EPA-R3-2018-007236	Emily White	Golder Associates	5/1/2018 21:05	Hello, I am looking into submitting a freedom of information act request for all environmental files pertaining to the address below, specifically in reference to groundwater. 201 Industrial Park Rd, Blacksburg, VA 24060 Thanks and kind regards, Emily White
EPA-HQ-2018-007237	Alexander Guillen	POLITICO	5/1/2018 21:05	I request all documents detailing EPA Administrator Scott Pruitt's schedule from April 1 through April 30, 2018. Such documents include but are not limited to itineraries, scheduling documents, and "tick-tocks" detailing Pruitt's activities and records of in-person, telephonic or electronic meetings, including a list of who participated in those meetings and details on topics discussed. If you deny all or any part of this request, please cite each specific exemption you think justifies your withholding of information.

				Pursuant to the Freedom of Information Act ("FOIA"), 5 U.S.C. §552, et seq., I request access to and copies of all logs of correspondence to or from any officials at National FOIA Officer and Versar, Inc. between December 2004 and May 1, 2018, complaints against Versar, Inc., and investigations into Versar, Inc. The EPA has had many contracts with Versar, Inc some are included in the document attached. Please search for responsive records regardless of format, medium, or physical characteristics. Where possible, please produce records electronically, in PDF or TIF format, via email or CD, particularly if providing the information reduces the time or expense involved. If your office cannot honor this preference, I am willing to discuss the most cost-effective and efficient means of duplication. I agree to pay reasonable duplication fees for the processing of this request in an amount not to exceed \$200. However, please notify me prior to your incurring any expenses in excess of that amount. If any records are withheld or redacted, I request that you state the specific legal and factual grounds for withholding any documents or portions of documents. Please identify each document that falls within the scope of this request but is withheld from release and provide an index of those documents as required under Vaughn v. Rosen, 484 F.2d 820 (D.C. Cir. 1973), cert. denied, 415 U.S. 977 (1972). Please describe each document claimed as exempt including the consequences of supplying the sought-after information. If it is your determination that some portions of requested records are exempt, please disclose any reasonably segregable non-exempt portions of the requested records. If requested documents are located in another installation or bureau, I respectfully request that you please refer this request or any relevant portion of this request to the appropriate installation or bureau.

These grant agreements are with two entities, (1) the City of Jackson, Mississippi and (2) the West Rankin Metropolitan Sewer Authority, also know as the West Rankin Utility Authority. The City of Jackson, Mississippi request is for copies of all construction grant agreements from approximately 1970 to date that provide funding for the construction of a wastewater treatment plant for the City of Jackson named the Savanna Street Wastewater Treatment Plant. I am also requesting copies of all construction grant agreements with the City of Jackson that provide funding for the construction and/maintenance of sewer interceptors in Hinds County, Madison County, and Rankin County. The West Rankin Metropolitan Sewer Authority a/k/a West Rankin Utility Authority request is for copies of all construction grant agreements for the construction and/or maintenance of sewer interceptors in Rankin County. These construction grant agreements would be after 2001. The online request requires that a fee amount be entered. The City will pay the reasonable cost of obtaining these grant agreements, even in excess of \$1,000. Should you have any questions, please feel free to contact me through email at twilliamson@jacksonms.gov or by telephone at 601-502-4662.</p>

EPA-R4-2018-007360	Pamela H. Germanos	Motley Rice LLC	Victor Mill plant, J. P. Stevens possibly listed as the owner, Greer, SC (Spartanburg County) located at 250 Victor Avenue, Greer, SC which had the plant evaluated for possible contaminants. We need any and all documents regarding this site reconnaissance in Phase I ESA and Phase II which may have been performed by Tetra Tech in 2008. See below: URS Corporation (URS) and SCDHEC personnel conducted a site reconnaissance for a Phase I ESA on September 12, 2007. It was noted during the site reconnaissance that most of the former Victor Mill building structures had been demolished, and the majority of the site surface was covered with demolition debris. Three aboveground storage tanks were also observed; however, there was no evidence of staining or spillage. Additional observations made during the reconnaissance included several unlabeled transformer-type structures among the debris within the interior of the site. URS was not able to obtain any information regarding the past uses of the transformer type structures or whether they contained polychlorinated biphenyls. URS identified three on-site RECs as described in the report. URS also listed several other concerns, which required additional investigation to determine if RECs existed, particularly buried lead-based paint and asbestos contamination. After completing the Phase I ESA in September 2007, URS recommended that a Phase II ESA be conducted to determine whether soil and/or groundwater underlying the site were impacted by the textile facility.	5/4/2018 15:05

