the determination of potential conflicts of interest of federal employees with decision-making authority over public policy, and the resolution of these conflicts by Designated Agency Ethics Officials. As a non-profit journalistic entity, ProPublica does not have the same commercial interests of other news organizations. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the Act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees. As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone, rather than by mail, if you have questions regarding this request. I also ask that this request be expedited under terms of the Freedom of Information Act. Expedited processing is allowed for requests that show a "compelling need," and ProPublica is primarily engaged in disseminating information, with an urgency to inform the public concerning federal government activity.

This request is made as part of news-gathering activity and is not for commercial use. The information responsive to this FOIA request will contribute to the public's understanding of your agency and the government at large. This information is not in the public domain but once your agency responds to this FOIA request, it will be printed on our website, www.eenews.net , which has more than 40,000 unique visitors a day. We expect the information that I request any record of invitees or participants on a teleconference call hosted by White House and EPA officials on October 10, 2017, at 10 a.m. called "Clean Power Plan" and about "COP roll-back initiatives," or a proposal to withdraw the Clean Power Plan. That includes any list held or provided to EPA by the conference call hoster, Intelior or AT&T Connect Event Services. It also includes records of registrations for the call or any list provided by EPA to the White House or by the White House to EPA for sending invites for the call. The invite email was sent by Kelly Sadler, kelly.j.sadler@who.eop.gov and titled "WH Background Call Regarding CPP." The call was described as the White House joined by EPA. EPA officials involved included Samantha Dravis, Mandy Gunasekara and Justin Schwab. The dial-in number for the call was 1-877-369-5243 and the access code was 0286008#. EPA-HQ-2017-010329	Sheila Kaplan	new york times	8/8/2017 19:08	On January 11, 2017 the United States District Court for the Northern District of West Virginia ordered EPA to submit a § 321(a) evaluation of the coal industry and other entities affected by EPA rules and regulations no later than July 1, 2017. Two days before the evaluation was due the U.S. Court of Appeals for the Fourth Circuit vacated the District Court's order. Given that the Court of Appeals decision was released on June 29, 2017, merely two days before the section 321 report was due to the District Court, CATF believes that the section 321 report was in fact prepared by the Agency but never submitted to the Court or otherwise made public. CATF therefore requests: 1. Any and all reports, memoranda, or evaluations prepared in response to the District Court's Jan. 11, 2017 Order (Attach A); and 2. The underlying data supporting any report or evaluation. This is a request under the Freedom of Information Act for a copy of United States Environmental Protection Agency administrator Scott Pruitt's daily calendar from February 1, 2017 through the date of this request. EPA-HQ-2017-011616	Steven H. Lamm	CEOH, LLC.	9/19/2017 16:09	FOIA Request (September 19, 2017) from CEOH, LLC (Steven H. Lamm, MD, DTPH) to EPA FOIA Office. Authors from the EPA and authors under contract to EPA published the article "Relationship between arsenic concentrations in drinking water and lung and bladder cancer incidence in the U.S. counties" by Mendez WM et al. in the Journal of Exposure Science and Environmental Epidemiology (2017 May;27(3):235-243). I request a copy of the data set that underlay the published analyses. Please include in the data set the FIPS numbers for each entry as that is not privileged confidential information and is essential for the purpose of confirming the validity of the data set. It is not clear that the published analyses are either correct and valid or that they are the only correct and valid interpretation of the underlying data. I request that the data be sent as a spreadsheet that I can analyze in excel and in STATA. I do not use SAS or SPSS. All the underlying information has been collected by federal governmental agencies and belong in the public domain. How EPA personnel and contractors have organized and used that information using federal funds also belongs in the public domain. This information does not fall within the nine exclusions, including the ninth exclusion on geological information on wells. I am requesting information on the water that comes from the wells and on either the geological nature of the well or the geographical coordinates of the well. The underlying data on the arsenic contents of the waters of the wells has already been publicly released by the USGS. I am requesting the EPA data from the aggregation of the USGS data. I request a fee waiver and expedited processing on the bases explained in the attached copy of my complete FOIA request.

