

RY 2019 TRI-MEweb Improvements Toxics Release Inventory (TRI) Program

Category	TRI-MEweb Page	Description of Improvement
Form Preparation	Add Form	A new chemical category, Nonylphenol Ethoxylates (N535), is available for RY19 reporting
Form Validation	Email	Users will be sent a reminder email on July 2if they have draft forms marked for deletion
Form Validation	Error List	Users will see a new critical error if sub-use codes for Section 3 are not entered
Form Validation	Error List	Users will encounter a possible error if the BIA code for a facility is different from the BIA code reported in the previous year
Form Preparation	Form Home	Users reporting for establishments will only be allowed to do so using the Form R
Form Preparation	Form Home	Users will be able to sort by chemical name in Form Home tables
Form Preparation	Form Home/Upload Form	Users will see a new waste water alert in the Form Home and Upload Form pages
Submission Status	My TRI	Users will see an Undeliverable Email notification on the TRI-Home page if CDX was unable to send them emails or if emails sent by CDX bounced back
Facility Management	Not Reporting	Users will be able to see optional Not Reporting data they submitted
Facility Management	Not Reporting	Users will be able to update Facility Contact Information from the optional Not Reporting page
Facility Management	Not Reporting	Users will be able to select the facility for which they are not reporting on the optional Not Reporting page
Form Submission	Review Forms	New Delete button is added to the Review Forms page and the Cancel button is renamed to Remove Certifying Official

Form Validation	Review Forms	Users will be prompted to Save their comments on the Error Validation List if they try to navigate away without saving
Form Validation	Review Forms	Forms that have not been edited for more than 5 years will be marked for deletion
Form Validation	Review Forms	Draft forms that have been marked for deletion will automatically be deleted on July 31
Form Validation	Review Forms	New Edit Form button is added under the Action column in the Passed Form section. If the certifying official was already nominated they would be removed.
Form Preparation	Section 4	Users will be prompted to review facility-level information if no changes have been made to this data during the past 3 reporting years
Form Preparation	Section 5	Users will be able to see a standardized list of parent company names and D&B numbers
Form Preparation	Section 5	Users will be alerted if they previously reported a non-standardized parent company name and D&B number
Form Preparation	Section 5.1 and 5.2	Users will be able to populate Section 5.1 and 5.2 data if they already reported to the National Emissions Inventory Program
Form Preparation	Section 5.4, 5.5 and 8.9	Section 5.4, 5.5, and 8.9 data will not be imported from prior year forms
Form Preparation	Section 6.1 and 6.2	POTW and off-site transfer locations without an EPA registry ID will not be imported and will need to be re-entered.
Form Preparation	Section 6.2	Users will be prompted to change off-site transfer location information to be applied to all forms in progress
Form Preparation	Section 8	Users will be able to see the formula used for Section 8 calculations
Form Preparation	Section 8.9	Users will not be able to report Not Applicable (NA) for Section 8.9 (Production Ratio or Activity Ratio) for Form A or Form R if they reported that chemical in the previous year.

Submission Status	Submission History	Users can view the Form Summary and Error Summary reports for certified forms on the Submission History page as well as the certification confirmation email
Submission Status	Submission History	Users will be able to bulk download all certified forms from the Submission History page
Form Submission	TRIFID Signature Agreement	Users will be able to see the title they provided on the TRIFID Signature Agreement
Form Preparation	Upload Forms	Users will see a cancel button if XML takes more than 5 minutes to upload
Form Preparation	Various pages	Users will see an " <i>Includes parental metal</i> " checkbox for metal compounds to confirm that the Form R includes totals for the elemental metal/parent metal.
General	Various pages	Users can utilize a guided tour functionality to learn about main features on various pages
General	Various pages	Users will be able to see a " New " icon for most new features in RY19