I am seeking documentation containing information about the tables and columns inside the database that is the backend for this system. This information is being sought on behalf of BuzzFeed News for informing the general public. I request these documents in their original digital format. Please send these files via email or FTP upload. I understand that some of the fields may be related to network security information. Because this information is being sought on behalf of BuzzFeed News for informing the general public I am not interested in receiving the information related to these fields. If you determine that any information is exempt from disclosure, please identify the parts that are exempt, specify the statutes that exempt them, and release all other segregable parts. Please waive any applicable duplication fees. Release of this information is in the public interest because it will contribute significantly to the public understanding of the process for cleaning up Superfund sites in the United States. As I am making this request as a journalist and this information is of timely value, I would appreciate you communicating with me by telephone or electronic mail, rather than by postal mail. I look forward to your reply within 20 business days, as the statute requires. Please let me know if there are any clarifications I can make to make this request easier and/or quicker to complete. I request that a copy of the documents containing the following information: county, state and national data for the whole US on air quality with respect to the following three factors 1) air lead (pb) levels; 2) particulate matter 10 micrometers or less in diameter (PM10), and 3) particulate matter 2.5 micrometers or less in diameter (PM2.5), and 4) ozone to be provided to me for each of the years 1960 to 2016 (or for all of those years in which this information is available if data gathering began after 1960). Quarterly or yearly data would be sufficient. If this information is available in electronic form, that would be extremely helpful. These data will be used in an unfunded research project I am working on to examine the association between trends in these air pollutants and trends in childhood blood pressure in the US from 1960 to 2016. I intend to publish the results in a peer-reviewed academic paper. In order to help to determine my status to assess fees, you should know that I am a US academic researcher employed by the University of Toronto, a non-commercial scientific institution, and this request is made for scholarly purposes and not for a commercial use. EPA-HQ-2018-007427	Austin K. Oakley		5/7/2018 14:05	I'd like to see the research behind why Diesel Exhaust Fluid (DEF) is beneficial to the environment from an overall perspective? I'm sure there was research into how DEF is more beneficial to the environment compared to all of the negatives involved with it (energy to produce, plastic containers, plastic DEF tanks, lower efficiency diesel engines, more waste based off of lower engine life..etc). I don't think there is any way you can justify DEF as being better for the environment overall, as there is a lot more pollution involved with requiring DEF. Thank you. Statistics are easily faked or altered to give an end of results. Please send all research to justify an overall basis, with references to actual research/data taken on the matter.

EPA-R7-2018-007432	Fred Lawrence		5/7/2018 15:05	Please provide groundwater investigation reports with contamination plumes and direction of groundwater flow; including the 2016 and 2017 groundwater monitoring reports. The property I was inquiring about is: Harcros Chemicals Inc, 2040 West River Drive, Davenport, IA 52802, IAD022100671. I am doing an environmental assessment on the west-adjointing property, 2060 West River Drive. There are multiple monitoring well clusters on my subject property, apparently due to a release on the Harcros property. The database indicates that the facility is currently regulated by EPA Region 7 regarding this issue. My client wants to know the most recent concentrations of contaminants of concern and the direction of groundwater flow. If the incident is considered closed, we would like a copy of the EPA closure letter.
EPA-HQ-2018-007437	Miranda Green	The Hill	5/7/2018 15:05	I'm requesting all communications between "Michael Abboud" and "Healy Baumgardner-Nardone" and/or "Healy Baumgardner"; from March 1, 2018 to May 7, 2018. I'm seeking all correspondence in regards to requests from the letter regardless of format including but not limited to, emails, letters, texts, call transcripts and voicemails. The public has an urgent need for information about the correspondence because it may shed light on how agency policy is shaped and decisions are made. I am making this request on behalf of The Hill and the records disclosed pursuant to this request will be used in the preparation of news articles for dissemination to the public. Please waive all fees in connection with this request because the disclosure of the requested information is in the public interest and is likely to contribute significantly to public understanding of the operations and activities of the government. I would appreciate your communicating with me by telephone or email, rather than mail, if you have any questions about this request. I declare under penalty of perjury that the foregoing is true and correct. Executed on May 7, 2018. Sincerely, Miranda Green, Reporter, The Hill