				<p>We are requesting a document referenced in the links below. This was an internal report titled "Operation Bootstrap", distributed by the Hooker Chemicals Corporation regarding their Niagara Falls facility. The report was conducted in 1975 but then appears to be distributed in 1979. The EPA had a copy of this report which is what we are requesting. Operation Bootstrap, a 1975 company management study of the Niagara Plant documenting obsolete equipment, substandard environmental conditions and massive discharging of waters into sewers leading to the Niagara River. The 1975 Report, called "Operation Bootstrap," was prepared by internal engineers and doctors for the Hooker Chemicals and Plastics Corp., a subsidiary of Occidental Petroleum. It was obtained by The New York Times, television station WKBW in Buffalo and Michael Brown, an environmental writer, from a supervising engineer who was dismissed two years ago, allegedly for complaining about unsafe emissions from the plant. According to Michael J. Bayliss, the former supervising engineer for plant efficiency who released the report, it was Hooker company policy "not to tell workers the dangers of the chemicals they worked with." He said he had told Federal safety officials about the problems but had not yet given them a copy of the report. For example, if the EPA withholds a record (or portion of a record) under FOIA exemption 4, please identify why the EPA believes disclosure of the record is likely to cause substantial competitive harm. This information will help me decide whether to appeal an adverse determination. Thank you for your attention to this FOIA request. Please send me responsive records on a rolling basis as the EPA's search for – or deliberations concerning – certain records should not delay the production of other records that are ready for production. Please do not hesitate to call or email me to clarify the request or otherwise expedite and simplify your efforts to comply.</p>
EPA-HQ-2018-006289	Christopher D. White		4/5/2018 19:04	<p>Pursuant to the federal Freedom of Information Act, 5 U.S.C. §552, I request copies of and access to all emails Environmental Protection Agency (EPA) employees sent to or received from Atlantic reporters Elaina Plott and Robinson Meyer from January 1, 2017 through April 5, 2018. The Atlantic, an online news outlet, reported on April 3, 2018 that EPA Administrator Scott Pruitt used a loophole in the Safe Drinking Water Act to give pay raises to two of his top aides – Sarah Greenwalt and Millan Hupp – who were political appointees for Pruitt when he was an attorney general in Oklahoma. The Atlantic relied on anonymous EPA employees for sourcing in the report. I would like to receive the information in searchable PDFs via email or thumb drive. I would prefer to receive them via CD or digital dropbox if PDF versions are unavailable. I would prefer they be released on a rolling basis as documents become available, rather than as one large file. I would also like to request a waiver of all fees in that the disclosure of the requested information is in the public interest. If my request is denied, then please cite each specific exemption you feel justifies the refusal to release the information and notify me of the appeal procedures available to me under the law. Reports from The Atlantic, The New York Times, and The Washington Post about EPA Scott Pruitt's travels and housing expenses, which have relied heavily on anonymous sources within the EPA who were initially employed by former President Barack Obama's administration, have been topics of significant public interest. The information will be used in articles by The Daily Caller News Foundation, a non-profit news outlet based in Washington, D.C. The Daily Caller News Foundation has reported extensively on reports about administrator Scott Pruitt's first class flight travels. Key terms: Safe Drinking Water Act - Millan Hupp - Sarah Greenwalt - The Atlantic - Elaina Plott</p>

EPA-HQ-2018-003281	Daniel Fourie	1990	1/11/2018 14:01	Hello, I am looking for information regarding the EPA's involvement or oversight in the use of mercury at Lewis Research Center between 1970 and 1980. Specifically, I'm interested in mercury's use as a liquid propellant for spacecraft ion thrusters in development at that Center. My understanding is that there was some EPA involvement that shut down the research program. I've attached a NASA document describing the research effort. Thank you, Dan Fourie

EPA-HQ-2018-006111	Bill Lapp	Advanced Economic Solutions	4/2/2018 19:04	Advanced Economic Solutions has 3 specific FOIA requests: 1. Advanced Economic Solutions wishes to identify the number of "small refineries" that, as of March 31, 2018, have been granted an annual exemption from its annual RVOs for calendar years 2016, 2017 and 2018. 2. Advanced Economic Solutions wishes to identify the volume represented by the "small refineries" that, as of March 31, 2018, have been granted an annual exemption from its annual RVOs for calendar years 2016, 2017 and 2018. 3. Advanced Economic Solutions would like to identify the number of "small refineries" that, as of April 1, have petitioned for an exemption from its annual RVOs for calendar year 2018. Under EPA's Renewable Fuel Standard (RFS) program, a small refinery may be granted a temporary exemption from its annual Renewable Volume Obligations (RVOs) if it can demonstrate that compliance with the RVOs would cause the refinery to suffer disproportionate economic hardship. The RFS regulations define a small refinery as one with an average crude oil input no greater than 75,000 barrels per day (bpd) crude in 2006. Additionally, the small refinery may not have an average aggregate daily crude oil throughput greater than 75,000 bpd in the most recent full calendar year prior to submitting a petition, and cannot be projected to exceed the 75,000 bpd threshold in the year or years for which it is seeking an exemption. Advanced Economic Solutions is an independent consulting firm, based in Omaha, Nebraska, that specializes in assisting food companies with supply chain risk management and other economic and commodity issues. Thank you in advance for your attention to this request. Bill Lapp President, Advanced Economic Solutions Omaha, NE 402-496-6015

