**Table 2 - Description of Violation and Vehicles/Engines**

The 171 subject engines described below were found to be imported by Motor HQ, Inc. in violation of Section 203(a)1) of the Clean Air Act (CAA), 42 U.S.C. § 7522(a)(1), and the regulations codified at 40 C.F.R. §§ 1068.101(a)(1) and 1068.101(b)(5), which collectively prohibit the importation of engines or equipment containing these engines, unless they are covered by a valid EPA certificate of conformity (COC) or are properly exempted or excluded. Under this entry, Motor HQ, Inc. did not declare the subject engines. No emission control information labels nor EPA declaration forms were found as part of the inspection. Since an EPA certificate of conformity (COC) has not been awarded to Motor HQ, Inc for the subject engines, they are considered uncertified. The EPA found no evidence that the subject engines are excluded from coverage. Hence, they cannot legally be imported into the United States.

**Table 3 - Penalty and Required Remediation**

Penalty	\$1,700
Required Remediation	Motor HQ, Inc. must destroy or export the 171 subject engines to a country other than Canada or Mexico and provide the EPA with a report documenting the corrective action taken.