This is a request for copies of records under the Freedom of Information Act. The custodian for this request is the Office of Administration and Resource Management. Please do not construe the subject of this request to mean that I am concerned with records in the Office of the Administrator. I am requesting copies of records that related to events at 223 C St. NE, Washington, DC on March 29, 2017. This includes: ? Records mentioning the names Vicki Hart or J. Steven ("Steven") Hart; ? Records mentioning the address 223 C Street NE., Washington, DC. ? Records relating to events at this address on March 29, 2017; ? Records of payments to Vicki Hart, Steven Hart, or 223 C St LLC; ? Records of requests for reimbursement related to Vicki Hart, Steven Hart, or 223 C St LLC; and, ? Records of communications with or mentioning Vicki Hart, Steven Hart, or 223 C St LLC in either electronic or physical format. Per EPA records management policy, electronic messages such as text messages are agency records which must be preserved made accessible under the Freedom of Information Act. As such, a satisfactory search for responsive records includes a search for records created by the individuals listed above using any of the following services: Google Chat, Skype for Business, IBM Sametime, Novell Groupwise Messenger, Facebook Messaging, iMessage; Short Message Service and Multimedia Messaging Service on devices, such as Blackberry, Windows, Apple or Android devices; Google Voice, Twitter Direct Message, Slack, Snapchat, WhatsApp, Pigeon, Yammer, Jive, or other internal collaboration networks. It is my understanding that, in previous administrations, Agency employees referred to principals by their initials, acronyms, nicknames, pseudonyms, or aliases. For example, President Clinton was sometimes referred to as "WJC" and President Barack Obama was referred to as "BO." In 2013, it was reported that former EPA Administrator Lisa Jackson I request communication records sent to and from J. Steven Hart — including but not limited to his email address jshart@wms-jen.com — and Vicki Hart — including but not limited to her email address vhart@hhstrategies.com — from the following individuals at EPA from Jan. 20, 2017 to the date that this request is processed: Scott Pruitt Ryan Jackson Samantha Dravis Sarah Greenwalt Millan Hupp Madeline Morris Please consider any emails, handwritten notes, letters, memorandums, text messages, voice and video recordings as well as other documented forms of communication as responsive records to my request.

				I am requesting the following information and documents from EPA: 1) FOIA request No. EPA-HQ-2018-006291 submitted by the Renewable Fuels Association on April 5, 2018. I request that you please forward all documents responsive to this FOIA request to my attention. Please provide all responsive documents to me in the same format made available to the requestors. 2) Any and all petitions, for any and all years, for exemptions under the small refinery hardship authorities submitted by entities requesting relief under the authorities. 3) Any and all documents or communications and attachments thereto reflecting any made changes to the criteria threshold, application of the criteria, interpretation of the criteria, or methodology for calculating compliance with the criteria used to determine whether a small refinery has demonstrated disproportionate economic hardship and is therefore eligible to receive a small refinery exemption, including but not limited to changes to the percentage of total criteria that a small refinery must meet in order to qualify for an exemption. For example, documents showing that a refinery must satisfy 50 percent of the applicable criteria to qualify for an exemption, compared to a previous threshold of 75 percent, would be responsive to this request. 4) Any and all reports submitted by EPA to the U.S. House of Representatives Committee on Appropriation or the U.S. Senate Committee on Appropriations regarding EPA's disagreement with a Department of Energy recommendation on a small refinery exemption. 5) Any and all documents or communications and attachments thereto regarding how far back in time EPA believes it can grant small refinery exemptions. 6) Any and all documents regarding the legal and compliance status of previously retired renewable identification numbers that a small refinery previously used to satisfy its obligations under the renewable fuel standard program once that small refinery receives a retroactive exemption.

