

Radiation Types and Sources Worksheet

Name: _____ Date: _____

Radiation is energy that travels in the form of waves or high-speed particles (photons) and makes up the electromagnetic spectrum. Radiation within the electromagnetic spectrum is divided into two major categories: ionizing radiation and non-ionizing radiation.

Electromagnetic Spectrum

Sources of Radiation

Cut out the sources of radiation images. Place them on the electromagnetic spectrum under the appropriate type of non-ionizing or ionizing radiation. Some types of radiation may have more than one source image.
