Dear Mr. Henson:

The U.S. Environmental Protection Agency has revised for a second time permit R10PSD00100, this time to correct a typographical error created with the issuance of the first revision to the PSD permit on October 10, 2019. The first revision's Condition 4.1.5 inadvertently referred to Condition 3.4 as requiring the use of a computerized kiln management system. It is Condition 3.5 (not 3.4) of the PSD permit that requires the use of a kiln management system.

Because the correction of the typographical error is de minimis in nature, we are processing the correction as an administrative amendment to the PSD permit, effective immediately. Enclosed find the addendum to the original permit, issued today.

If you have any questions, please contact Kelly McFadden, Chief, Air Permits and Toxics Branch, at (206) 553-1679 or [mcfadden.kelly@epa.gov](mailto:mcfadden.kelly@epa.gov).

Sincerely,

/s/ Kelly McFadden for 10/18/2019

Krishna Viswanathan  
Acting Director