I request that a copy of the following records be provided to me: Emails between EPA employee David Hrdy and FDA employee Chris Sack on any/all of the dates from January 1, 2016 to May 10, 2018 that include the word glyphosate, and/or 2,4-D, and/or dicamba, and/or Monsanto, and/or Roundup, and/or honey. This should include email communication discussing "over the tolerance finding of glyphosate in corn." Separately, this request also seeks any communications between David Hrdy and CropLife America employees for this time span and between David Hrdy and any employee of Monsanto Co. This latter part of the request is not specific to communications that include the word glyphosate but is seeking all communications between Hrdy and these external contacts.

EPA-R9-2018-007585	Scott Pham		5/11/2018 18:05	Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552 et seq., I request copies of the following records: All entries for the digital calendar of Acting Regional Administrator Alexis Strauss for the dates between 05-01-2016 and the date which this request is fulfilled These entries are what Ivan Lieben has referred to as the "underlying entry for each calendar item." Please see attached emails for more information. I request these records in their native digital format, and not printed out, or converted to PDF files, or otherwise processed in a manner that would decrease the quality, quantity, or accessibility of the original information the records represent. A daily, weekly or monthly summary of the calendar would not be responsive to this request. Acceptable native formats typical of digital calendar output would include, but are not limited to, CSV, ICS and XLSX. If you determine that any fields in the requested data are exempt from disclosure, please redact those fields, specify the statutes that exempt them, and release all other segregable parts. I am comfortable working with very large databases in many standard formats, including SQL, CSV, XML, and Access. Upon request, I would be happy to provide a USB thumbdrive or external hard drive to facilitate the release of these records. Under the FOIA Improvement Act of 2016, agencies may withhold information "only if . . . disclosure would harm an interest protected by an exemption" or if "disclosure is prohibited by law." If you withhold any of these records, I request as required by the FOIA that you identify the reasonably foreseeable harm that would result from the release of the records. I am a journalist at BuzzFeed News. The requested records will inform my reporting, and I intend to use these records to inform the general public. Accordingly, I request to be categorized as a representative of the news media, per 5 U.S.C. § 552(a)(4)(A)(ii). I used to be able to download the following three files without setting parameters from this website https://www.epa.gov/npd/es/electronic-notice-intent-enoi, - Search, Sort, and View Construction NOIs submitted under the 2012 CGP - Search, Sort, and View Construction NOIs submitted under the 2008 CGP and LEWs - Search, Sort, and View NOIs submitted under the 2008 MSGP When I try to download without setting parameters the files will not load. If you have any questions, please don't hesitate to contact me at any time. Thank you very much.
EPA-HQ-2018-007743	Juan Carlos M. Rodrigue Law360		5/16/2018 19:05	W&M Environmental Group is requesting the open records for an industrial property currently under development at the intersection of County Road 401 and Collins Street, Mentone, Texas 79754. I don't currently have a specific address, but I do know it is just northwest along County Road 401 from State Highway 302. The two parcels in question are located in Section 84, Block 1 of the W. & M. N.W. RR Co. Survey. The GPS coordinates of this location are: 31.715849, -103.592194. I wanted to check with the EPA about some information on open records. Desired records include: Certificates of Occupancy, HAZMAT Responses, Fires, Tank Records, Records of known septic systems and grease traps, Notice of Violations, Complaints, Hazardous Materials Registrations, and anything environmentally related to the property. Any help is appreciated. Also, please let me know if there is someone I should be referred to about this type of request. Additionally W&M request any information regarding the FRSTX (Facility Registry System) listing for the Site address.