Unearthed is interested in obtaining the below information relating to the Volkswagen fix. I hereby request copies of all records containing the following information: Data on all Volkswagen vehicles tested on the road (PEMS data) for NOx emissions before and after the fix information in regard to how the tests were done: for example, the engine temperature at the start of the test any details regarding the route, composition (urban, rural, motorway split) and the ambient conditions on the day of the test. Details about the vehicles themselves: engine size, model year, mileage, body type and emissions technology Any other documents such as keys or guides that are necessary to interpret the data appropriately I would like the data in xls format if possible. Disclosure of this information is demonstrably in the public interest – Volkswagen were caught rigging emissions tests and breaking the law. It will also allow the global public to understand how the fix affects emissions in different countries. If you deny all or any part of this request, please cite each specific exemption that you believe justifies your withholding of information. Please be sure to notify me of appeal procedures available under the law in the event of any denial. If you deny my request for a fee waiver, please inform me before processing my request. 				<p>I WOULD LIKE TO REQUEST THE FOLLOWING INFORMATION: WHO AUTHORIZED SMART WAY TO BE LOCATED ON THE EPA WEBSITE? WHAT WAS THE PROCESS TO HAVE SMART WAY ADDED TO THE EPA WEBSITE? WHAT IS THE PROCESS TO HAVE SMART WAY DELETED / REMOVED FROM THE EPA WEBSITE? HAS THE EPA CONDUCTED ANY TESTS RELATED TO THE SCIENTIFIC VALIDITY OF THE SMART WAY PROTOCOLS / METHODOLOGIES / PRACTICES / GHG REDUCTION CALCULATIONS DELINEATED BY SMART WAY ON THE EPA WEBSITE? SMART WAY CLAIMS THAT IF THE GROUND TRANSPORTATION INDUSTRY FOLLOWS SMART WAY'S PROTOCOLS / METHODOLOGIES / PRACTICES / GHG REDUCTION CALCULATIONS SUCH ADHERENCE WILL QUANTIFIABLY REDUCE THE PARTICIPANTS' CARBON FOOTPRINT / REDUCE THE PARTICIPANTS' HARMFUL GHG EMISSIONS. UNFORTUNATELY SMART WAY PROTOCOLS / METHODOLOGIES / PRACTICES / GHG REDUCTION CALCULATIONS WILL NOT / ARE NOT ABLE TO REDUCE HARMFUL GHG EMISSIONS IN ANY QUANTIFIABLE MANNER THAT IS ACCEPTED BY INTERNATIONAL AND OR DOMESTIC ACCREDITED & RECOGNIZED GHG REDUCTION VERIFICATION AGENCIES/ GOVERNMENTS / COP 21 PARIS CLIMATE CHANGE AGREEMENT/ MOREOVER THE EPA ITSELF. DID SMART WAY PROVIDE THE EPA ANY THIRD PARTY TESTING AND VERIFICATION THAT SMART WAY'S PROTOCOLS / METHODOLOGIES / PRACTICES / GHG REDUCTION CALCULATIONS ARE CORRECT AND VALID? I BELIEVE THE ANSWER IS NO! THE EPA'S CONTINUED SUPPORT OF SMART WAY IS LEADING THE TRANSPORTATION INDUSTRY TO SPEND TENS OF MILLIONS OF DOLLARS ANNUALLY FOLLOWING SMART WAY TO THE LETTER IMPLEMENTING PROTOCOLS / METHODOLOGIES / PRACTICES / GHG REDUCTION CALCULATIONS WHICH ACCOMPLISH ZERO. THE EPA APPEARS BY VITURE OF HOSTING SMART WAY IN THE EPA WEBSITE TO 100% SUPPORT LEADING THE TRANSPORTATION INDUSTRY DOWN THE WRONG PATH RESULTING IN ZERO QUANTIFIABLE REDUCTION IN HARMFUL GHG EMISSIONS. PLEASE PROVIDE ANY AND ALL RELEVANT DOCUMENTATION FROM THE EPA REGARDING SMART WAY/ THIRD PARTY TESTING OF SMART WAY PROTOCOLS / METHODOLOGIES / PRACTICES / GHG REDUCTION CALCULATIONS AND ANY AND ALL PAST ATTEMPTS TO DELETE IT FROM THE EPA</p>

