

Completed state program templates are due to the EPA SIRG Project Officer with their annual progress report no later than September 30, 2018. Please do not include this report in the body of your progress report (if it is submitted as a word document or a pdf).

Instructions for Completion and Examples of Applicable Activities

Report current work results as well as planned work on the template provided below. If no work is currently underway or planned, a “not applicable” entry may be entered. The House Report 114-632 recommends that EPA focus SIRG funding in three broad areas. Examples of applicable activities are provided below and include activities that satisfy program approaches that should be given priority consideration when awarding grants with FY17 funding. In addition to listing your program’s activities, please include further detail that describes the particular work and results. Consult your EPA Project Officer with any questions.