EPA-R2-2018-007792	Yessenia Funes	Gizmodo Media Group	5/17/2018 21:05	On Sept. 20, Hurricane Maria hit the island of Puerto Rico. EPA Public Affairs Specialist Elizabeth Sundin informed us that the Battery Recycling Superfund site in Arecibo, Puerto Rico, suffered some flooding in the hurricane's wake. In light of this knowledge, the concern residents of Arecibo has voiced to us, and prior incidents related to the Battery Recycling Company's site (before becoming a Superfund) where the EPA knew lead was leaching and failed to act in a timely manner to avoid a health crisis, we seek to shed light on the extent of the flooding that occurred after Hurricane Maria, and any contamination that may have resulted from it. Requested Records We request that EPA produce the following communications between it and the Junta de Calidad Ambiental, including but not limited to its governing board members and employees, within twenty business days and further seek expedited review of this request for the reasons identified below. 1. Communications related to the clean up of the Battery Recycling Superfund site after Hurricanes Irma and Maria that occurred both before or after the hurricane 2. Communications regarding any water, soil, or any other environmental contamination concerns as a result of Hurricanes Irma or Maria. 3. Communications highlighting any concerns officials had about the Battery Recycling Superfund site during this time that does not relate to Hurricanes Irma or Maria Please provide all responsive records from September 9, 2017, through the date of the search. The search for responsive records should include all individuals and locations where records are likely to exist.

EPA-R4-2018-007847	Alexander Ross	United Consulting	5/21/2018 15:05	We are conducting a Phase II evaluation of the environmental contamination and exposure related to the historic facility located at 1214/1246 Allene Avenue, Atlanta, Georgia, Fulton County, 30310. In operation under the names ESB, Inc. and/or EXIDE Technologies. As the target of concern is the underway 'Atlanta Beltline, Southern Corridor Expansion', an extensive public multi-use trail to span around Atlanta proper, we seek to more fully understand the potential of exposure and therefore obtaining additional records. Through standard regulatory review, provided by private third-party research, the facility was listed on the GA-SHWS and CERCLIS databases. If at all possible it would be immensely useful to have access to underlying reports concerned with the CERCLIS status of the site, specifically as it relates to contaminant monitoring, previous groundwater modeling, or current status of anticipated/executed actions. Thank you very much for your time!

This information is being sought on behalf of ThinkProgress for dissemination to the general public. I would like to receive all information in a digital format (.pdf, .doc, .docx, .xls). Please waive any applicable fees. Release of the information is in the public interest because it will contribute significantly to public understanding of government operations and activities. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees. As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone, rather than by mail, if you have questions regarding this request. I look forward to your reply within 20

EPA-R2-2018-008019	Stephanie Rosenberg	D&B Engineers and Architects	5/24/2018 19:05	<p>We are conducting a Phase II evaluation of the environmental contamination and exposure related to the historic facility located at 1121 Allene Avenue, Atlanta, Georgia, Fulton County, 30310. In operation under the name J & W Pallet and Drum Company. As the target of concern is the underway 'Atlanta Beltline, Southern Corridor Expansion', an extensive public multi-use trail to span around Atlanta proper, we seek to more fully understand the potential of exposure and therefore obtaining additional records. Through standard regulatory review, provided by private third-party research, the facility was listed on the CERCLIS databases (ID – 0407788). If at all possible it would be immensely useful to have access to underlying reports concerned with the CERCLIS status of the site, specifically as it relates to contaminant monitoring, previous groundwater modeling, or current status of anticipated/executed actions.</p> <p>T&M Associates is conducting a Phase I assessment of the property at 300 South Robertson Boulevard in Los Angeles, Los Angeles County, California, which is currently operated as U.S. Renal Care. EPA-R7-2018-008044	Christopher Ball	Foley and Mansfield NEU-VELLE	5/25/2018 14:05	We are requesting certified copies of all records related to inspections the EPA conducted at the facility located at 6040 N. Lindbergh Blvd., Hazelwood, Missouri. The facility operated under three different names: Kroger, Schnuck's Dairy, and Prairie Farms Dairy. We would like all records related to inspections during the years 1970 - 1995.Thanks for asking! Since this facility is a dairy, I was looking for any inspections that might reference the cleanliness or uncleanness of the site itself. I know that is not necessarily the EPA's purview, but if there was some sort of contamination of the facilities air of the structure itself, that was what I was hoping to capture. I had made a previous request specific to records of asbestos at the site, but I wanted to make a broader request to see if I could capture the general cleanliness of the inside of the facility in question. So, I am guessing that I'd probably be looking for inspections relating to the air, etc.