				Reuters is seeking any correspondence, call records and meeting details between May 2017 and today related to Administrator Pruitt's plan to launch a public debate between scientists who are climate change skeptics and scientists who are believers that human beings cause climate change, also known as a "red team blue team" exercise. Mr. Pruitt said he intended to launch these debates for public consumption at the beginning of 2018 but so far there has been no update about the status of these debates. We are looking for information about who was invited to participate in such debates, any formal planning for launching -- or cancelling - these debates and any explanation about the process of recruiting both "red team" and "blue team" scientists to participate. We would also like information explaining whether these debates would inform future plans to re-examine the EPA's endangerment finding.

EPA-R10-2018-005668	Jeffery F. Runyan		3/21/2018 15:03	<p>Back ground; there was an illegal dump of chemicals that was reported sometime in November 1983 at Fort Lewis Washington now known as Joint Base Lewis McChord. The site in question is near or in Training area eleven on the east side of Ft. Lewis and is now known as the illicit PCB Dump Site. The report about an unknown chemical spill came in from a person on or about November 16th 1983 to the US Army at Fort Lewis. The EPA Region office 10 became involved in the emergency investigation and remediation process shortly after the chemical dump was reported. I am requesting that all information in reference to the illicit PCB dump site that involves or names any Military personnel and or any Military units that were known to have been in the area of the illicit PCB dumpsite, that were or may have been contacted as part of the Illicit PCB dump investigation process, or that were involved directly or indirectly by being in the area of the illicit PCB Dump Site either before the illicit PCB dump site incident was reported or after it was reported for the years 1982 through 1984. Additionally a currently unknown person or agencies personnel, as part of the investigation into the illicit PCB dump site, contacted military personnel sometime between 1983 and 1985. The military personnel were to wear diffuse type monitors as a result of having been directly in or near the PCB dump site prior to the area being fenced off or remediated. I would like the results from any monitoring devices that were used on military personnel if they are available and or what military units these military personnel were in at the time. I request this information if any be released to either my email address or mailing address.</p> <p>Clarification received 5/2: He would like us to search for files that may be relevant to the PCB Illicit Dump between May 1983 and December 31, 1984.</p>

It may be known as "Tudor's Biscuit World" or "Former Capitol Cleaners." The owner swears he has a vapor mitigation system, and that U.S. EPA assisted in the installation. However, we have no record of this, and when asked, he has not been forthcoming in any evidence of this. It is unclear from the outside of the building that he has a vapor mitigation system. Additionally, PCE vapor concentrations in nearby soil gas are above chronic response action levels for a commercial/industrial worker. Contact me if you have any questions. Thank you.

I am looking for documents that relate to asbestos at the IMC facility in Sterlington, LA, from 1971 to 1995. It may not be important within the scope of this request, but there were several IMC plants involving the production of ammonia, methanol and nitroparaffin (NP). Below is the history of the Sterlington Plants: * 1930s The original ammonia plant and the methanol plant were built by the government. Eventually, Commercial Solvents Corporation (CSC) took ownership and operation of these two plants. * 1955 The nitroparaffin plant (NP) was built. There was also a nitroparaffin derivative by-product plant. * 1975 Int'l Minerals and Chemical Corp. (IMC) acquired the plants from CSC. * Mid-'70s 1st new ammonia plant was built and the original ammonia plant was closed. * 1980s 2nd new ammonia plant was built in the location of the closed methanol plant. * 1982 The Angus Chemical Company purchased the NP portion of the facility from IMC and contracted with IMC to operate the plant. * 1991 There was an explosion at the NP plant that killed 8 people. * 1991/92 Angus took control of the NP plants post-explosion and erected a fence between NP and the ammonia plants. * 1992 Koch Industries purchased the two ammonia plants from IMC. The ammonia plants closed in the 2000s. I tried to attach NIOSH report from March 1992, but it would not load. Maybe I can email it to you directly. I need to know if there are more documents on file re: investigations, inspections, reports of infractions, recommendations, etc. Thank you!
