

The Water Infrastructure Finance and Innovation Act (WIFIA) program accelerates investment in our nation’s water infrastructure by providing long-term, low-cost supplemental loans for regionally and nationally significant projects.

LOUISVILLE AND JEFFERSON COUNTY METROPOLITAN SEWER DISTRICT

PROJECT NAME: Upper Middle Fork Pump Station

LOCATION: Louisville, KY

INVITED WIFIA LOAN AMOUNT: \$44 million

POPULATION SERVED BY THE PROJECT: 65,000

PROJECT TYPE: Wastewater

PROJECT DESCRIPTION: The Upper Middle Fork Pump Station project is the second phase of the Sanitary Sewer Discharge Plan portion of the Integrated Overflow Abatement Plan Project. It includes (1) replacement of the existing Upper Middle Fork Pump Station with a new efficient 30 million gallons per day (MGD) Pump Station, (2) installation of a relief interceptor to convey flows in excess of the current interceptor capacity, (3) installation of a diversion gate, and (4) extension of 30-inch force main from the pump station site to the Hikes Lane Interceptor. The purpose of the project is to control combined sewer overflows and mitigate sanitary sewer overflows and other unauthorized discharges from the Metropolitan Sewer District’s sewerage system. The project will improve water quality in Beargrass Creek within Jefferson County and the Ohio River within and downstream from Jefferson County.

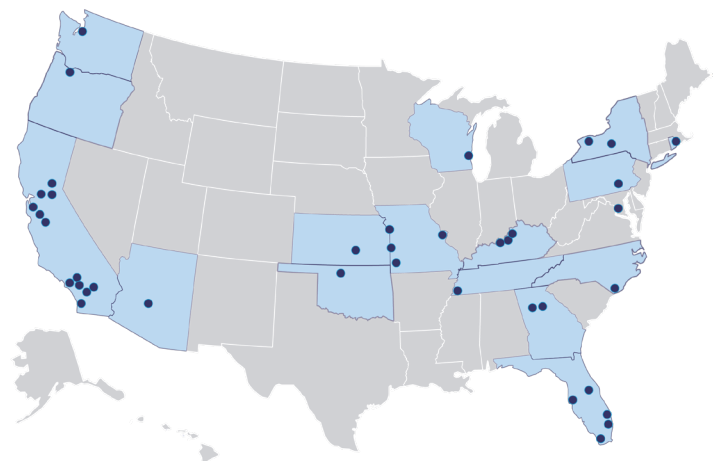

FY 2018 SELECTION ROUND

NUMBER OF PROJECTS SELECTED: 39

TOTAL LOAN AMOUNT: \$5 billion to public and private entities

TOTAL WATER INFRASTRUCTURE INVESTMENT SUPPORTED:
Over \$10 billion

NUMBER OF PEOPLE IMPACTED:
22 million in 16 states and Washington, D.C.

Selected borrowers must apply for a WIFIA loan, pass a final creditworthiness assessment, negotiate a mutually agreeable term sheet, and execute a credit agreement to receive WIFIA financing. An invitation to apply indicates that EPA believes the selected projects will be able to attain WIFIA loans.