Two vehicles belonging to the renters of the apartment unit needed to be cleaned by the EPA of radioactive contamination. Could you tell me the year, make, and model of the two vehicles that needed to be cleaned? My request is that I be given information (notes) related to the vehicles that were owned by the residents of the apartments and cleaned by the EPA. I live in REDACTED and want to be assured that when me or anyone in my immediate family might buy a car from the used-car market that we are able to avoid unintentionally buying one of the cars that needed to be cleaned because of that incident.

EPA-R8-2018-008191	James R. Fricke	REMC	5/31/2018 17:05	In an effort to determine a safe threshold level of airborne manganese, Dr. Erin Haynes at the University of Cincinnati is undertaking a project investigating the historic levels of manganese pollution in Marietta, OH. I am gathering data for this analysis, and attempted to access the Emissions Inventory System, although this database appears to be closed to the public. For our analysis, we need the manganese (or manganese compound) emission report for Eramet Marietta Incorporated. The address of this industry is 16705 OH-7, Marietta, OH 45750. An ideal data set would include monthly and annual emissions data for this point source from January 1999 to December 2013. All supplementary information in the report about stack diameter, stack height, gas temperature, etc. is important for our analysis. The reports for each individual stack at the refinery at each time point, as well as the fugitive emissions reports at each time point, are necessary. I am requesting these emissions reports for our public health research.

EPA-R9-2018-008200	Lindsay Garner	HSG, LLC	5/31/2018 18:05	Hello, My name is Lindsay Garner and I work for HSG, LLC, a contractor to the Federal Government. HSG is currently preparing a Potentially Responsible Party (PRP) Search Report for the U.S. National Park Service (NPS) regarding two right of ways (ROWs) known as CARI-01328 and CACA-00390. These ROWs deliver water and electrical service to the Goldome Mill site (EPA ID: CAN000908600), which had a removal action completed. I have reviewed the Administrative Records for the Goldome site available online at https://cumulis.epa.gov/ . Are there other files (including confidential, sensitive, privilege, other) for the Goldome Mill site that the U.S. Environmental Protection Agency could provide to HSG, as a government contractor, or directly to the U.S. NPS (i.e., David Burdette, NPS Project Manager) as relevant information regarding the target ROWs could potentially be included with the Goldome Mill files. For example, if excavation work was completed at the Goldome Mill, underground services may have been located, documented, etc. If further information is needed, please do not hesitate to contact me. Thank you, Lindsay Garner

EPA-HQ-2018-008206	Hudson Munoz		5/31/2018 19:05	This is a request for records under the Freedom of Information Act. According to the EPA, "On March 15, 2017, EPA Administrator Scott Pruitt and Department of Transportation Secretary Elaine Chao announced that EPA intended to reconsider the final determination, issued on January 12, 2017, that recommended no change to the greenhouse gas standards for light duty vehicles for model years 2022- 2025. EPA announced it would reconsider that determination in coordination with NHTSA." • I am requesting a copy of communications between the EPA, Department of Transportation, and the National Highway Traffic Safety Administration about the coordinated reconsideration of the January 12, 2017 final determination.
EPA-HQ-2018-008210	Hudson Munoz		5/31/2018 19:05	This is a request for records under the Freedom of Information Act. I am requesting copies of communications between the Office of the Administrator and the Office of Air and Radiation about the mid-term evaluation of greenhouse gas emissions under the Corporate Average Fuel Economy standards. This request includes: (1) Copies of electronic communications between EPA employees in the Office of Air and Radiation and employees in the Office of the Administrator about the mid-term evaluation. (2) Copies of requests for information the Office of the Administrator sent to the Office of Air and Radiation that relate to the mid-term evaluation of CAFE standards. (3) Copies of materials such as memorandum, research briefs, presentations, technical reports, data, and any other informational material provided in response to the Office of the Administrator's requests for information. (4) Copies of records of meetings between employees in the Office of the Administrator and the Office of Air and Radiation about the mid-term evaluation. Communications include input, feedback, and any written exchange between the principal EPA office responsible for the MTE and outside organizations, other EPA offices, the Office of Management and Budget, or the Center for Environmental Quality. This is not a request for publicly available information available on the EPA website. My request is for communications between NGOs listed above and the EPA about the MTE and decision to revise the standards under Administrator Pruitt. Please limit your search to records created after February 1, 2017.
