

Active Discretionary Grant Programs by CFDA (March 2019)

For purposes of this document, a discretionary grant program is generally one where EPA retains considerable discretion in selecting the recipient, determining the amount of the award, and/or negotiating and approving the assistance agreement work plan. The term does not include, for example, continuing State and Tribal assistance agreement programs or other continuing programs where awards are awarded based on an allocation formula prescribed by statute, regulation, or legally-binding program guidance.
