Subject: **Transmittal
Analytical Results
PPG Oak Creek Facility
Oak Creek, Wisconsin
EPA ID# WID059972935
Wisconsin FID# 241014620**

Dear Mr. Nemani:

On behalf of PPG Industries, Inc., Shaw Environmental, Inc. is transmitting with this letter the tabulated analytical results and the groundwater elevation map generated as a result of the June 2008 sampling event at the former tank farm area of the Oak Creek Wisconsin facility. Samples and groundwater elevation information were collected on June 26, 2008 in accordance with the July 9, 2004 letter to you and the October 19, 2006 Hydrogeologic Evaluation Work Plan (Plan). Please note that when the groundwater level was measured at Monitoring Well TF-3, approximately 1.1 feet of product was observed above the groundwater table.

Consistent with the Plan, the next sampling event is being scheduled for late September 2008. We will continue to monitor analytical results, water levels, and the presence of free product and will evaluate the possible need to restart the underdrain system or implement other measures.

If you have questions regarding the analytical results, please let me know. Complete copies of this transmittal will go out in today's mail to the entire distribution.

Sincerely,

William Stanhope
Project Manager
