

## RFP for LFG Energy Project in Virginia - Meeting on November 14

*As a service to our Partners and other stakeholders, EPA's Landfill Methane Outreach Program (LMOP) is sharing information about a **Request for Proposals (RFP)** issued by **Region 2000 Services Authority (the Authority)** in Virginia. Please note that EPA is not affiliated in any way with the review and selection process. Information provided below is directly from the RFP.*

The Authority is soliciting proposals from qualified companies for the **development of a landfill gas (LFG) energy project** at its **Regional Landfill - Livestock Road Facility (LRF)**. The Authority will consider technically and financially feasible beneficial uses of the LFG, including electricity generation, direct use of medium-Btu LFG, production of renewable natural gas, or other suitable technologies.

The scope of work includes project planning, permitting, financing, design, construction, operation, maintenance and monitoring services, as well as marketing, sale and distribution of the LFG and its attributes.

A **mandatory pre-proposal conference** will be held at **10:00 AM (ET)** on **November 14, 2019**, at 361 Livestock Road, Rustburg, VA 24588. **Proposals are due** no later than **4:00 PM (ET)** on **December 19, 2019**.

The **RFP is available on the Authority's website** at <https://www.region2000servicesauthority.org/procurements.html>.

*To request removal from this email list, please reply to this message. For further information or questions about LMOP, please do not reply to this email message, but rather visit the [LMOP website](#). Thank you.*
